High Quality Cosmetic Materials

Thiers

VS

Ours

Not only do we use the best paints available to create our eye catching designs. We ONLY use cosmetic paints and NEVER craft paints or craft glitters, which can be dangerous by causing rashes, reactions, scaring or scratched corneas. Yikes!

Sanitary Setup & Applications

Can You Spot The Difference?

VS

We pride ourselves on being hygienic face painters. Both Aryn and Ilea have a diploma in Special FX Makeup Application for TV and Film, and work very hard to live up to makeup industry standards while doing childrens' face painting at large events. We use a 2 tank water system, brush bath, hand sanitizer between models, one sponge per model, use iso alcohol after painting on lips, eyes, or nostrils, do not paint individuals who are sick and work hard to maintain a tidy clean table while working. The health and safety of your guests is our top priority.
