**Let The People Of Earth Have Their Say,
Let Everyone Be A Leader Everyday,
The People's 7C Council Is Our Way,
Because We Are All Great In Every Way.**

What if you could be a better beautiful person inside YOU.

What if you could understand that it's not about what others think of you,
but if something inside you could free your whole being into another
world, another state of mind, another force of free will, and being
spiritually free beyond all present understanding.

You will know that inside yourself an increase in confidence so high, fear
will completely disappear.

And then a miracle happens...

The Universe.

In this new constitution, we behold it clear, that this new confidence will
be self-evident, and a new understanding that ALL are free of the tyranny
of anything you can imagine.

*(Many people erroneously believe money is the only way to get things.
They believe in the hamster wheel of success, when it's really a prison.)*

You can have it all without these imaginary limitations.

*(Many people may feel this constitution is a satirical joke, but I'm
completely serious about every single issue in it.)*

The 7C Constitution (Version 4.0)

FOREWORD

If you love money, and think your salvation lies with getting rich, your world will literally be ending in catastrophe very soon. There is no help for you. You're stuck in hell (the trap of imaginary money and debt) and don't know it, nor will you ever see it forever. Goodbye. Otherwise, continue.

The current capitalistic business model of the early 2000's is to absorb all the profits to the elites, while not paying employees sufficiently to survive, or to not give any money at all. This system will fail, so much that money will no longer exist in society. As of 2018, this has already happened, but nobody is talking about it. Therefore, the only way for anyone to survive is to generously with our hearts(Love), make products and resources on our own for everyone, and give them away. Forget about making money, because no one has any. This is what the 7C Constitution is about, surviving without money. It's too late to change this, or go back to the old ways, and we must learn the new ways to live in the New 5D Earth. The elites have already won their empty victory of winning the game of Monopoly, and they will never give their stolen money and property away. Let it rot in 3D, while we make new technologies and systems of living that elites can no longer participate in, manage, or control. This is 7C; true freedom, under the people's control. Territorialism is abolished.

Meanwhile, the elites (corporations) think we are a burden on society, and think of us as a vermin pestilence, and want us eliminated, while they take the cream of the crop to do their hard labor. They even think the poor, jobless and those on welfare are creating hell for them, because they think we're leaching off them (which isn't true, because they leached off of everyone's labor for next to nothing, while keeping all the profits to themselves). They've also stolen the high technology from the ETs and reverse engineered it to live the high life. After all, what do you need lowly vermin for, if you can take all the super high tech, as these poor could only contribute as slavery. Unfortunately, like a bunch of drug addicts, you keep shooting down and stealing other ETs critical needs, becoming a pestilence to them. Many may see these as attacks of the elites, or even pests themselves, and eradicate these pestilent elites. So much for sociopathic Whetico. They don't survive, they're vicious predators, sick with total domination, and always destroy themselves.

I believe that one of the biggest flaws in everyone's thinking is, they think they need a leader to do everything for them, thus giving their power away to someone that will always take advantage of them for exploitation, or be so incompetent as to always fail the system. The old system treated you like an unruly child. This is not what 7C is about. 7C is about teaching you to be your own adult, independently thinking and doing everything yourself, recognizing when you are getting scammed, and to break free of the enslavement of conformist thinking. You are all Gods, not servants to

The 7C Constitution (Version 4.0)

some rogue authority. You are stewards of the universe, to decide the correct thing to do, to preserve life, and not destroy it for greed, as in the past. If you want to live in any fear at all, 7C is not for you. You are no longer a child. If you are weaponized, fundamentalist, right-wing, political, or authoritarian, please leave, 7C will not welcome you, and will be eternally banished.

One very important note, The 7C Constitution makes sure everyone gets to live in their own political ideology, never forced to live under anyone's rule. The elites don't want that, and want us to remain enslaved. 7C is NOT the NWO, nor a One World Government. It is a rights system for the 4D and 5D world, making everyone sovereign unto themselves, but united as needed, abolishing all authoritarianisms. Also, most people appear to be quite lazy when new systems are introduced and give up changing to better ways, unless their current system is malfunctioning beyond total destruction. If you're going to go that far, 7C is probably not for you, because you have to work, change, and apply yourself from within to achieve real freedom. Otherwise, you let everyone walk all over you, and decide your fate into slavery.

7C is an amazing gift I am giving to the world, beyond anyone's imagination, to freedom and life on a level so high, we could achieve anything far beyond insanity. Don't pass this opportunity to become beyond the highest Gods of invincible beauty, like never heard of in all history and worlds in the universe. We have earned this, through all the enormous hardship and imprisonment of old 3D Earth, this is our reward. Be grateful, and Love this to the extreme, because Love is the key to achieving anything now. Directed Love is the new technology.

Once this version has been released, that Earth split will be too wide for 3D people to know about it in their timeline. If you have this and later versions of 7C, you will be entering, AKA "The Event", or have already entered 5D Earth. Because the new Love Technology will be too advanced, but to those in 5D. I will only be directing all further updates to 5D people.

5D reality cannot be defined physically, because everyone fabricates it with their mind and fantasies. Anything is possible in 5D Earth. We make it up as we go along. All the magic we did in the past, every new thought or reality, every dream or vision, we are now doing in 5D. We are going to experience the most bazaar of everything happening, because everything of imagination is now reality, and fully encompassed in The 7C Constitution. You are about to experience the wildest ride of your life.

The current window for 5D ascension is before August 12, 2018. This occurs every five years, but the 20 year Earth biorhythm which is also the closing window, is before August 12, 2023. Apparently, we have enough positive people to ascend in the current 2018 window, but if this version of 7C gets out enough, the 2023 shift event may also occur. After this, 3D Earth will be gone.

