

THE MASTERMIND OF BRANDS

OEM • ODM • OBM

info@ngshealthcare.com

THE COMPANY

NGS Healthcare (M) Sdn Bhd is a nutritional product OEM, ODM and OBM that aims to empower healthier lives by developing, manufacturing and delivering a range of branded supplements and health food. A trusted name since year 2010, NGS has engineered more than 500 brands in the nutrition, health and wellness industry for different clients.

With our distinctive track record for developing sustainable brands, we pride ourselves as an integrated one stop service that encompasses business consultation, product R&D, ingredient sourcing, production, regulatory service, design and packaging, as well as branding and marketing support. We are especially experienced in multi-level marketing (MLM), retails, and online business.

We have cultivated detailed yet matured understanding on the industry and transformed that into top notch services that ensure the success of our clients across the region. Although NGS Healthcare's major market is based in Malaysia and Southeast Asia, we do also have a rapidly growing international business hailed from various Asian nations such as Taiwan, Korea and China.

“ VISION

To be the largest health food and health supplement label manufacturer in Malaysia.

To be the first manufacturer that pioneers health food and health supplement franchise, accelerating the growth of wellness industry in the region.

Besides being known as one of the industry forerunners for our innovation, quality and efficacy, we take pride in securing the GMP certification, MESTI and Halal accreditation by JAKIM that ensures stringent compliance with the highest standard in manufacturing process as specified.

MISSION

Driven by solution-based approach, we continuously invest in research & development to customise unique, safe and effective formulations for our clients.

By providing innovative solutions, we help incubate clients' successful brands and serve their target market strategically. At NGS, clients' success is our success.
