FEATURES

The REC-S624 has twin stage hydraulics for rapid ram advance.

With the pull of the trigger, you can cut ACSR conductors up to 24mm, guy wires to 20mm, wire ropes to 22mm and ground rod to 16mm.

The rotating head provides exceptional ease of use and manoeuvrability in tight working quarters.

The REC-S624 has an overload bypass which will “kick out” when the tool reaches 8 tons of output.

New LED light for night or low light work.