THE SEVEN CONCEPTS CONSTITUTION

INTRODUCTION

The Seven Concepts Constitution, or 7C Nation, is a rights/encouragement/ emotion/ consciousness based system, with an altruistic supportive council, designed to promote individual freedom and eliminate oppression. All people with ideas beneficial to the community will be heard, while the council and the people help to make it workable and harmonious to everyone, within compliance of The 7 Concepts. The people then decide by volunteer voting. No volunteers, or a 50% dissenting vote by the people only, are the only down votes. Checks and balances are built in. Only the most negative loses.

The 7C Constitution, or 7C Nation, is a pantisocracy, a plebiscite, or a flat democracy with no hierarchical government structure controlling it whatsoever. All the people within the system are given complete responsibility to handle all the necessary functions of society. The people simply voluntarily distribute themselves into groups of jobs which they specialize in. The 7C Constitution or philosophy is for developing an altruistic, moneyless society. Unlike other constitutions, this philosophy has been carefully design to act and operate as a whole, in harmony with one another, like a machine. No parts can be taken out, since it may have devastating consequences on other parts, rendering it to failure. The 7 Concepts function as a textual computer with endless possibilities of thought within it's matrices.

If you apply this system to other levels and disciplines of knowledge and philosophy, the same basic system of concepts can still hold true in the advancement or realization in that knowledge or philosophy. As each step is completed, the next step is far easier to achieve. The 7th step can be turned into the 1st step, making it, easier to achieve, continuing for however long you like.

After each heading, **The Six Heart Virtues of the Wingmakers is enclosed in the parentheses. Reality creation, or “Law of Attraction,” keys are enclosed within the brackets. Enclosed in the ellipsis is how to be a loving god within yourself. The italics enclosed in parentheses are rewards for those negative people who gave the same to everyone. All annotations in italics enclosed in parentheses are descriptive of intentions for each subconcept, but aren't actually literal, because many aren't practicable, or run contrary to the 7C system.**

If you are somebody who likes most of the ideas in this constitution, and are thinking the people in power won't let us do it, just remember, “Nobody owns you.” So do this with like minded people. There will be many people who say “This system doesn't fix 100% of the problems, so

The 7C Constitution (Version 4.0)

I'm not going to use it" But it does fix over 95% of the problems, which is better than anything that ever existed. Many will also say "This system isn't realistic, and would never happen for another 100 years." But many people will practice it now, and leave the others behind. Many pragmatists will say, "It's too hippy new age." But even so, you are missing out on the greatest leap in humanity and human evolution, and besides, 7C needs to cover every possible harmonious ideology. We are finished living in the old 3D Earth hell, in homelessness and destitution, being harassed by authorities, and enslaved by a horrible system we never consented to. That life on Earth is just wrong. So you can either be stupid and keep the old failed authoritarian systems, or practice the true love that is now.

PREAMBLE

THE SEVEN CONCEPTS CONSTITUTION IS THE PEOPLE'S GOVERNMENT, never to be overruled by any other group or representation, and to allow the voice of everyone and everything to be heard equally. In order to provide the freest, most efficient, harmonious, and non-polluting, moneyless/restrictionless, "Love" conscious creative society, unifying everyone and everything, into oneness and equality. It will be a Joint Entrepreneurial Partnership in which everybody is an equal entrepreneur, and everyone works alone or with each other in groups doing projects or creations in which they specialize in, and to promote a positive well-being in the rest of the universe. And, to carry out the plan of the Prime Source/Creator, which we are all a part of. This could also be anything virtuous, whatever your goals are.

The Purpose

The main purpose is for learning, in all your lives, in all dimensions, in absolute freedom and harmony, so all can achieve Godhood, Sovereign Integral (*individual and united*), self-expression of your infinite self, or harmonious creational unity, replacing technology with Directed Love Consciousness as a construct. Another purpose is to keep individuals or groups from controlling anyone, abridging anyone's freedom, or prohibiting anyone's free will, and unifying everyone and everything, into oneness and equality. The Seven Concepts is a voluntary common rights system, ennobling 7C citizens with enforceable diplomatic immunity against all oppressors, empires, and violators of human rights, **SUPERSEDING THE ENTIRE UNIVERSE.**

THE SEVEN CONCEPTS

THE ABSOLUTE UNIVERSAL RIGHTS

The 7 Concepts Constitution supersedes all international, federal, and local laws and rights. The details outlined in this system are intended to be used as a basic social structure of society and all life, and all people, life forms and objects shall be given 7C rights, unabridged.

1) Right to All Expressionism; Prohibition of Suppression or Oppression (Courage, to try something new) [Imagine your reality; Once a thought is created, it will be carried through, because every thought is an object of reality.]{To be a loving god is to give free-will.}

(To keep freedom from another is the ultimate sin, and those restricting power mongers will be rewarded with eternal nothingness.)

1. Every living being, thing, or object has the right to **Absolutely Free** and **Unrestricted** expression of, and **Unrestricted** access to the following:

Existence/ free will/ thoughts/ opinions/ speech/ expressions/ blaspheme/ obscenity/ profanity/ gestures/ humor/ criticism/ peaceful, then riotous assembly, and to occupy/ association/ literature/ press/ writing/ pictorials/ video/ record/ holograph/ pornography/ information/ conspiracy exposure/ witness/ morals/ lifestyle/ display/ sounds/ dance/ visage/ taboos/ tattoos/ hair style/ voting/ petitioning/ philosophy/ instincts/ addictions/ career/ teaching/ celebration/ games/ nonviolent sports/ hobbies/ recreating/ swimming(bathing)/ restrooms/ fountains/ hospitals/ access and use to all public services, facilities, utilities, buildings, places, dwellings, devices, vehicles, supplies, workplaces, and all unmentioned needs/ common law marriage/ divorce/ polygamy/ polyamory/ group homes/ illegitimacy/ miscarriage/ erotica/ adultery/ transgender/ sexual (gender) behavior, masturbation, relations, services, games, exposure, nudity, look, clothing, identity, hormones & drugs (including libido, pleasure and psychedelics), modification, fetish, novelties, machines or orgasm/ consensual forced femininity/ genetic or body modifications/ spiritual gender, race, identity or practice/ non-public prayer and worship/ dimensional/ temporal/ consciousness/ hallucinogens/ meditation/ mysticism/ psychics/ esoteric science/ psychomanteum viewing/ seclusion/ encasement(*zentai*) fetish/ sensory deprivation/ virtual, artificial or quantum realities/ telepathy/ spirit mediums/ psychometry/ telekinesis/ levitation/ flying/ teleportation/ (psychic) projection/ shape shifting/ transmutation/ enchantment/ materialization/ healing/ hypnosis/ hypnotic regression or progression/ reincarnation/ astrology/ numerology/ witchcraft/ benevolent fascination (*mass hypnosis*) or psychic influence/ insanity/ enforceable right to say “No” to another's will or authority/ symbol, anthem, or flag desecration/ defamatory gestures/ defamatory or

