## Precision Movement, Predictable Results

The Ovation C bracket is our most-advanced, traditional ceramic bracket. Engineered to deliver precision and control, Ovation C esthetically acclimates to its environment while offering optimal stain resistance. With a durability that defies ceramics, Ovation C brackets are strong enough to rebond as needed. All while delivering the predictable results you want, the patient comfort you expect and the esthetics you demand. It's everything you've come to expect from a DENTSPLY GAC bracket.
