

# SMART HOME SOLUTIONS

Control 

# LIVING LIFE AUTOMATICALLY

Imagine living in a home that obeys your every command...where virtually every device and system can be controlled remotely and automatically. You can use your tablet to control your home theater, dim the lights, stream music throughout the home, lock the doors, turn up the heat and arm the security system. Or use your smartphone to do the same from not just anywhere in your house—but from anywhere in the world.

Welcome to Control4® automation, a smart automation solution for homes that makes it easy for you to intelligently control every aspect of your home—from TVs to thermostats, door locks to shades—no matter where you are, using one simple-to-use interface. Control4® solutions make your life more comfortable, more efficient and more secure.

Best of all, Control4® technology gives you the power to personalize your home with the home automation system of your dreams—all within your budget.

# THE GENIUS OF THE SMART HOME

## CONTROL4® HC-800 CONTROLLER

Designed to serve as the primary controller for every Control4® installation, the HC-800 has the power to connect and control virtually anything in the home at blazing-fast speeds.

- › Instantaneous, interactive on-screen control and browsing of large media libraries
- › Certified HDMI with audio and video, plus extensive audio inputs and outputs, IR, serial, contacts and relays for reliable connectivity
- › Sleek, elegant design for flexible installation in a cabinet, on a shelf or in a rack

Through the Control4® interface, it's easy to control and automate virtually any home function—even from a light switch. That's genius!

## THE BRAINS

It all starts with a controller, the central hub of every Control4® system. The controller runs the operating system for your home, giving you the power to control and automate virtually any home function, including your home theater, music, lighting, temperature, security system, appliances and more.

Each model allows you to build anything from a basic home theater system to a whole-home automation solution. Sleek designs make them easy to either place behind a TV or mount in a rack, so they're always out of sight. Additionally, controllers offer features such as audio streaming, intercom capability and effortless control of your favorite electronic devices.

## THE BEAUTY

What makes Control4 products so easy to use is our intuitive, elegant user interface, which is virtually the same on every device.

For the family room, you may prefer a remote that gives you total control of the house right from your TV. In the kitchen, you might prefer an elegant in-wall touch screen that makes it easy to monitor the house at all times. Or with the Control4® app, control everything from your iPad, iPhone, Android device or PC.

Eliminate the need for multiple remotes. Control4 solutions simplify the control of everyday audio, video and home theater components.

# GOODBYE CINEPLEX HELLO CONTROL4

You can transform your family room into a state-of-the-art home theater—and have the foundation for what you need to ensure your smart home can keep getting smarter. Watch TV, access your movie collection or Apple TV/streaming device or enjoy your entire music library using your smartphone, tablet, or an easy-to-use remote. All it takes is one tap to have the lights fade and the sound kick in at the perfect volume.

## CONTROL4® SYSTEM REMOTE CONTROLS

Control your home theater and your whole house from one remote.

- › The SR-250 features a high-visibility screen and backlit keys for easy use in any lighting conditions
- › A single button turns on your AV gear so you can start watching or listening to your favorite movies or music instantly
- › Use the SR-250 list navigator to conveniently control your system from the remote, or use the remote to operate your system from your TV screen

## CONTROL4® REMOTE RECHARGING STATIONS

Keep your SR-150 and SR-250 System Remote Controls always charged and ready to control.

- › Low-profile charging cradle with a small power supply and a lithium polymer battery kit provides hundreds of charge cycles for years of performance
- › Available as a kit with a charging cradle and an SR-250 or SR-150 if you want to add new remotes to your system

# YOUR MUSIC **YOUR WAY**

With unprecedented control over your audio, Control4 technology will change the way you listen to music—forever. The intuitive user interface makes it a breeze to browse through your music collection and play any song you want, at any volume, in any room of the house.

- Hear classical in the den, jazz in the kitchen, and rock in the teen's room—all at the same time
- Play songs from your favorite streaming services, like Spotify® or Pandora®; SiriusXM™ satellite; or your iTunes® music library
- Distribute music to different areas in the house with multi-zone amplifiers
- Send music from virtually any source, including your smartphone or tablet, to any room in your house with the Control4® Wireless Music Bridge; even guests can stream music throughout your home

## **CONTROL4® 4 & 8-ZONE MATRIX AMPLIFIERS**

Full matrix switching, amplification and volume control in one product.

