

HOW TO CREATE A TUTORIAL TO IMPORT A PDF DOCUMENT ON A HACK MD PAGE

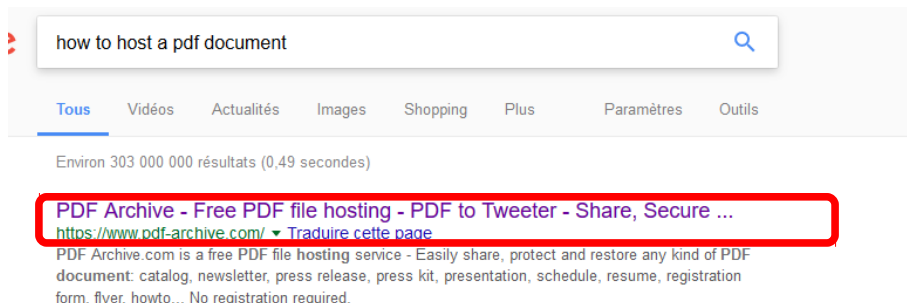

First you have to convert your office writer document in a PDF one. For that click on “file”, then click on “export as PDF”.

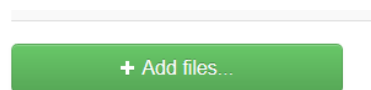

Now click on “export”.

Well you now have a PDF document.

So now you can go on google and write “how to host a PDF document” in the search bar. You must arrive on this page:

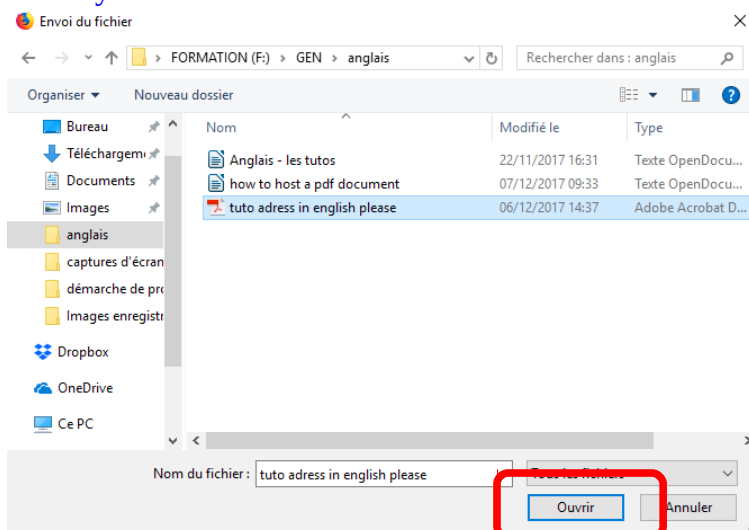

Choose the first result and follow the instructions.

Click on “add files” and search in your files the one you want to host.

Here: “tuto address in english please”

click on “open”

After that you have to enter your mail address in the box below to receive the links to your PDF documents.

+ Add files...

✓ tuto adress in english please.pdf 226.15 KB Delete

lerouxfanny@live.fr

To receive download links and edit/delete your files at any time, please enter a valid e-mail address.

→ Continue

Click on “continue”

Upload complete:

Congratulations! Your file have been successfully sent on pdf-archive.com.

1 document:

fichier-pdf.fr tuto adress in english please.pdf

Download link: <https://www.pdf-archive.com/2017/12/07/tuto-adress-in-english-please/> Go

Short link: <https://document.li/5tz4> Go

vignette indisponible!

f t g+ in

then click on “Go”

A confirmation e-mail including download links of your files have been sent to your e-mail address. To receive a copy of this message at another address, please use this form:

Send download links to.. Enter a valid e-mail address

Include delete links

1. TUTORIAL : HOW TO REDUCE A TOO LONG INTERNET ADDRESS ? You have problems with a too long internet address? You would like to get it shorter to keep it clearer and easier to memorize? So TinyUrl is made for you! We'll show you how to simply use it. An URL is an internet address that you write in your web navigator search bar. This address may sometime be very long and complicated (with specific symbols) and often hard to copy and memorize. TinyUrl is a converter which will let you get your address shorter by renaming it simpler. Here is the link to the website TinyURL : <https://tinyurl.com/> * * * first enter your address to reduce in the box below then, rename your new address (here: formationGEN) click on « make TinyURL ! » You're now on this new page, which show you your new shortened address. Your new URL address is: <https://tinyurl.com/formationGEN>

Now you can see the two pages of your document. You need to right click on the first page and choose “file preview”

ées depuis trk.vidible.tv...

When it's done this page displays.
You can now copy the address in the bar

by right clicking on it.

I. TUTORIAL : HOW TO REDUCE A TOO LONG INTERNET ADDRESS ?

You have problems with a too long internet address? You would like to get it shorter to keep it clearer and easier to memorise?
So TinyURL is made for you!
We'll show you how to simply use it.

An URL is an internet address that you write in your web navigator search bar.
This address may sometime be very long and complicated (with specific symbols) and often hard to copy and memorise.
TinyURL is a converter which will let you get your address shorter by renaming it simpler.

