Brochures can be printed with 4 colors (CMYK) or Pantone (PMS) and gloss or matte lamination as standard. Printed material can be folded, varnished, perforated, or even die-cut into shapes to meet your requirements. We can print brochures on 80gsm uncoated bond paper or on high quality coated matt or gloss paper from 90gsm to 300gsm digitally or lithographic.

Special printing effects:

- Embossing/Debossing • Spot UV Coating • Gold/Silver foil hot stamping • Laser Engraving

Use our Video Brochure layout templates to insure the correct size, trim, bleed and formatting before printing. It's easy to add logos, custom graphics, and text. Download standard templates at <http://www.fun-tek.com/downloadlist.asp?i=4>

1. When you open the Video Card, it will automatically play the video loop playback. Once it's closed, it will stop playing the video.
2. Charge: First, USB ties is inserted to computer and then insert to the card USB interface, which the battery could be charged. During the charging process, the card is closed. The charging time is 3~4 hours.
3. When using the card, it cannot be blended, patted and dropped.
4. You must switch off the video firstly and then connect with the computer.
5. When loading the videos, the video files could be stored to the VIDEO Folder of the removable Disk. We also could copy the data of the LCD card to the computer or U Disk.
