

Washington, D.C. – January 17, 2015. It was announced today that Cellucci Associates, Inc.'s CEO & Chairman Thomas A. Cellucci, PhD, MBA has raised in excess of \$5B (Billion) USD in capital for organizations over the last 3 year period.

Cellucci, a serial entrepreneur, is involved in various business initiatives in addition to his role as Chairman & CEO of Cellucci Associates, Inc. Cellucci's newest roles include Chairman & CEO of Ecrypt Technologies (OTCQB:ECRY) a publicly-traded security portfolio publicly traded firm with emphasis on unique email security products, Chairman & CEO of DCI Inc. a telecommunications infrastructure firm with unique capabilities in niche markets, and Executive Director of AGVE ("Alliance for Government Virtual Engagements"), a 501 c(3) non-profit dedicated to facilitating high performance/low cost business activities for government.

During the past year, Cellucci has taken Board of Director positions at numerous organizations, including the Security Industry Association (SIA), Network Centric Operations Consortium (NCIOC), and the Safe America Foundation (SAF). This fall Cellucci raised funds for the Safe America Foundation's 20th anniversary campaign centered on veterans returning from Afghanistan.

Cellucci commented: This milestone was not accomplished alone. It is with humility and respect that I thank all the partners and associates of our rapidly growing firm".

Cellucci has a long history of fundraising, having served as a Fellow with the Smithsonian Institution's "philanthropic arm", The James Smithson Society, for five years where he was a primary fund raiser for the Smithsonian with a special emphasis on the National Portrait Gallery's American Presidents Collection. Cellucci was involved in securing funds for portraits of two Presidents and First Ladies – President and Mrs. William Jefferson Clinton and President and Mrs. George W. Bush.

Cellucci also served our country with distinction as the first Chief Commercialization Officer under both the Bush and Obama Administrations, where his innovative, commercialization-based public-private partnership models and processes are still used to save billions for the US taxpayers.

About Cellucci Associates, Inc.

www.cellucciassociates.com
