LASER ENGRAVING (Eng)

Engraving on leather products

Engraving on plastic products

360 -degree rotary engraving

Our machines offer engraving on not only flat hard surfaces but also on round surfaces from only a few degrees up to full 360 degree engraving. Also, engraving is possible not only on metallic surfaces but also on non-metallic surfaces such as plastic (eg. Pens, bottles), Jute (eg. Jute bags), rubberized surfaces, hardboard surfaces (eg.Notebooks) and Leather surfaces (eg. Portfolios, organizers, wallets etc.)

UV PRINTING (UV)

Rotary 360 degree printing

Raised logo effect

UV printing gives way to printing on virtually almost anything, coated or uncoated, from plastics and glass to wood, metal silicon, leather, acrylic etc. This printing method is best for branding that involves gradation effect, articles that need edge to edge printing (flat surfaces) and 360-degree printing (round surfaces).

This technique also allows branding to be done in a way that gives appearance of depth and added gloss. Our raised print gives a 3D effect, which leaves conventional printing flat by comparison. Not only does the raised image present us with a visual treat, it is also a wonder to touch! It is also possible to raise certain elements of the print and keep the other elements flat.

Our machines are also capable of adding a gloss effect to a flat or raised print.

SILKSCREEN PRINTING (SC)

Screen printing gives high quality, long lasting results on flat surfaces. Inks are pressed through mesh stencils to produce clear, sharp images that are ideal for logos and text. Screen printing is ideal for large quantities.

Pad printing

Pad printing is a printing process that can transfer a 2D image onto an object. It's a commonly used decoration technique as it can be printed on all kinds of shapes and textures.

Embossing

EMBOSSING DEBOSSING (Emb)

Debossing and embossing are two techniques used to imprint images onto paper, leather, or vinyl. In embossing, an image is pressed into the material so that the image raises from the surface. Debossing is the opposite of embossing; the area around the image is pressed so that the image is pushed down into the material rather than raised.

Debossing

Gold Foiling

FOILING (FO)

Foiling is the application of metallic or pigmented foil on to a solid surface by application of a heated die onto foil, making it permanently adhere to the surface below leaving the design of the die. Foiling process requires a hard and flat surface.

Silver Foiling

EMBROIDERY

This traditional decorative technique is instantly recognized as a high quality feature that works really well for adding extra perceived value. Embroidery can be applied to both flat and irregular surfaces of all kinds of woven and knitted textiles; Widely used for polos, caps, jackets, uniforms,etc.

HEAT TRANSFER PRINTING (HT)

Heat transfer is carried out by creating a screen print image on paper and applying heat and glue to imprint the image onto the chosen article. This technique can be applied onto all kinds of woven and knitted products. This technique is preferred over screen printing when full color (CMYK) printing is needed.

DOMING EPOXY (DM)

Doming is a technique in which a clear resin is sprayed on a print. This produces a beautiful three-dimensional effect. The technique is used for a variety of applications, such as key chains, USB, Desksets etc.

The Only GIFT CATALOG that matters

A TEAM of technocrats, engineers, designers, IT & ERP professionals & millennials run the organization. We consider Quality, Functionality, Fair Purchase Pricing, Compliant Supply Chain and Uniqueness when selecting Product Lines and Vendors. We go for the Pioneers & the Path–Breakers, the brands you and your brands want to associate with.

1. Moleskine:

This Global brand is a case study by itself, on why a MOLESKINE Note-book is a definitive MUST- HAVE ASPIRATIONAL gift. No wonder, Moleskine Notebooks are coveted by CEOs, Senior Managers, Achievers and Royalty!! Writing instruments & Premium Quality Leather Goods from Moleskine are acquiring the same status – the MUST-HAVE valuable articles of personal use. For most of us Moleskine Notebooks are the Rolex of Notebooks.

2. XDDESIGN:

A brand from Holland, this is the first & only designer brand born to serve the Gifts & Promotions industry when generally aspirational brands originate for the retail industry and extend their arms to the gifts sector. The XD Design Studio is multinational & multicultural; every article is one-of-a-kind with a story to tell.

