VEHICLE MASS RULES

- A.** Kerb mass and payload values are approximate only. Kerb (unladen) mass quoted includes full tank of fuel, all standard equipment (plus air-conditioning where not standard) but excludes occupants or luggage/cargo.
- B.** Kerb mass values in table on XL, XLS, RTV and XR6 Ute models are given for Barra 190 engine with standard 5-speed manual transmission (XR6T and XR8 Ute with 6-speed manual).
- C.** GVM (Gross Vehicle Mass) is defined as the sum of the kerb mass and the payload, and vehicle load must not exceed the relevant maximum allowable front and rear axle loads (as measured at the wheel to ground interface).
- D.** Payload (maximum) is defined as the maximum combined value for the occupants/cargo/added options/additional structures/ towball download (when towing).

- E.** For optional automatic transmission add 20kg to kerb mass and deduct 20kg from payload (maximum).
- F.** For optional E-Gas engine, add 50kg to kerb mass and deduct 50kg from payload.
- G.** For optional heavy duty suspension add 25kg to kerb mass and deduct 25kg from payload (maximum).
- H.** For optional factory aluminium tray add 115kg to kerb mass (for Cab Chassis) and deduct 115kg from payload (maximum).
- I.** GCM quoted = GVM + towing capacity (1200kg for manual/1600kg for auto) – towball loading (120kg for manual/160kg for auto). For optional 2300kg capacity towing kit (auto only) add 630kg to GCM for auto.
- J.** Maximum axle load, GVM and GCM values remain unchanged with E-Gas option.

DRIVE RATIO RULES

**A.** Standard on 3/4-tonne XL StyleSide Box and XLS Ute models. Ratio applicable when the 1-tonne option is specified with automatic transmission. **B.** Standard on XR8 Ute (manual transmission only). **C.** Standard on 1-tonne XL C/C (manual transmission only), RTV and XR6 Ute models. Ratio applicable when the 1-tonne option is specified with manual transmission. **D.** Ratio applicable on XR6 Turbo and XR8 Ute when automatic transmission option specified. **E.** Standard on XR6 Turbo Ute manual transmission.

**S** – Standard. **O** – Options that can be ordered before a vehicle is manufactured. **A** – Options that can be added at any time. – – Not available. **C/C** – Cab Chassis. **SSB** – StyleSide Box.

- 1.** Power and torque figures measured using premium unleaded fuel (95 RON). **2.** Figures quoted are for braked trailer. Subject to State and Territory regulations. **3.** When fitted with Genuine Ford towbar. **4.** Towball download and rear axle limits must not be exceeded. Please refer to your Ford Dealer for advice. **5.** When fitted with Genuine Ford heavy duty towbar and load levelling kit. **6.** 4-Speed transmission models require auxiliary transmission oil cooler (excluding RTV and vehicles fitted with 1-tonne suspension). **7.** Maximum towing capacity of Falcon XR6 Turbo Ute is 1,600kg. **8.** Cab Chassis dimensions quoted with optional factory fitted tray. **9.** Excludes exterior side mirrors.
