experience

- 2017 – Now **interact.io** Product Manager Berlin, Germany
Overlooking Leadscore.io, integrated Communication, CRM and Sales Automation tools for high-growth companies
Led a complete redesign based on KPIs, shipped multiple key features while managing whole lifecycle from ideation to implementation in agile sprints. Prioritized backlog, defined requirements while constantly identifying improvements through customer research
- 2016 – 2017 **Weegree IT** Co-Founder Opole, Poland
Software house specialized in Humanoid Robots
Co-founded and acquired capital while growing and managing two agile teams for the development of verbal interfaces for Humanoid Robots (Pepper by Aldebaran) and recruitment automation software. Acquired and serviced clients whose scope comprised local businesses and national enterprises
Operating as a subsidiary of Weegree
- 2014 – 2016 **Remark Media** Software Developer Las Vegas, USA
mobile OTA roomlia, TOP 1 in AppStore Travel, acquired by Remark Media
Developed a cross-platform(iOS & Android) mobile hotel booking app roomlia. In collaboration with Samsung, conceptualized and implemented one of first complete hotel booking experiences for a smart watch (Gear S) and prototype for Virtual Reality (Gear VR)
- 06-09 2014 **Azetti Networks**, Software Development Intern Madrid, Spain
Development & QA of Azetti Push-to-talk Android app for primary use by first-needs responders, enabling low cost intra-communication, developed an automated TCP reliability testing software with graphic output

education

- 2012 – 2017 **B.Sc** in Computer Science , 4.8/5 GPA Opole University of Technology
Erasmus Student Network - Vice-President, managing a group of 30 volunteers to organize cultural and entertainment events for foreign students while caring for volunteers' self-development by arranging trainings
- 2013 – 2014 **B.Sc** in Computer Science Lucerne University of Applied Sciences
Design Thinking Course – in 4 cycles designed an interface for Siemens Smart Home system, ended by a presentation to Siemens CH executives
Solar Decathlon Europe – 5th place globally. Software Engineer and Web Developer
