EVERY VOLUNTEER COUNTS!

The Community Emergency Response Team (CERT) program educates volunteers about disaster preparedness for the hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. CERT offers a consistent, nationwide approach to volunteer training and organization that professional responders can rely on during disaster situations, which allows them to focus on more complex tasks. Through CERT, the capabilities to prepare for, respond to and recover from disasters is built and enhanced.

How YOU can help!

Our goal in the CERT program is to help you prepare to take care of yourself, your family, and your neighbors in case of a large-scale emergency which may overwhelm first responders! We need volunteers like you!

The CERT Basic Course is delivered in the community by a team of first responders and other qualified volunteers. The organization and timing of training and meeting vary from program to program. It is often broken up into two to four-hour blocks over a series of evenings or weekends.
