7" Video Brochure VGC-0707

Full HD 1080P Touch Screen Video Brochure **A5 Landscape** - 7" TFT LCD color screen 1024x600 pixels, 128MB-16GB memory, 1000mAh lithium battery, magnetic switch, 1-10 control buttons, 1 x mini USB port, CMYK printing, matte/glossy lamination. Shipping in 7 working days!

No more buttons! With the latest touchscreen LCD technology, buttons are a thing of the past. You can play, pause and skip your videos by simply touching the screen, as well as being able to alter the volume up and down. It also has a battery level indicator, so you'll know when you need to recharge! The touchscreens are available in 4.3" and 7.0" screen sizes, and come with all of the same specifications of the standard video brochures – without the buttons! The touchscreen brochures can also be mounted into customised units for a truly distinctive in-store experience.

	5.0"	480*272	16:9	111*62mm
	7.0"	800*480	16:9	153*96mm
	10"	1024*600	16:9	222*125mm

Standard Brochure Sizes

Sizes can be from A6 to A4, depending on your particular requirements. Other sizes and paper options are available upon request. You can also choose landscape (horizontal) or portrait (vertical) orientation. Landscape option is selected by default.

Memory Options

Depending on the device variant and your video files, the flash memory size is optional up to 4GB. Below information will help you choose the suitable memory.

Flash Memory	Video Duration (based on 4.3" Screen)
128MB	7 minutes
256MB	15 minutes
512MB	30 minutes
1GB	1 hour
2GB	2 hours
4GB	4 hours

The standard Video Brochure has a magnetic switch, so it can autoplay videos once unfolded. It can be with multi-button with specific functions like power on/off switch, play/pause, play/FF, pause/REW, forward, backward, volume up, volume down, rewind, fast forward, video selection, etc. Buttons can be placed below the screen or on the screen left/right side. It takes a maximum of 10 buttons.

Brochures can be printed with 4 colors (CMYK) or Pantone (PMS) and gloss or matte lamination as standard. Printed material can be folded, varnished, perforated, or even die-cut into shapes to meet your requirements. We can print brochures on 80gsm uncoated

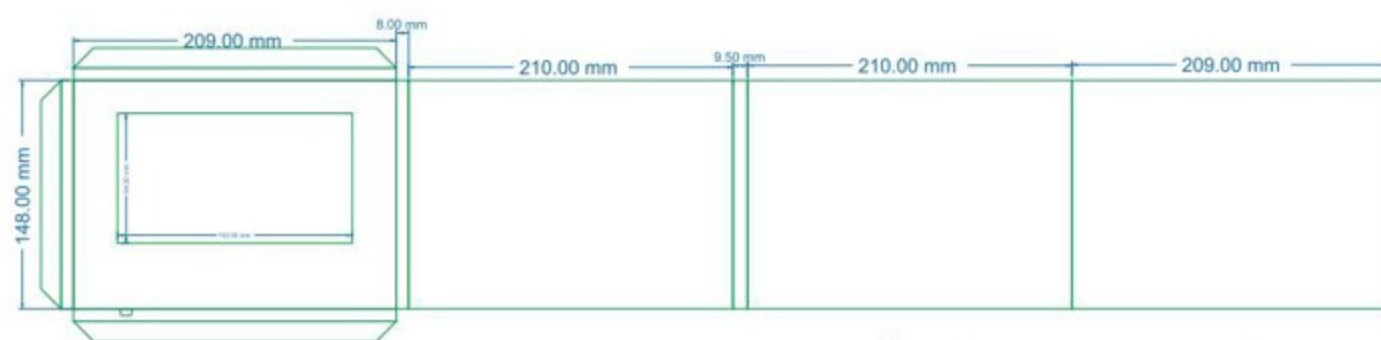

Special printing effects:

- Embossing/Debossing • Spot UV Coating • Gold/Silver foil hot stamping • Laser Engraving

Artwork & Templates

Use our Video Brochure layout templates to insure the correct size, trim, bleed and formatting before printing. It's easy to add logos, custom graphics, and text. Download standard templates at <http://www.fun-tek.com/downloadlist.asp?i=4>

Uses of Video Brochures

Brilliant Video Brochure Marketing Ideas

1. When you open the Video Card, it will automatically play the video loop playback. Once it's closed, it will stop playing the video.
2. Charge: First, USB ties is inserted to computer and then insert to the card USB interface, which the battery could be charged. During the charging process, the card is closed. The charging time is 3~4 hours.
3. When using the card, it cannot be blended, patted and dropped.
4. You must switch off the video firstly and then connect with the computer.
5. When loading the videos, the video files could be stored to the VIDEO Folder of the removable Disk. We also could copy the data
