**Superior Commercial Strength Protective Coating**

## A Quality Product

Our product is an industrial strength commercial grade protective coating for concrete, metal, and wood surfaces. This is a one part system with no mixing, spraying or professional assistance needed. Appearance, Diversity, Durability, and Strength are the key components of our coating which is designed to protect, seal, and repair any type of surface.

With any type of coating product, strength, durability, and versatility is key! Here are some of the many applications that our product was designed for.

- **Manufacturing Plants**
- **Gymnasiums**
- **Warehouse Floors**
- **Parking Garages**
- **Pools**
- **Porches**
- **Patios**
- **Decks**
- **Auto Body Shops**
- **Storage Facilities**
- **Residential Garages**
- **Wood Decks**
- **Metal Roofs**

**No matter the area  
you are trying to  
protect, the  
versatilitly of  
"The Surface Master"  
adapts to your needs.**

*"This is an excellent product. It covered my pool area beautifully. Filled in a lot of the smaller cracks and has a very nice sheen to it."*

*- Peter*

*"The paint went on very easy and it doesn't take a lot to cover a large space."*

*- Gary*

*"I live in a house that is over 300 years old with mostly hard wood floors."*

*- James*

*"I have painted my patio a few times with regular concrete paint and you can't compare them to the quality of The Surface Master."*

*- John*

*"Very pleased with end result. We have several floor surfaces in our warehouse."*

*- Port City Motors*