Here is the link to the website TinyURL : <https://tinyurl.com>

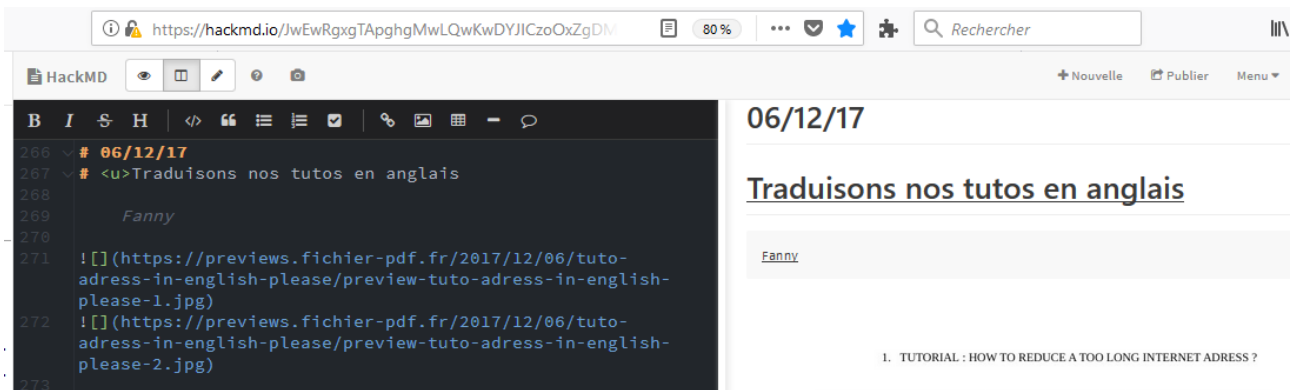

- first enter your address to reduce in the box below
- then, rename your new address (here: **formationGEN**)
- click on « make TinyURL ! »

Enter a long URL to make tiny:
 Make Ti

Custom alias (optional):
 Make Ti

May contain letters, numbers, and dashes.

So now open your HackMD page

1. TUTORIAL : HOW TO REDUCE A TOO LONG INTERNET ADDRESS ?

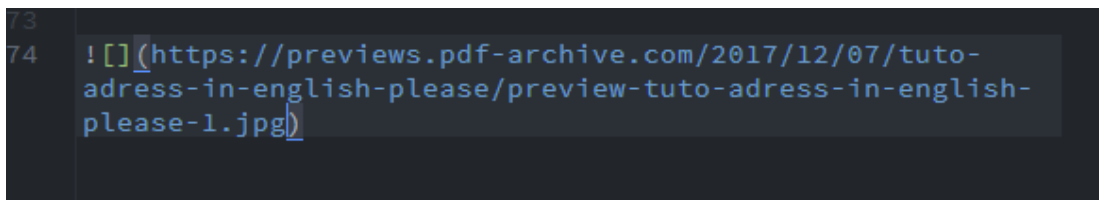

Click on “create link” on the top of your page.

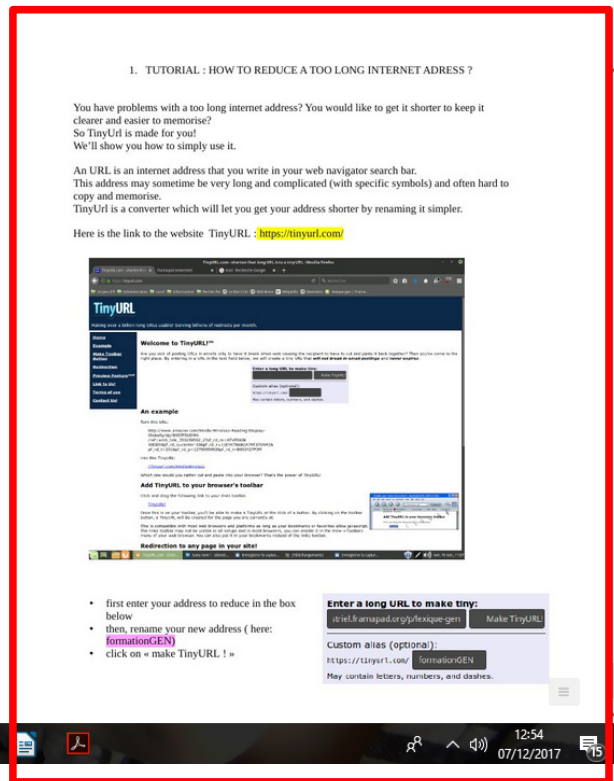

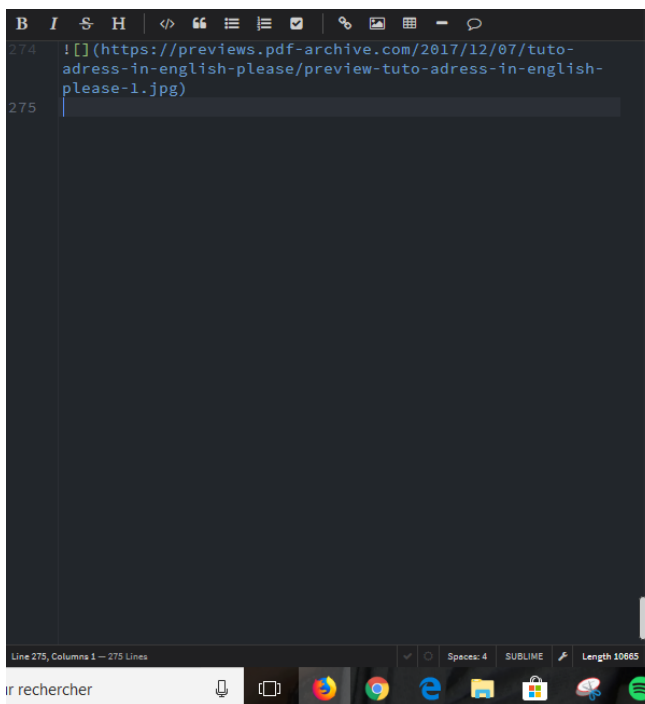

These symbols appear

Erase the text between the brackets (because “https://” already appears in the address you just have copied) and paste the address of your document inside.

You now can see your document appear

Repeat the procedure with the second page.

That's all, your document is now on your Hack MD page!

Well done!

Fanny.
