If you really dig deeper this makes sense. See, in a past episode, it was revealed that plankton actually came up with the concept of the crabby patty, but he wanted to be wholesome and sell it for \$1, whereas crabs wanted to sell it for \$5. So krabs planted barnacle sauce (illegal at that time) in plankton and got plankton arrested for 2 years. In those two years, the Krusty krab Gained mega clout and become the restaurant it is today. If it wasn't for Tupac (the chum bucket) lil pumps (krusty krab) wouldn't exist. Also, I just made all of this up.