threatening language, [comic](#), or laughter towards any authority or politician/ boycott/ labor strike/ sabotage/ graffiti/ or any idea in every way, shape or form imaginable.(145 total count)

All above interactions and combinations to be parametrically conjoined with the following:

Regardless of age, race, creed, sex, or any difference imaginable; regardless of time, place, or any context imaginable; provided any other living being's rights or free will is NOT violated, coerced or prohibited; without retribution, condemnation, defamation, consequences, or discrimination, by any individual, group or organization, public or private, regardless of organization, affiliation or deeds; while permitting unrestricted free/fair-use or reuse, and duplication. Everything must be respected in all these manners, regardless of whether anyone knows why they exist, because nothing is more or less important than anything else.

(We believe Civil Rights are our birthright. Our Constitutional government establishes a framework to provide and expand rights and freedoms—not restrict them. To this end, we must protect and restore all the Constitutionally-mandated rights to all our citizens, including voting rights, freedom to worship without fear of intimidation or harassment, freedom of speech, and protections for all citizens regardless of race, gender, age or disability. We honor and respect tribal laws and jurisdictions. - #WomensMarch, See also 3l)

2) Altruism, Right to All Necessities to Life Guaranteed Without Restrictions (Appreciation) [Embellish your reality with details.] {To be a loving god is to give freely of yourself without expecting anything in return.}

(To hoard needs to life from others in need is the ultimate sin, and those gluttonous greedy slobs, in a world of plenty, will be rewarded with eternal destitution and starvation.)

(When you have extreme wealth consolidation and resource hoarding, when the creative people have no access to these resources and are forced into destitution, you have a society that ends down into a complete dissolving of humanity into a caveman. The feudalists, capitalists, neo-liberals, Koch libertarians, believe in this philosophy which always ends into the dark ages. Sure the people at the top prosper for a short time, but what good is having everything, but having no knowledge to do or make anything in the end. The feudalist argument claims to create growth while guild socialism [the means of production controlled and owned by the people only] extinguishes it in stagnation, but in reality, an extreme imbalance of either ideology actually extinguishes growth. Extreme feudalism of scarcity, restriction, and competition, creates another stagnation, which always ends. But a balance of both, providing all needs to life[altruism], and limited competition, creates the greatest growth of

The 7C Constitution (Version 4.0)

all. But sociologically, if you look at women today, most only want men for their wealth and power, so creating a man that wants it all, competing to get her, thus leaving the sociopaths to destroy everyone, and many times, every planet always ended when this happened. But now that money and capitalism is abolished, we no longer live under the threat of destitution by squander, because altruism is guaranteed.)

(Embellish your reality with details: See how everything in this Constitution has become reality, because I wrote it all down, and now we actually have it. I made a petition for everyone to sign as a pledge to themselves to create this system. Most of them never realized how good The 7C Constitution is, and don't realize it is getting improved all the time, but the motivation for many of the things they like in 7C is happening now. Congratulations to all, because 7C is here now.)

2. Absolutely all personal and public needs used for survival and living a luxurious life must be provided for and absolutely free, and guaranteed without restrictions. Provisions for maintaining happiness through self-maintenance, self-perpetuation, self-love, and self-gratification, are required. The following items are enforced and guaranteed:

2a) **Unrestricted Love.** A World Holiday every Sunday, to celebrate our union in marriage. A worldwide buffet, where everyone is invited, and not left behind, to party and enjoy themselves. *(My father left me behind, and punished or tortured me for 11 years, and I didn't know why, at the time. He thought by neglecting and torturing me, he could seek revenge against my mother, through me, as a proxy. I will never let this happen again to anyone in a world of cornucopias. Because, the elites did the same thing to everyone.)*

(Saying the word "Love", it feels like most everyone just says it like a greeting, without real actual substance. This is almost abusing the word into a meaningless phrase. When I mean Love, I mean in the actual practice of all the actions that shows it without saying "Love". You must show it as a new paradigm shift in a new level of consciousness, as a way of life, as I have defined in the heading of each Concept, and more. Much like peace as a religion. And, we shall use Love as a technology to our creations in 5D Earth, in our new found magic to bring imaginations into reality, instantly.)

The New Love technology is Directed Love, Meaning, as groups or tribes of like minded people, the outlying meditators will direct their love energy toward a central group to create anything, this can be done right now, be will be more powerful in 5D Earth. An event like this has already happened in the late 1970's and early 80's, with The Montauk Project with time travel, but they used male homosexual energy tainted with fear, instead of wholly love, then directed this toward one individual in a orgasmically induced supersensible state, which programmed a machine to create quantum objects, realities and time travel. But instead we don't

The 7C Constitution (Version 4.0)

need the machine so much to amplify the quantum objects and realities in 5D. You can research this on the same book title by Preston B. Nichols.

The measure of success is not through acquiring huge amounts money, because those people stole it, and bought everything with it, and it's never satisfying. But if you create everything through mental, orgasmic, or supersensible creation, that is real success, because you didn't cheat to get it.

