FUND*perfect*

FUND*perfect* is a comprehensive Merchant Funding Solution that handles the entire process of funding and collection.

From small organizations to multi-level, nationwide funding institutions, FUNDperfect provides automation efficiencies in every step of the processing chain.

Through a series of "flow points" the entire fund and loan process can be streamlined through **4 simple steps:**

- **Advantage Lead Generation**
  Save substantial time with pre-defined business rules while capturing merchant and owner details in a single page user-friendly format.
- **Advantage Risk Evaluation**
  A comprehensive and easy to use funding calculator assists in making informed decisions by calculating optimal loan amounts and terms without the risk of damaging a merchants business continuity.
- **Advantage Approval**
  A streamlined process ensures quick TAT and subsequently improves client-experience. Merchants build long-standing relationships with funders due to simplicity in process, trust and dependency over capital resource.
- **Advantage Automation**
  Automated collections on a daily basis through Credit Card Processors (split batch), Lock Box Operators (fed by the Processors), ACH Transfers, or Direct Payment by the merchants ensuring timely repayment.

SAFE

SAFE is a simple and easy to use locker management system that improves your locker management process and intuitively automates collections from your respective customers.

Properly managed through a competent solution, 'Locker Facility' unlocks a new & recurring revenue stream.

Key benefits include:

- Reduce operational and administrative overheads
- Increase visibility over locker management process flow
- Automation enabled management that increases control over entire service portfolio
- Real-time analytics through a dynamic dashboard to support business decisions with a shorter time frame
