PROFILE SUMMARY

Mechanical Engineer + Energy Masters with a varied experience including;

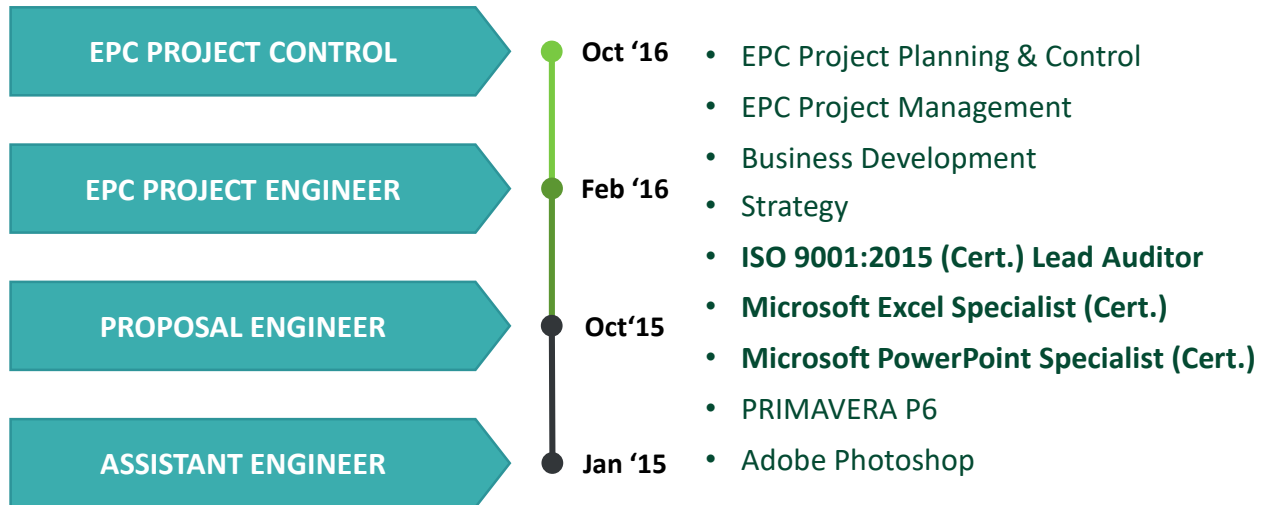

- Business Development and Strategy
- EPC Project Execution (Renewable Energy & Industrial)
- EPC Project Control

Highly organized and detail oriented with my work

Excellent people management skills. I'm a natural team builder and love working on collaborative projects with diverse and multi-disciplinary teams. I'm easily approachable and always ready to help while keeping the highest level of expectations from all my team members

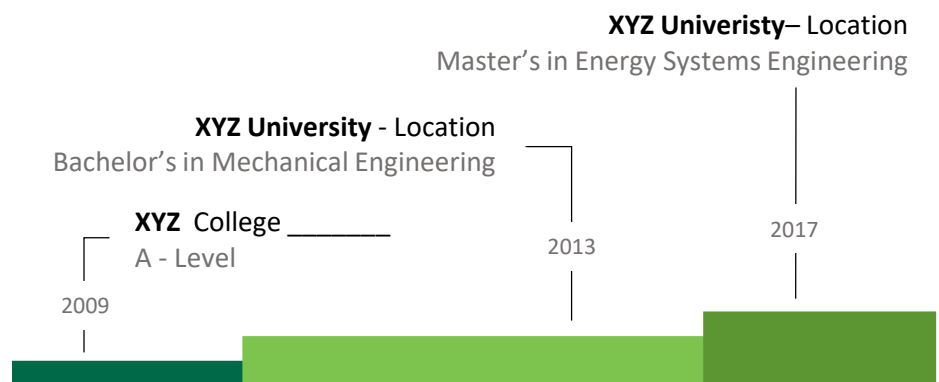

One of my biggest assets is being exceptionally tech savvy with very a strong set of computer skills (Microsoft Certified). I'm also a self-starter who's able to quickly come up with innovative solutions, valuable information and ideas while constantly looking for ways to streamline and optimize business / operational processes.
