

The human cost of EU citizens **IN LIMBO** - what does it mean for Norwich?

Imagine that for years or even decades you thought you were a citizen living at home in the UK. Then one morning you woke up to find yourself an unwanted migrant. This is what has happened to three million EU citizens living in the UK since the Brexit referendum.

Join us to explore this not-for-profit best-selling book. A must-read collection of powerful and moving testimonies by EU citizens in the UK, Brits who have EU citizens as spouses/partners and Brits living in the EU.

We will be joined by EU citizens who have resided in Norfolk for many years so they can personally share their experiences. We will also be joined by local political figures and the creators of this unique project in order to open the discussion about our common future.