3. S-KROSS:

This popular Swiss company is the inventor of the modern travel adapter, one of the highest selling corporate gift products. After 15 years S-KROSS retains market leadership for safety, quality & design.

4. SANTHOME:

This brand from the British Virgin Islands stands for quality & value, and has become one of the most recognized brands for polos, caps, bags, portfolios and tech items.

5. OTTO HUTT:

Solid Sterling Silver Writing Instruments made entirely in Germany. Every individual piece is produced and handled like a piece of Jewelry. For over 100 years OTTO HUTT pens are a connoisseur's delight!

6. Tech & Wellness Products:

We have the latest game-changer collection of multifunctional & multiutility gadgets that are cool, useful and reliable. They change the life of the users dramatically by adding a lot of value, saving time, providing data and automating basic work.

7. Polo Shirts:

A very wide and unique range of polos and textiles from SANTHOME are available in ready stock; these are good for evening wear, gyms, weekend wear, and corporate uniforms. Shrink-free, color-fast and shape retention are characteristics that make these garments reliable and coveted!

8. DIGITAL E-GIFTS:

TagMyPhone and Keyfetch, the socially responsible Gifts with an extremely high brand recall value; The first gifts catalogue to introduce a completely out-of- box experience of digital, viable, cost-sensitive gifts in the region, & amongst first three globally.

Moleskine smart writing set   255.96 $

Watch your ideas travel off the page and evolve on screen with the new generation MoleskinePaper Tablet, Pen + and companion app. Enjoy the hands-on immediacy of putting pen to paper, teamed with all the advantages of digital creativity.

Distinctively rounded pages project beyond the cover to reflect the shape and look of a digital tablet, while thicker and more resistant 100 g/m² paper provides the perfect surface for writing and sketching.

The Paper Tablet uses invisible Ncoded technology embedded within each page, which enables the Smart Writing Set Pen+ to recognize where it is within the notebook and to transfer all your freehand notes from page to screen in real time. It allows you to smoothly digitize, edit, organize and share handwritten notes and sketches made on the move, for seamless integration between paper and cloud.

Safe + Simple + Swiss

SKROSS® – Swiss innovation

SKROSS® invented and patented the first all-in-one world adapter with country slider system in 2002. The World Adapter Classic promptly became a worldwide bestseller. Exports to over 60 countries confirmed that high-quality, multifunctional travel adapters that are both safe and compact attract tremendous international interest.

The company is the global market leader for high-quality travel adapters.

Using international standards as the basis for product development

At SKROSS®, safety is always at the centre of the entire development and production process. The standards defined by the International Electrotechnical Commission (IEC) form the foundation for the development team to design innovative gadgets that give you access to power anywhere in the world. Extensive quality controls accompany every production phase, with final certification processes documenting each product's compliance with IEC standards.

Simple charging – any time

With SKROSS®, staying fully charged is simple – anywhere around the world, on all continents. The patented country slider system ensures connection in over 150 countries. At the same time, SKROSS® products remain the most compact and easy to use on the market. That is what makes SKROSS® unique. And this has already impressed not just millions of travellers, but many judging panels as well. SKROSS® products have won numerous Red Dot Design Awards and Product of the Year accolades, recognising both their functionality as well as their design.

SKROSS® – a global player from Switzerland

Today, SKROSS® operates in over 100 countries around the world, successfully positioning itself as the market leader in the field of high-quality travel accessories. Our products are available from duty-free shops in all major airports around the world, from the in-flight shops of all the leading airlines and from private retail outlets.

THE SKROSS APP

Do you want quick, simple information on which plug sockets are used in the country you're travelling to? Whether you're at home or on the road, the brand new SKROSS® app helps you find your way through the electrical jungle – even offline!

