Accosys Limited

Company Website:	http://www.accosysltd.com
Technology Cluster:	ICT
Company Description:	Founded by two engineering PhD's from HKU in 2015, Accosys is a spin-off company from HKU. We are supported by Hong Kong Science Park and backed by angel investors and venture capitalists. With our artificial intelligence (AI) technologies, we build multilingual chatbots to help large enterprises with their customer services. Our current clients include some of the biggest players in the service industry and public sector.
Enquiry/Application:	miles@accosysltd.com

Position Name	No. of Vacancy	Employment Type	Required Education Level	Required Discipline
Software Engineer	2	Graduate post (permanent)	Bachelor or above	Computer Science Engineering
AI Scientist	1	Graduate post (permanent)	PhD or above	Computer Science Engineering
Software Architect	1	Graduate post (permanent)	Bachelor or above	Computer Science Engineering
Marketing Officer	1	Graduate post (permanent)	Bachelor or above	Marketing
Software Intern	2	Student Intern (summer)	Bachelor or above	Computer Science Engineering

Acoustic Metamaterials Company Limited

Company Website:	http://www.metacoust.com
Technology Cluster:	Material Science, Applied Physics
Company Description:	<p>Acoustic Metamaterials Company (AMC) is a smart material and acoustic company that is changing the way we use, interact and benefit from sound. Coupling applied physics with intelligent design and manufacturing, we are pioneering a new class of multifunctional materials - called metamaterials.</p> <p>We are the pioneers in the development of metamaterials noise control technology. Enabling conventional materials to be have engineered acoustic properties that go beyond what is found in nature. We developed the most efficient soundproofing solutions and products in the world focusing on sectors such as HVAC, Power & Energy, Transport, and Consumer Electronics.</p>
Enquiry/Application:	xiaoyue@metacoust.com

Position Name	No. of Vacancy	Employment Type	Required Education Level	Required Discipline
Aerodynamics Design Engineer	1	Graduate post (permanent)	Master or above	Mechanical Engineering
Aeroacoustics Design Engineer	1	Graduate post (permanent)	Master or above	Physics
Acoustic Design Engineer	1	Graduate post (permanent)	Master or above	Physics
Research Scientist	1	Graduate post (part-time)	PhD or above	Physics
R&D Assistant	4	Graduate post (permanent)	Master or above	Mechanical Engineering
Marketing and communication Intern	1	Student Intern (part-time)	Bachelor or above	Communications English

Acquaintance Enterprises Limited

Company Website:	https://www.36link.net			
Technology Cluster:	ICT, truck management system, B2B trucking business platform, mobile apps			
Company Description:	<p>Fast growing Hong Kong-based startup found in Jun 2015. Acquaintance is a HKSTP IncuTech company dedicated to the R&D of the trucking logistics system.</p> <p>36Link.net is the first commercialized product of the company. 36Link is a one-stop solution to let the trucking company to improve their service quality and at the same time to promote their service. 36Link is a SaaS-enabled marketplace supported by mobile app.</p> <p>Apart from HKSP incubatee, Acquaintance is also Betatron Startup Accelerator Programme Cohort and Google Empowering Young Entrepreneurs (EYE) Program Cohort. The company is also the winner of HKTDC Entrepreneur Day 2016 Outstanding Startup Award.</p>			
Enquiry/Application:	felix@acquaintancehk.com			
Position Name	No. of Vacancy	Employment Type	Required Education Level	Required Discipline
Software Developer	2	Full-time	Degree in Computer Science/Information System or equivalent	Experience on iOS/ Android Apps development (Objective-C / Swift / Java)

AlikeAudience

Company Website:	http://www.alikeaudience.com
Technology Cluster:	Big Data
Company Description:	<p>AlikeAudience empowers marketers, media agencies, and publishers to reach targeted audiences behind mobile. We are passionate to innovate big data ingestion and processing to discover trends, produce analysis, and apply in-depth machine learning to predict mobile user behaviours in order for marketers to deliver personalised brand messages to consumers.</p> <p>Now we have become a fast growing mobile data management platform #mDMP in Asia to collect, organise, and segment audience insights for contextual, behavioural, interest-based, and location-based advertising. We have built the core mobile data management platform with over 110m consumer profiles from Asia. Use cases are RTB on mobile media inventory, channel optimisation for organic content marketing, customised native app notification and product re-rank for m-commerce sites.</p>
Enquiry/Application:	connect@alikeaudience.com

Position Name	No. of Vacancy	Employment Type	Required Education Level	Required Discipline
Content Marketing/Community Lead	1	Student Intern (1-year)	Bachelor or above	Marketing Digital Media, Mass Communication
Full-time Data Strategist, Supply-side Partnerships	1	Graduate post (permanent)	Bachelor or above	2+ years of busienns development experience in AdTech landscape in SEAsia
Mobile SDK Engineer	1	Graduate post (permanent)	Bachelor or above	Electronic Engineering Information Engineering, Computer Science
Software Engineer	1	Graduate post (permanent)	Bachelor or above	Computer Science Engineering

Apostrophe'S Co Ltd

Company Website:	http://www.apostrophep.co
Technology Cluster:	3D technology
Company Description:	Apostrophe'S is a 3D creative lab specializing in 3D technology solution, devoting to 3D designing & editing, 3D scanning, 3D printing, prototyping and manufacturing. Our top-notch 3D printers are equipped with different materials and color to serve you in prototyping, sculpting and product development. Our world-class 3D scanners cater sizing from large to detail rich objects and lifelike editing 3D technology offer highly detailed design and able to transform your 2D ideas / designs into 3D digital to facilitate your innovation and create endless possibilities.