When you have restricted thinking, that defaults like a fundamentalist, as in 3D Earth thinking, and has it's own signature of antipleasure. Orgasmic pleasure is the fundamental principle behind 5D creation, the Love Technology.

All the following ideas are coming to a head in 5D reality: Orgasms[with the intent to create], supersensible, Montauk, pleasure, expansion of sexual diversity, androgynous sexuality, pornography, hallucinogens[natural], transgenderism, [Wilhelm] Reichian orgasmic energy, the whole body as a sex organ, Kundalini energy, etc. Everything creates 5D reality, in their total constructs of this list.

The Collective Subconscious says, we have been creating pieces of the New Earth all around you, and they are constructing 5D Earth. You just can't recognize them yet.

The pleasure of creation is an orgasmic state, in that the meditation of your concentration is a heightened consciousness, the successful working is the orgasmic release. Supersensible makes you orgasmic all the time, but without the pleasure. Your orgasms as pleasure are nullified, except to create a reality of objects to appear.

The Montauk Project, had to hold the orgasmic energy just before the release, to create the reality at full consciousness, actually the supersensible state, or the full "Out", as they put it, inside the time tunnel. The energies of the Montauk Boys was based on fear, the wrong energy tainted the mix, when it should have been based on love, a harmonious mix, because the intent should be a positive outcome.

As groups or tribes, of people join their orgasmic energies, this creates a morphic field to unite the energy to a full large creation. The concentration of those with detailed skills makes the reality coherent and connected to the former technology. Otherwise, a foundational construct must be created to make a coherent system unified as a standard. Reality is a completely fabricated construct. There is no one idea that is the foundation for anything. Nothing is predefined in 5D Earth.)

(We are committed to embodying and practicing justice, liberation, and peace in our engagements with one another. - #BlackLivesMatter)

2b) Materials, resources and production to provide a high quality of life. (As we have all our resources and needs for free, we don't complain about doing things for others, while not getting anything directly in return.)

The 7C Constitution (Version 4.0)

2c) Unrestricted Virtuous Creation, with Love. *(To create everything with your heart and soul for the best expression of any creation. AKA, meraki. Think of how music feels so much better when the musicians play from their heart. Or software isn't made for greed, you don't get crippleware, annoying registrations, ads, or spyware, and is actually done right. Everything is freer when it's given away.)*

2d) **Unrestricted and Free Travel, Flying, Teleportation, Transportation, Infrastructure** and Parking, using clean, non-fossil fuel technology, devices, and techniques. *(We can use Dennis Lee's technology; it's Freon based heat extraction, with pneumatic drivers. Another is vortex magneto electrolysis, converting water to hydrogen fuel with just exhaust heat and a magnet in a double wall vortex tube.)*

(Germany is the first nation to provide free buses to everyone.)

(Advance Economic Development: we support economic development in Indian Country and believe in investing in infrastructure. We believe we should investment to upgrade our roads and bridges, drinking water and wastewater, freight and passenger rail, and electric, telecommunications and broadband networks, and more. This effort will create and maintain millions of jobs across the country. The investment would go a long way to address the "digital divide," because lack of internet access means Native American communities are at risk of falling even further behind in their ability to access employment, educational, and other opportunities made available by modern information technology. Lastly, all federal grants open to state and local governments will also be open to tribes. - #OurRevolution, See also 2e, 2f, 2i)

(Putting at least 13 million Americans to work by investing \$1 trillion over five years towards rebuilding our crumbling roads, bridges, railways, airports, public transit systems, ports, dams, wastewater plants, and other infrastructure needs. - #OurRevolution, See also 2e, 2w)

2e) **Unrestricted Non-central Free Energy Systems**, and infrastructure. *(We can congratulate Germany for being the first nation to have a completely free electricity system. They have proven it can be done.)*

2f) **Unrestricted and Free, Food & Water** (without fluoride, chemicals, and other drugs), **Air** (without chemicals), **Light, Heating, Cooling, Fridge, Cooking, Kitchenware, Toilet, Bathing, Clothing, Laundry, Towels, Bedding, and Personal Needs.**

2g) Harmoniousness with the Cosmos or Prime Source. (No Pollution, [Loudness](#), or Disturbing Peace.) Use and produce non-toxic materials or byproducts when possible.

2h) #FreeHousing **Unrestricted and Free** (no tax, rent or mortgage) **Personal** (or Personal Space), **Habitable, Private, and Secure Dwelling, House, or Shelter, and Free** (no tax, rent or mortgage) **Land Property Ownership.** And, the right to be nomadic in any way, with free spots or

The 7C Constitution (Version 4.0)

parking for our dwellings, and free public amenities for personal care. And, eliminate the confusion of acquiring or keeping a home, without discrimination. And, we must be free from invasion of our personal space of solitude and seclusion. *(It's absolutely essential that we have a stable home to raise a family.)*

(Being homeless personally, is worse than being crucified, at first. Having everything taken away from you, and then getting the bums rush all the time. We didn't make any mistake. It's just the bad economy, the lack of support to help us out of it, and the punishment that people and laws put us in, like we had money, but don't. The people that do have money have no clue how hard it is, then treat us with penalties 10x more than we have. Then once you do get some money, you have to catch up replacing things lost or worn out. It's 10x harder getting anything back.)

(Reinvigorate federal housing production programs. Over the past decade, the federal programs that build affordable housing for families, for the elderly and for the disabled have been decimated. Nobody disagrees that we need to address the deficit, but it is absurd to balance the budget on the backs of working families, the elderly, the disabled and the poor. We must return to pre-2010 funding levels by ending sequestration and invest more, not less, in affordable housing. - #OurRevolution)

(Defend Fair Housing. The sordid history of housing discrimination is a stain on our collective conscious, and for fifty years the Fair Housing Act has provided critically important legal protection from discrimination because of race, color, national origin, religion, sex or disability. And yet, Republicans have tried over and over again to defund efforts to affirmatively promote fair housing. We must push back, defend and strengthen the law, and make sure we never again tacitly condone housing discrimination. - #OurRevolution)

(Demand more from Affordable Housing Developers. Housing that is built with government subsidies should remain affordable much longer than the 10, 15 or 20 years typically required by federal housing programs.