When it comes to the latest products for today's modern traveller, SKROSS® always has its finger on the pulse. This includes a contemporary approach to presenting information. SKROSS® has therefore developed the perfect app for your travels. Find out which adapter you need in which country – in an instant. Once installed on your smartphone, the app can be used at any time, even in offline mode. You don't need an internet connection to explore new destinations. You can define your criteria using the intuitive menu system. In just a few steps you can find out how to make (electrical) connections across the globe. And while you're at it, you can also learn a few interesting facts about our destination, such as the capital city, dialling code, currency and much more: everything you need to know about any country in the world is in the palm of your hand.

MOLESKINE

THE MOLESKINE STORY

FROM LEGENDARY BEGINNINGS.

The Moleskine notebook is the heir and successor to the legendary notebooks used by artists and thinkers over the past two centuries: among them Vincent van Gogh, Pablo Picasso, Ernest Hemingway and Bruce Chatwin. A simple black rectangle that held the sketches, notes, stories and ideas that would one day become famous paintings or the pages of beloved books. In the mid-1980s the notebook that Bruce Chatwin nicknamed 'moleskine' became increasingly scarce and then disappeared completely. In 1997, a small Milanese publisher brought the legendary notebook back to life, choosing this literary name to revive an extraordinary tradition of creativity and self-expression for the contemporary creatives of our time.

CUSTOM EDITIONS

THE BRAND

A CULTURAL ICON

Moleskine is a brand admired for its aspirational qualities, which are grounded in inclusivity. It was ranked #6 in *The Top 200 Lovemarks* by Saatchi & Saatchi, holding this prestigious position along with Apple, Google and Coca-Cola. Its strong connections to art, culture and the global creative community are transmitted through PR campaigns, high-profile cultural partnerships, Limited Edition projects, social media and digital marketing. The brand values are founded on five pillars:

CULTURE
Moleskine is a cultural icon, a brand that tells a story. A Moleskine object connects the owner to a heritage in art, literature, culture and geographical exploration.

IMAGINATION
Moleskine collections are open platforms for creativity, trusty companions for meaningful existential experiences.

MEMORY
Moleskine is a brand connected to the collection of memories, the organization of time and priorities in our working life and in leisure time.

TRAVEL
Celebrating contemporary nomadism, Moleskine offers a collection of tools to accompany everyday and extraordinary journeys.

PERSONAL IDENTITY
A Moleskine object becomes an integral part of one's personality. It's a basic, compact and intelligent tool. The things we carry around with us, brought together, help to convey our personalities, expressing our interests and tastes.

otto hutt

All Otto Hutt writing instruments are made entirely in Germany and combine meticulous craftsmanship with fine details.

Materials used include 925 sterling silver with rhodium , platinum, palladium, ruthenium plating.

Otto Hutt established this factory in 1920 in Pforzheim, Germany, the city that produces 80% of jewelry exported from Germany. Every pen is produced with the precision of jewelry.

Pforzheim manufacture 1930. Photo: Notton

All Otto Hutt writing instruments feature a 6 digit serial number; a unique identity to every pen.

PRESENTING A NEW TYPE OF WALLET
THAT PROTECTS AGAINST FRAUD IN THE NEW WI-FI ERA.

S ANTHOM E
SECURITY FOR YOU

How the card holder protects?
The aluminium Cardprotector protects your most important plastic cards not only against bending and breaking, but also against malicious parties reading your RFID and NFC cards. RFID (Radio Freqency IDentification) cards contain a chip and an antenna for wireless communication.
Examples of RFID cards include the Travel card, ID cards, the latest generation of credit cards and bank cards, as well as various access passes.

Using the Cardprotector
The Cardprotector can hold a maximum of 7 cards. If only embossed cards are used, the capacity is 5 cards. Position the cards you use the most at the back or front and they will slide out sufficiently to be used. Slide out the cards with ONE movement of the slider on the side. The radio signal, although still greatly reduced, will now be sufficient for contact over a short distance. This means that you can use your RFID-NFC cards easily and securely. After use, slide your cards back into the Cardholder by pressing down on them lightly.

