

Senior Living EHR Solution

Senior Insight's primary focus is on electronic health records/medical records [senior living EHR solution](#), offering a comprehensive, robust SaaS application. The SIP is accessed via the internet on a subscription basis, allowing healthcare providers to access the latest, most up-to-date information online. SaaS has multiple functions, including serving as a database that also acts as a single communication portal for all of your operational needs.

Senior Insight, Inc., enables senior living providers to manage all functions of the organization, whether you operate a single community or are part of a larger operation with multiple facilities in multiple states.

Over the past fifteen years, we have developed the comprehensive Senior Insight Platform (SIP), a proven, user-friendly, hybrid electronic health and medical record system.

[Senior Living EHR Solution](#) software maintenance and updates reside on HIPAA compliant dedicated cloud servers with fail-safe redundancy and disaster recovery for extra security.

As a customer, you will have access to expert support and the full knowledge base of experienced users. We solve problems, save you time and promote quality of care.