Repair Public Housing. We need sufficient funding for public housing operating and capital costs, and we need to reduce the unacceptable backlog of public housing capital needs.

Expand Housing Choice Initiative. We need to increase funding for the housing choice voucher program to target families who need support the most and to provide greater economic stability to the more than 3 million households struggling to remain in safe, secure and affordable housing today. - #OurRevolution)

(Support First Time Home-buyers. We should expand the Department of Housing and Urban Development and USDA Rural Development assistance programs for first time home-ownership, particularly through

The 7C Constitution (Version 4.0)

down payment assistance, loan guarantees and direct loans.

Expand Pre-purchase Housing Counseling. Study after study shows that people who receive counseling before buying a home are more likely to succeed at home-ownership. Housing counseling is a good investment in families and communities. - #OurRevolution)

(Reinvigorate HARP. The Home Affordable Refinance Program was designed to assist homeowners who are current on their mortgage payments but owe more than their home is worth, by allowing them to refinance their underwater mortgages at lower interest rates. While the average homeowner saves about \$2,500 per year; many people who theoretically qualify have not benefited because of various barriers and inadequate outreach. - #OurRevolution)

(Improve Housing: fight for increased local control over the administration and operation of tribal housing programs and for full funding of the Indian Housing Block Grant Program. - #OurRevolution)

(Restore Tribal Lands: All tribes must have the right to protect and restore their lands. We support streamlining the land-into-trust process and work to reverse the Carcieri Supreme Court decision that resulted in an unjust two-tier system of tribes. - #OurRevolution)

2i) #FreeTuition Unrestricted, Absolute, Totally Free, and without Limitations; Information, Internet, WiFi, Communication, and public or private Education (like Finland)(With free chauffeured limousines, gourmet meals [made and served like in the White House or buffet], all supplies, computers and books, documents or media, without bias.); and their unrestricted distribution, infrastructure and preservation. (India gives free high speed WiFi, and phone service to everyone.)

(Make tuition free at public colleges and universities. - Stop the federal government from making a profit on student loans. - Substantially cut student loan rates. - Allow Americans to refinance student loans at today's low interest rates. - Allow students to use need-based financial aid and work study programs to make college debt free. - Fully paid for by imposing a tax on Wall Street speculators. - #OurRevolution)

(Strengthen Education: In order to create economic opportunities, we must invest in education from early childhood through higher education. We must fight to fully fund the Bureau of Indian Education and strengthen self-determination to enable culturally tailored learning, unique to each tribal nation, and help to retain qualified teachers for Native youth. We should build upon the "all of government," integrated work of the Generation Indigenous initiative to ensure that every Native American child can reach their full potential. We should fight for plans that allow students to refinance federal debt, lower interest rates, triples federal work-study jobs, and provides for free college tuition at all public colleges and universities. - #OurRevolution)

(Connect Integration with Educational Programs. Immigrant

The 7C Constitution (Version 4.0)

integration occurs in our schools, our workplaces, and in the community at large. Our Revolution's policies to make public colleges and universities tuition free, raise the minimum wage, expand Social Security, and make it easier for workers to form unions will benefit all Americans, regardless of immigration status. In addition, we must foster increased access to English as a Second Language instruction, and early learning programs for children. - #OurRevolution)

(Making tuition free at public colleges and universities throughout America. Everyone in this country who studies hard should be able to go to college regardless of income. - #OurRevolution)

2j) Unrestricted Art, Music, Recreation, Pleasure, Drugs, Mindfulness, Sleep, and Dreaming; Including amusement parks, party/night clubs, race tracks, fashion/drag shows, concert halls, museums, galleries, games, seasonal festivals, [Lollapaloozas](#), fairs, brothels, kinky trans/sex clinics/services, burlesque, orgies, paranormal/meditation, spas, public beaches, resorts, nature parks, etc.; participation is mandatory for joy. Also to have emphasis on extremeness, unity and opposites (fish out of water) of gender, physicality, identity, or any difference, for each indulgence, to learn growth, empathy, creativity, and discovery with us all. *(Please, I urge you, don't miss out on the opportunities to experience all the pleasures of life. Do all those things, the sexual pleasures religious fanatics tell you not to do, they don't own you. Do Cosplay, be a prostitute, be with one, get a sex-change, be the ultimate sex toy, be everything, but most important, never miss out, because you will be kicking yourself after this life saying I wish I did this or that, when I had the chance. Life is about pleasure, suffering and experiencing it all. Nobody owns you, so they can only tell you no, based on some ridiculous dogma. Ignore them, be it, do it, and live it, because it's your life, not theirs'.)*

(We are committed to acknowledging, respecting and celebrating difference(s) and commonalities. - #BlackLivesMatter)

(We are committed to practicing empathy; we engage comrades with the intent to learn about and connect with their contexts. - #BlackLivesMatter)

2k) Unrestricted Social Contact and Affection (Tenderness), regardless of manner, especially between the same gender, or [child & adults](#), or human & animal, or human & plant. The creation of frequent [affection parties](#), to break everyone of the fear of being close to each other. Or, [Tenderness Clinics](#) for those in need, (like in Japan). It's OK for men to feel emotional and cry about anything; Reward them. *(The major problem is overcoming the fear of being persecuted for being called a pedophile, or being called homosexual, both have been highly punished and stigmatized over, thanks to insane persecutorial fundamentalists. Unfortunately, this has caused the unintended consequence of violent culture in the West.*