- › 4-Zone model delivers 60W per channel of high-quality sound to four stereo speaker output zones and includes four analog and two digital source inputs
- › 8-Zone model provides 120W per channel of power to eight stereo speaker output zones and includes eight analog source inputs
- › Advanced parametric equalizer capability and the Control4 Equalizer app drive professional-quality sound

## **CONTROL4® WIRELESS MUSIC BRIDGE**

A simple, elegant way to enjoy music available on your phone, tablet or computer through your Control4 system.

- › Wirelessly connects your own music collection as well as streaming music services like Pandora and Spotify
- › Combines AirPlay, DLNA and Bluetooth technologies, allowing connectivity with virtually any smartphone, tablet, PC and Mac
- › Delivers your music artwork and metadata to Control4® touch screens, on-screen displays and Control4® apps

## **STREAMING MUSIC SERVICES**

Enjoy your favorite online music through your Control4 system.

- › Napster: Enjoy more than 15 million songs in every music genre—from the latest releases to your personal favorites. Rhapsody: Access more than 15 million Rhapsody songs or playlists directly from any Control4 touch screen or TV, or your smartphone or tablet
- › TuneIn: Listen to 70,000 Internet radio stations and millions of podcasts, talk shows, news and sports programs from around the world—all through the intuitive Control4® user interface
- › Enjoy any of your favorite streaming music solutions, including Pandora and Spotify, using your mobile device and the Wireless Music Bridge

# SMART LIGHTING IS A BRIGHT IDEA

Whether you want the perfect ambiance in every room, one-touch control, or just an effortless way to save energy, Control4® home automation is the simple solution: total control over every light in the house—from across the room or across the globe.

- Have the lights in the house turn on automatically to welcome you home
- Turn off all lights with a single touch—except for the kids' night light
- Program the lights to shut off automatically when a room is unoccupied
- Set the lights to dimmer levels to create a mood or save energy
- You can control lighting scenes throughout your home from a central keypad or touch screen—no more dashing through the house to flip switches.

## CONTROL4® DECORA® WIRED AND WIRELESS KEYPADS

Control virtually anything with one-touch ease using these elegant Decora-style keypads in an array of sophisticated colors and finishes.

- › Four button sizes can be arranged in up to 37 different configurations so you can choose the best solution for each individual keypad
- › Customizable LED colors for visible status updates
- › Buttons can be custom engraved for easy identification
- › Ambient light sensor automatically adjusts backlight and status LED brightness based on current room light level

#### CONTROL4® WIRELESS SWITCH

- › On/off control for virtually every type of load, including LEDs, incandescents, halogens, electronic low voltage (solid state) transformers, magnetic (iron core) low-voltage transformers, fluorescents, compact fluorescents and motors—including ceiling fans and bathroom ventilation fans
- › Handles high in-rush loads such as fountain pumps or large banks of fluorescent lights
- › 120V/277V or 240V

#### CONTROL4® WIRELESS ADAPTIVE PHASE DIMMER

- › Compatible with a broad range of dimmable load types including most LEDs, incandescents, halogens, electronic low-voltage (solid state) transformers, magnetic (iron core) low-voltage transformers, fluorescents and compact fluorescents
- › 120V, 240V, or 277V

#### CONTROL4® WIRELESS CONFIGURABLE KEYPAD

- › An elegant and customizable user interface that unlocks the power of one-touch automation, enabling control of lighting plus control of audio, video, security and more
- › Configured with two to seven custom-engraved LED backlit buttons, using four different button sizes, for a total of 37 possible configurations
- › 120V/277V or 240V

## COLOR AND FINISH OPTIONS

Control4 wired and wireless lighting controls are available in a wide variety of colors and finishes.

#### Gloss

White
Black
Light Almond
Ivory
Brown

#### Satin

Snow White
Aluminum
Biscuit

NOTE: Light almond, ivory and brown are not available for all 240V products. Control4 Wired Keypads are available only in white and black. Metal finishes are for faceplates only.

