

An aerial photograph of a large solar panel array. The panels are arranged in neat, parallel rows, creating a strong sense of perspective. The panels are dark in color, likely monocrystalline or polycrystalline silicon. A central white circle with a thin blue border is overlaid on the image. Inside this circle, the word "IZEN" is written in a bold, blue, sans-serif font. A vibrant green swoosh graphic curves around the letters, starting from the bottom left and ending at the top right, adding a dynamic and modern feel to the logo.

**IZEN**

An overhead view of three people in a meeting around a white table. The table is cluttered with various office supplies: a laptop, a calculator, a green folder, a spiral notebook, a pen, a tablet, a glass of water, a roll of paper, and several architectural blueprints. The people are dressed in business attire. A dark grey banner with the text 'OUR MISSION' is positioned at the top of the image.

## OUR MISSION

“Together, we make sustainable energy available for everyone.”

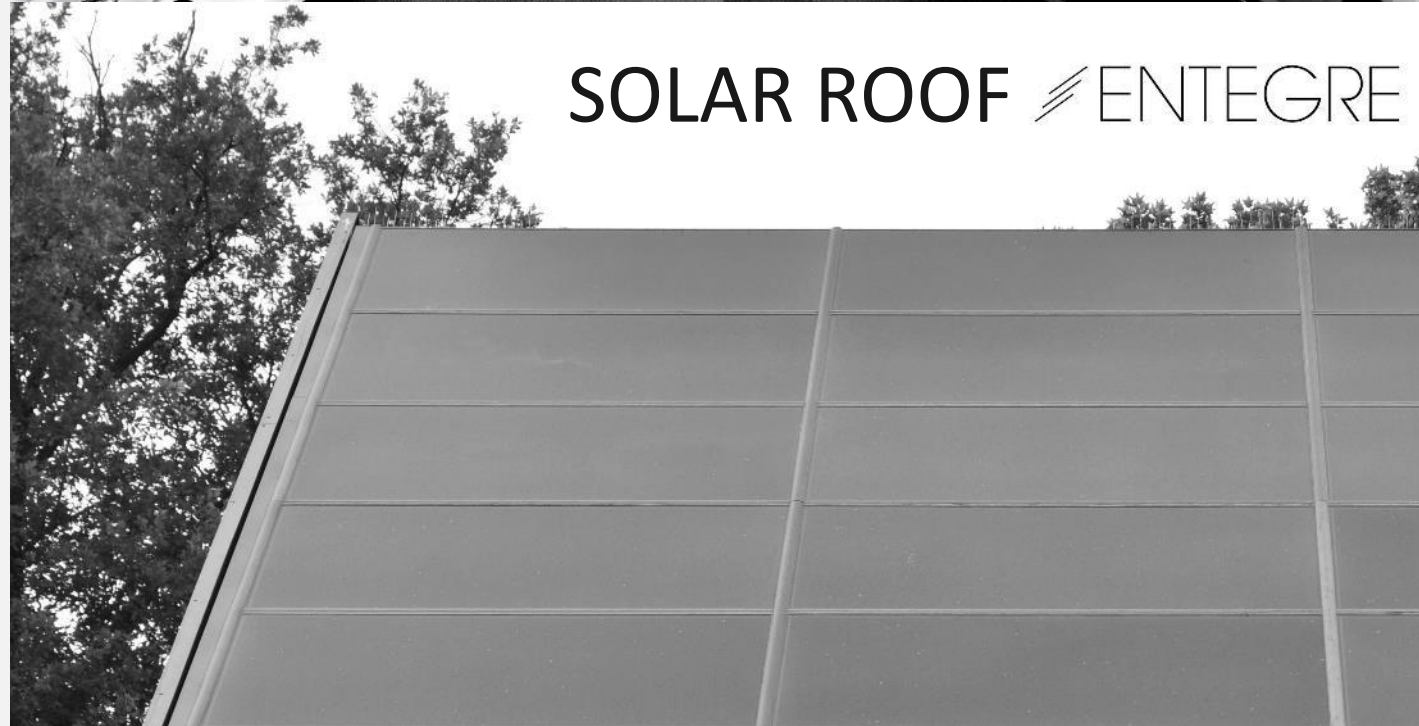

We add value for customers by meeting their needs with innovative products and services. We ensure that the energy supply to our customers is affordable and reliable.

The advancement of smart technologies in the energy world allows us to not only provide flexibility, but also add value for our customers in a growing number of ways.