Caution - Promoclips do not cut fingers & papers. Are you sure about other brands ? Buy only the original.

Promoclip original

Finish your precious correspondence with an original Promoclip carrying your own logo. More and more companies decide to distinct themselves this way.
A Promoclip matches your corporate identity perfectly and offers space to print your logo and to promote your website or slogan.
Promoclips are easily put on paper by giving it a gentle twist. Each clip has been carefully smoothened to avoid possible damage to the paper.
Also the patented bends on the back of the clip enable you to put on a clip without using any force.

ML Clip original

ML Clips are considerably larger than Promoclips and offer enough space to print a product photo or state your complete company details.
Not only its size, but also its strenght is unique: an ML Clip holds 2 to 35 sheets of paper together!

This clip is really one of a kind. Available with digitally printed labels or laser engraving.
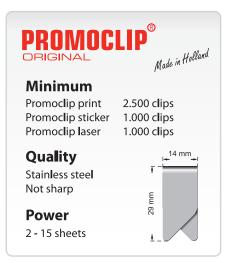

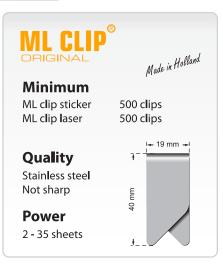

CUSTOMISED

CUSTOMIZED

XL Clip original

The XL Clip safely holds together bank notes, credit cards and receipts. Carrying a solid laser engraving, the XL Clip offers sufficient space to show your logo and even a message.

Give your client an XL Clip as a 'thank you' and he will think back of you frequently.
Obtainable in a semi-transparant give away box, offering space to leave your business card as well.

Already available as of 50 pieces.

COB (CHIPS ON BOARD) XD

COB is a revolutionary lighting technique that will replace the traditional LED light in the coming years.

COB is multiple little lighting chips placed on a flat yellow strip which provide many advantages:

-COB is one steady light source giving a much higher quality of light than LED using multiple small light sources.

-COB uses the energy sources more efficiently than regular LED lights resulting in a longer life cycle for the product.

❸ Trendy placket that ends with chain-loop stitch. No more outdated *box stitches!*

❹ Stylish buttons. Branded.

"ORCA is found in Antarctica and Arctic oceans. Also called ' Killer Whales', it is the largest of the Dolphin family. They are beautiful, intelligent, fast, strong and yet the most social of all sea animals! They are said to have great tolerance in varying temperatures. That is the reason they enjoy world-wide distribution. Most interestingly, it's the only species in the world that has both the male and the female offspring stay with their mothers and immediate family forever...!

These wonderful creatures have inspired us to bring to you exclusive polos. Their 'killer look', beauty, sheen and lustre is attributed to the MERCERIZING process. The premium cotton rich material makes it extremely comfortable in all climatic conditions. The collar, cuff in the birdie configuration sets new standards in their making.   The bold loop stitches all over the hems and shoulder make them unique and yet resilient. Finally just as the ORCA, this polo will stay with you for long time to come.

Shouldn't then it be called the ORCA POLO?"

SANTHOME

Dryncool is an advanced Moisture Management system (MMS) that helps keep the skin cooler & drier - more comfortable by transporting sweat to outer layer.

Executive wear.

Premium quality.

No-fuss performance.

Creaseless.

Item : Tropikana   **Content** : Dryncool fabric with UV protection
Measurment : Gulf   **Sizes Available** : S, M, L, XL, XXL, 3XL

The subtle combinations of corporate colors on sleeves, collar, placket & pocket give a modern, stylish, yet a corporate look to this polo.

UV protection fabrics are rated between UPF 25-39. Ultraviolet protection factor (UPF) measures blockage of UV-A and UV-B rays. A UPF rating of 25-39 means that our fabric allows 1/25th to 1/39th(2.56- 4%) of UV radiation that falls on the surface of the fabric to pass through it. Thus, 96- 97.4% of UV rays are not allowed to reach your skin thereby protecting the skin from sunburn and long term skin damage.