24/7 home monitoring and control from your favorite mobile device. Your Control4 system keeps you in-the-know with email or text alerts based on actions at home.

## A LITTLE PEACE OF MIND GOES A LONG WAY

If you want to know what's happening at home when you're away on business or just see who's at the front door, no problem. The Control4 system incorporates your lights, locks, and more to automatically make your home more secure. And with the Control4® 4Sight™ Service, "being home" is as easy as picking up your phone or hopping on your computer.

- Lock every door and arm the alarm, all with a single touch
- Check on the kids, whether you're downstairs or downtown
- View the video feeds from your security webcams—any time, anywhere
- Receive a text alert when the Control4 system senses trouble at home, including water leaks
- Assign temporary security codes for deliveries and service workers
- Let yourself in when you forget your keys
- Randomize lights and AV equipment to make it look like you're home even when you're not

## SMART LOCKS

Control4 automation systems seamlessly integrate with smart locks from Kwikset to provide you with full control over your door locks. With a 4Sight subscription, set custom passwords, get alerts and lock or unlock doors from anywhere in the world, to make sure your home or office is safe and sound.

## CONTROL4® DOOR STATION

Convenient communications, monitoring and control of a front door or gate for added peace of mind.

- › Available in Satin Nickel, Satin Black and Venetian Bronze
- › Integrated camera with H.264 full-motion video
- › Integrated speakers and dual microphones with beam-forming and wideband audio for incredible intercom sound
- › Flexible installation options with WiFi or Ethernet and AC, DC or PoE power

## CONTROL4® 7" IN-WALL TOUCH SCREEN WITH CAMERA

Enjoy dedicated control and high-performance video intercom capability in a sleek, in-wall touch screen with four programmable buttons.

- › Edge-to-edge capacitive glass and low-profile mount deliver a visually stunning, total-control solution
- › Integrated camera with high-fidelity H.264 full-motion video intercom
- › Integrated speakers and dual microphones with beam-forming and wideband audio for crystal-clear audio intercom
- › Supports WiFi and Ethernet, and AC or PoE power
- › Available in black and white

## SENSORS

From garage door packages to water leak kits, from motion sensors to contacts and relays that can be placed on doors, windows or cabinets throughout your home or office, Control4 automation integrates with thousands of products designed to make sure you are always in control.

## SECURITY SYSTEMS

Make sure your security system is completely in sync with your Control4 automation system. We work with the top security systems to integrate alerts and notifications, arming and disarming with the rest of your automation system.

# BE COMFORTABLE SAVE ENERGY

With Control4 automation, it's easy to save energy and money without compromising comfort. During summer months, you can set the air conditioning to switch off automatically when no one is home. In the winter evenings when you find yourself late at the office, just hop online or use your smartphone to adjust your thermostat levels so the heat doesn't kick on until you're a little closer to home.

- Replace your current thermostat with a Control4® Wireless Thermostat to keep your home at a more energy-efficient temperature while you're out
- Program your shades to close during the brightest hours of the day
- Use dimmers, timers and occupancy sensors to reduce energy waste
- In case of a fire, have sensors automatically shut down the HVAC system to contain smoke and flash the lights outside your home to signal help

## CONTROL4® WIRELESS THERMOSTAT

Easily add advanced temperature control to respond to the season, event or time of day.

- › Bi-directional communication with all Control4® interfaces
- › Stand-alone functionality
- › Up to six customizable set points per day

# WHY CONTROL4?

**WE'RE A PROVEN LEADER.** We train and certify our authorized dealers to install intelligent, open, and affordable automation solutions that will work in homes, businesses, and major hotels all over the world. You can be confident we'll be a great addition to your home, too.

**WE BELIEVE IN CHOICE.** Control4 is an open platform. That means we embrace standards and work with the industry's most innovative third-party developers to ensure you always have choices when it comes to the devices, apps and products you want to control. It also ensures you'll enjoy your investment well into the future.

**WE THINK WAY BEYOND A BOX.** We revolutionized home automation when we introduced the first affordable intelligent control solution. Every year, we innovate more with new products that speak directly to the needs of our customers. You can expect the great ideas to keep on coming.