2l) Compelled, but Uncoerced and Safe Humane Creative Labor or

The 7C Constitution (Version 4.0)

Production, but not repetitive assembly work replaceable with automation. Containing 3-20 (36 ABSOLUTE MAXIMUM) hours per week, with 12 weeks per year paid leave. Work conditions must be safe for all beings, including refraining from injurious sports activities, and have humane child labor. The workday must include unrestricted personal breaks. Career opportunities are non-biased for any personal characteristics, except for in 2as. *(No job is more or less important than any other, because they are all needed to run everything. Someone who works without making money is not lazy, they're practicing Contributionism, or the Gift Based Economy. People aren't measured by time or money they make. I don't like working for anyone in the gig economy, because they stiff me, or pay me shit.)* ***(The best way to solve high problem "crime" areas, is to provide livable wage jobs to keep from poverty, and make sure all needs to life are free, thus absolutely equal wages worldwide like 2md.)***

Absolute Law: It is required that everyone have a minimum "Leisure Time" of 132 hours a week. No one will make another into a time slave, not even to yourself. *(It's INSANITY to work over 100 hours a week.)* Anyone forcing another to work more than 8 hours/day will be deported.

(We believe in an economy powered by transparency, accountability, security and equity. We believe that creating workforce opportunities that reduce discrimination against women and mothers allow economies to thrive. Nations and industries that support and invest in care-giving and basic workplace protections—including benefits like paid family leave, access to affordable childcare, sick days, healthcare, fair pay, vacation time, and healthy work environments—have shown growth and increased capacity. - #WomensMarch, See also 2n, 2am, 2as, 2at, 2au, 2md, 2me, 2mn, 2mo, 2mr, 6f)(*Exclude if not critical, and foolish otherwise. THIS IS DEADLY IMPORTANT because millions will die!)*

(Millions of American employees have been working 50 or 60 hours a week while receiving no overtime pay. The Administration's new rule extending that protection to everyone making less than \$947 a week is a step in the right direction. It is a win for our economy and for our workers. - #OurRevolution)

(Creating 1 million jobs for disadvantaged young Americans by investing \$5.5 billion in a youth jobs program. Today, the youth unemployment rate is off the charts. We have got to end this tragedy by making sure teenagers and young adults have the jobs they need to move up the economic ladder. - #OurRevolution)

2m) #FreeHealthCare Unrestricted and Free, Health/Medical Care, Dental, Vision, Hearing, Sexual, Mental, Spiritual, etc.; Therapies, Genomics, Drugs, Herbals, Biotics, Devices, Holistics, Psychic Healing, Somnambulistic Healing (QHHT, Quantum Hypnotic Healing Technique), Spa, Extreme Novelties, and anything proven to extend life, or ease pain and distress. No one will have restrictions from loved ones. Insurance is

The 7C Constitution (Version 4.0)

abolished.

(UNIVERSAL HEALTH CARE. Healthcare is a right, not a privilege. To truly ensure every American has access to quality, affordable health care, we need to fight for a Medicare-for-all, single payer system. Until that happens, we must make sure insurance companies and providers are not discriminating against those with HIV/AIDS, including when it comes to drug coverage. - #OurRevolution)

(Fully fund and expand the VA so that every veteran gets the care that he or she has earned and deserves.

Substantially improve the processing of Veterans' claims for compensation.

Expand the VA's Caregivers Program.

Expand mental health service for Veterans.

Make comprehensive dental care available to all veterans at the VA. - #OurRevolution)

(Improve Healthcare: healthcare is a right. We should support a Medicare-for-all system that would complement the healthcare provided by the Indian Health Service. We need to work to fully fund the Indian Health Service, strengthen regional management and recruitment of committed IHS health care personnel, demand audits of IHS operations, and ensure that Native Americans have adequate, safe, and affordable access to primary care providers, including oral health and mental health practitioners and substance abuse treatment options. - #OurRevolution)

(Guaranteeing healthcare as a right of citizenship by enacting a Medicare for all single-payer healthcare system. It's time for the U.S. to join every major industrialized country on earth and provide universal healthcare to all. - #OurRevolution, See also 21)

(BETTER COVERAGE. We support creating a federally administered single-payer health care program. Universal single-payer health care means comprehensive coverage for all Americans. A solution for healthcare needs should cover the entire continuum of health care, from inpatient to outpatient care; preventive to emergency care; primary care to specialty care, including long-term and palliative care; vision, hearing and oral health care; mental health and substance abuse services; as well as prescription medications, medical equipment, supplies, diagnostics and treatments. Patients should be able to choose a health care provider without worrying about whether that provider is in-network and will be able to get the care they need without having to read any fine print or trying to figure out how they can afford the out-of-pocket costs.

GETTING HEALTH CARE SPENDING UNDER CONTROL We outspend all other countries on the planet and our medical spending continues to grow faster than the rate of inflation. Creating a single, public insurance system will go a long way towards getting health care spending under control. The United States has thousands of different

The 7C Constitution (Version 4.0)

health insurance plans, all of which set different reimbursement rates across different networks for providers and procedures resulting in high administrative costs. Two patients with the same condition may get very different care depending on where they live, the health insurance they have and what their insurance covers. A patient may pay different amounts for the same prescription depending solely on where the prescription is filled. Health care providers and patients must navigate this complex and bewildering system wasting precious time and resources. By moving to an integrated system, the government will finally have the ability to stand up to drug companies and negotiate fair prices for the American people collectively. It will also ensure the federal government can track access to various providers and make smart investments to avoid provider shortages and ensure communities can access the providers they need. - #OurRevolution)

2n) #FreeHealthCare Unrestricted and ready access, Procreation, Birth control/Abortion by choice (Fact: The soul is reincarnated within the first 2 breaths after birth. Misconception: The soul is NOT created at conception.)/ sperm, ovoid(egg), stem cell, embryo, or any genomic preservation/ Pre & postnatal care/ Childcare, Birthing, Miscarriage, Parental, Family, Caregiver leave (with indefinite unlimited benefits)/ Adoption, Sexual care, and Marriage; regardless of consanguinity, gender, or any characteristics; without retribution, condemnation or discrimination. And to be provided medically accurate unbiased healthcare and sexuality education. Religious fanatics have no right to shove their philosophy down everyone's throat. (What is so ridiculous with single issue voters who are anti-abortionists is, abortion has nothing to do with their personal life, but completely lacked the foresight that they bargained their entire life and freedom away, in exchange for this one issue.)

