Apex Business Forms was established in 1974 as a business forms manufacturer for the trade. In 2001 we changed our name to **Apex Color** to reflect our evolution to a color printing company with enhanced capabilities in the area of commercial and digital color printing.

Today **Apex Color** continues to evolve and offer a wide range of printing services. From business forms to the most demanding four-color work, Apex Color delivers better service, lower prices, every day.

COMMERCIAL

SPECIALIZING IN 4-COLOR PROCESS
Color Management and high productivity are key ingredients in our recipe for successful color process printing. We use the most advanced digital imaging equipment for proofing and plating, and our presses run 24 hours a day, accommodating the most demanding schedules.

DIGITAL

FEATURING IN-LINE FINISHING
From beautiful short run color to black and white, variable and direct mail, our new digital division will meet the most demanding schedules and quality standards for your next project.

CONTINUOUS CHECKS, PRESCRIPTION PADS & SECURITY DOCUMENTS

3 LEVELS OF SECURITY PAPERS
To combat Check fraud we offer Appvion Papers' brand of DocuCheck® which includes Basic, Safety Ghost, Impede and Watermark security bonds, each of which is available with Appvion TonerFuse® technology. Coupled with our digital Arcis Voids your customers will have peace of mind when ordering checks.

eCARBONLESS FORMS™ Appvion

MULTIPART SOLUTION FOR LASER PRINTERS
eCarbonless product combines the benefits of laser imaging technology and the convenience of a multi-part handwritten form allowing signatures, check boxes or filled in blank lines to transfer to each part easily and quickly.

UNIT SETS

UP TO 15 PARTS COLLATED IN-LINE
Our jumbo roll collator enables us to collate up to 15 parts (without carbon) in one pass. Double stubs, transfer tape, wrap around covers and many other features are available with our unit set products.

FULFILLMENT SERVICES

STORAGE AND DISTRIBUTION
From kit building to pick-n-pack, shipping, mailing or storage, Apex Color is fully equipped to manage your finished goods inventory.

CUT SHEETS

FEATURING IN-LINE PACKAGING
Whether you need a few thousand fliers or a few million laser sheets, we have the most efficient way to reproduce them. From sheet-fed to narrow-web to wide-web presses, our capabilities include a broad range of manufacturing options. Our high-volume laser cut sheet production features a wide-web press coupled with a totally automated batching, stacking and wrapping process, enabling us to produce approximately 1,000,000 packaged laser sheets in an 8-hour shift.
