I am a passionate technical professional focusing in React + Node with a background in PHP + MySQL. I have worked with many technologies in my career as a freelancer and have built large-scale applications for our family-owned car dealership. My educational background in Philosophy gives me a specialized approach to problem-solving.

Skills

- Back-End: PHP, MySQL, Node, Socket.io, WebSockets
- Front-End: React, jQuery, Vanilla JS, Bootstrap, HTML, CSS
- User flow design
- Database architecture
- DevOps & Debugging
- Arduino, Espressif, Espruino

Experience

2014 – NOW

IT Manager / AutoFinder NC

- Built vehicle pricing tool with data from CarMax
- Built Manheim & GAA bot to alert us of vehicles matching our criteria
- Built company website to showcase our inventory and provide contact info

2011 – NOW

Freelance Developer / LindseyDigital

- Built penny-auction site for in-game Counter-Strike items
- Fixed fatal cache glitch on Windows for WordPress TimThumb
- Built online matchmaking service for Steam players to find new friends

Education

DECEMBER 2014

Bachelor of Arts / University of North Carolina Wilmington

Majored in Philosophy with a concentration in Logic & Ethics; minored in Computer Science with a concentration in Software Engineering. Graduated with a 3.8 GPA.

Activities

In my spare time I enjoy playing guitar, scuba diving, and spending time outdoors with one of our many dogs. I volunteer as kitchen manager at the homeless shelter once a month where I prepare dinner and breakfast for our guests.