(We believe in Reproductive Freedom. We do not accept any federal, state or local rollbacks, cuts or restrictions on our ability to access quality reproductive healthcare services, birth control, HIV/AIDS care and prevention, or medically accurate sexuality education. This means open access to safe, legal, affordable abortion and birth control for all people, regardless of income, location or education. We understand that we can only have reproductive justice when reproductive health care is accessible to all people regardless of income, location or education. - #WomensMarch)

(Requiring employers to provide at least 12 weeks of paid family and medical leave; two weeks of paid vacation; and 7 days of paid sick days. Real family values are about making sure that parents have the time they need to bond with their babies and take care of their children and relatives when they get ill. - #OurRevolution, See 2l)

(Enacting a universal childcare and prekindergarten program. Every psychologist understands that the most formative years for a human being

is from the ages 0-3. We have got to make sure every family in America has the opportunity to send their kids to a high quality childcare and pre-K program. - #OurRevolution, See also 2t)

(Sign into law the Equality Act, the Every Child Deserves a Family Act, and any other bill that prohibits discrimination against LGBT people. - #OurRevolution)

(Expand and protect the reproductive rights of women. Expand funding for Planned Parenthood, the Title X family planning program, and other initiatives that protect women's health, access to contraception, and the availability of a safe and legal abortion. - #OurRevolution)

2o) Unrestricted and Free, Harmonious Industrial Development, Computers, and Devices.

2p) Internal Peace Preservation, or Prevention of Personal Violence and Social Disorder; regardless of relationship.

2q) Individual or Group Competition. **(No Monopolistic Behavior!)** Any time the essentials of life functions provided by a business becomes a monopoly, (like internet providers), they will become dismembered into public ownership. Common functions will be commonly used without monopoly. Business mergers are abolished.

2r) Unrestricted Virtuous, Science, Philosophy & Spiritual Development.

2s) Security through preparedness, Emergency Services, or Defense.

2t) Free care and provisions for the elderly, children, infirmed, transgendered, orphaned, and physical/mental/spiritual oddities and norms; self-determined end-of-life care, embryo care, and self-termination. Also, to uphold the support to those caregivers involved herein.

(We recognize that women of color and Indigenous women carry the heaviest burden in the global and domestic economic landscape, particularly in the care economy. We further affirm that all care work--caring for the elderly, caring for the chronically ill, caring for children and supporting independence for people with disabilities--is work, and that the burden of care falls disproportionately on the shoulders of women, particularly women of color. We stand for the rights, dignity, and fair treatment of all unpaid and paid caregivers. We must repair and replace the systemic disparities that permeate care-giving at every level of society. - #WomensMarch)

2u) #FreeSpeech **UNRESTRICTED, FREE, NEUTRAL, AND UNCENSORED COMMUNICATIONS** (all cussing is allowed).

2v) Unrestricted and Free, Postal, Parcel and Freight Delivery. Homeless and nomadic people are guaranteed a P.O. Box. No one shall be penalized for not having a mailing address, or having undeliverable mail. (Such as, banks charging for recursive undeliverable mail.)

2w) Nonpolluting and closed loop Waste, Water, Sewage, Garbage, Energy, Salvage and Recycling Systems.

(Fight Climate Change and Promoting Environmental Protection: For instance, Sen. Bernie Sanders' climate change plan to transition away from fossil fuels to a 100 percent clean energy system is a plan that we support. We must end fracking for natural gas and mountaintop removal coal mining. - #OurRevolution, See also 2d, 2e)

2x) Regulated, Protected, and Safe food (certified and labeled as non-GMO), drugs, herbals, and consumer products, except for novelties. (Like the Food and Drug Administration.)

2y) All legacy status and unions (civil and labor), from prior systems are fully recognized.

2z) All new building construction must be green, renewable, solar, etc. *(Convert ambient A/C into geothermal, to prevent/reduce overheating of the local climate. Also geothermal and solar heating to supplant the gas and fossil fuels used in heaters and cooking.)*

2aa) #RightToVote Voting day or period will be a local, geographical, or world holiday, with pay (if it exists) and mandatory participation for all people and ages.

2ab) Drug addicts must get **FREE** drugs and supplies, rehabilitation, enhanced recreation, and subsidized jobs. All illegal drugs will be legalized, freely grown, regulated, and free with prescription. (Like Portugal)

Also, added to the rehabilitation treatment, the relearning of meditations to cause the same stimulation as the substance abused. (e.g The Rose Cross meditation causes the same effects as Peyote, but without the vomiting or other side-effects.)

(This is proven to eliminate 99% of burglaries, thefts and any monetary crime, because drugs are illegal, this makes them expensive, and drug addicts need to feed their addiction with theft of everyone's hard earned property. Then the people in the prison and security fields don't want to give up their profiteering, so they lobby to continue to make drugs illegal, at the expense of the tax payer and frustration of theft victims. They don't care. This was rooted in Nixon seeking retribution against his protesters of his Vietnam War, by making cannabis and cocaine illegal to imprison blacks and hippies. Now crime is worse than ever in history, by over 3x. And it may be much higher, because people give up reporting after several thefts. Executing dealers and users without due process, will make it even worse. If you don't think we need to change the system, try suffering the loss of months and years of your hard labor to these drug addicts, or even your children stealing from you, to feed their drug habits for a day. The frustration is enormous and agonizing knowing you can't get your possessions back, because of some uncaring asshole jerk that can't understand they ruined yours and everyone else's life. What's worse, from personal experience, is they continuously sell off and steal everyone's life away till you literally have nothing left, destroying your life. Then they

The 7C Constitution (Version 4.0)

move on to the next person, and do the same thing. Then, you can't get rid of these predators until it's too late, and the damage is way beyond anything you know, even losing your home. This literally happened to me. There was nothing I could do, but be glad they died, it was that horrible, because I'm homeless now because of them. Once they start on you, they're an infestation worse than anything you can imagine. To those who think I'm stupid, if I didn't go through this horrible experience, I wouldn't understand how to get rid of this major problem.)

