Depending on the device variant and your video files, the flash memory size is optional up to 4GB. Below information will help you choose the suitable memory.

Flash Memory	Video Duration (based on 4.3" Screen)
128MB	7 minutes
256MB	15 minutes
512MB	30 minutes
1GB	1 hour
2GB	2 hours
4GB	4 hours

Printing Options

Business Cards can be printed with 4 colors (CMYK) or Pantone (PMS) and gloss or matte lamination as standard. Printed material can be folded, varnished, perforated, or even die-cut into shapes to meet your requirements. We can print brochures on 80gsm uncoated bond paper or on high quality coated matt or gloss paper from 90gsm to 300gsm digitally or lithographic.

Special printing effects:

- Embossing/Debossing • Spot UV Coating • Gold/Silver foil hot stamping • Laser Engraving

Artwork & Templates

Use our Video Business Card layout templates to insure the correct size, trim, bleed and formatting before printing. It's easy to add logos, custom graphics, and text. Download standard templates at <http://www.fun-tek.com/downloadlist.asp?i=4>

Uses of Video Business Cards

Video Business Cards are superb for presentations, invites, PR, direct marketing, advertising and promotions.

Brilliant Video Brochure Marketing Ideas...
