

# **Interior Design Styles**

# Introduction

Interior design can be done in various styles. The different styles give a different look for the house. I will emphasize some characteristics of some styles which can suggest you to choose your own styles for the interior design of your house.

# Interior Design Styles

- Modern Designing Style
- Contemporary
- Mid-century Model
- Scandinavian

# Modern Designing Style

A modern designing style includes the simplicity, faded colors, clean crisp lines, and the use of material that includes metal, glass, and steel.

# Contemporary

The contemporary style is different from the modern these words are more often interchangeably, it encompasses a range of the styles developed in latter half of the 20th century.