(Drug use should never be treated as a criminal issue, nor a medical issue unless addicted. It should be used as a guided experience journey. Because the human brain is hundreds of drugs, to experience countless journeys, none of which is wrong, except violating others. As mentioned, the Rose Cross meditation produces the same experiences as Peyote, but for free. If we can find the meditations and practices for each experience, we no longer need to buy or manufacture the drugs that are abused, we self-create them. And nobody has to go through the horrible life destruction drug abusers cause. We can also use QHHT to end the addictions, and actually transform their bodies and reverse the damages done by the drugs. Then create new structures and habits to free them from addictions forever.)

(Since most drug abuse begins when people are young, we should have drug treatment programs in schools to break addictions, and give clean free drugs so they don't steal from everyone, while keeping drug dealers from doing business, and making gangs and violence. Enhanced Recreation is extremely important, because people get stuck in a mindset that drugs are their only means of enjoyment, when studies show environments with the choice of high leisure stimulus activity (joy, like in 2j) or free drugs, they always pick joyful things, and not drugs. Mental activity is a diversion from drugs. America is awash in drugs, with extreme poverty with no means for real enjoyment or mental stimulation, so they pick drugs, becoming stuck in chemical addictions. Look how America has fallen away from amusement parks, skating rinks, or creational skillful hobbies. They've become mentally dead since the 1960's. You must give them alternative means to enjoy themselves other than drugs, and relieve the stresses of poverty, then drug dependency will disappear.)

(The funny part about this, is when you tell people about making drugs free, the drug dealers always out themselves by saying 'No', not realizing they are the only ones to object to it, because they make a living off of it.)

(EXPANDING SUBSTANCE USE AND MENTAL HEALTH SERVICES FOR PEOPLE LIVING WITH HIV/AIDS AND AT RISK FOR HIV. We need to build on the implementation of President Obama's National HIV/AIDS Strategy by significantly expanding access to mental health and substance use disorder services by protecting and expanding community health centers, which provide key behavioral health and substance abuse

The 7C Constitution (Version 4.0)

services to more than 1.3 million patients. We must also support access to mental health services at community mental health centers. - #OurRevolution)

2ac) Real serial rapists must get free pornography, sexual aids, sexbots, prostitutes, and rehabilitation. *(This is proven to prevent rape through satiation, then boredom. No Joke! Religious nuts like to add the false assumption that they will leap to rape. Actually, suppressing sexual instincts and openness causes the more rape incidents.)*

(Many women like to use rape accusation as a tool of manipulation over men, and cause men total destruction of their lives. Rape will no longer be criminal, and never be punished. The girls who cried wolf can't be believed. On the other hand, all people have the right to protect themselves from sexual assault, as in 4av. #MGTO) (We can also have colonies, where actual rapists live with nymphomaniacs and prostitutes, harmoniously together happy. Stop the punishment.)

(The reason why men are violent is because men never got affection when they were young, or perhaps their entire lives. And this stems from women being afraid of or abandoning men by being too selective and running away. Studies show that violence among the population at large, is caused from the lack of social contact or affection as children, like in 2k. The cure for violent men is women overcoming their fear of men, which is difficult, because women run away from violent men. Except, if the young women didn't play hard to get, this problem of frustrated violent men would never have come in the first place.)

2ad) #AbolishGuns All proven lethal/harmful weaponry, programs, replicas, and media presentations, will be destroyed worldwide with no retribution. All beings have a right to avoid being killed, being necessary for life. *(We have a right to control irresponsible gun owners, that could affect us coming through our walls, and from lead and uranium poisoning.) (Gun buyback programs have some success in eliminating many. Most guns are owned by those near their life end.) (One problem with violent media is this causes everyone to be numb to it, and indoctrinates a sociopathic lack of empathy against killing, especially in young people. This is a horrible twisted dysfunction of society that must be eliminated. Hollywood in nothing more than advertising for mass shootings, NRA, military and police brutality. This must end.)*

2ae) **ALL ARMIES AND NAVIES WILL BE MADE OF PACIFISTS ONLY;** doctors, nurses, engineers, construction, farmers, rescue, aid, etc. used to create things and heal others for the mercy of all, without harm.

2af) The news-media is only publicly owned, accessed and controlled, in a non-biased fashion, without vested interests, while commercials and advertising is prohibited. The news media must only present facts with evidence and proof, or be expunged. It is mandatory that Progressive and

The 7C Constitution (Version 4.0)

all ideas be presented everywhere, non-biased, and never denied, nor forced. The destitute and silenced ideas must be presented. *(Like this constitution is silenced by all media and we need your help to distribute it.)* Also, to have programming appropriate for children.

2ag) Whistle-blowers and Information Leakers, will be highly praised and rewarded, without retribution.

2ah) Unimpeded and uncensored access to all extraterrestrial information, communication, equipment, technology, relations, artifacts, philosophy, etc. on any planet or area of space. *(Because they gifted it to everyone, not just to the elites.)*

2ai) Unrestricted development of psychic abilities for everyone.

2aj) Right to achieve super-sensible consciousness, using the Rose Cross Meditation, described in Rudolf Steiner's, 'An Outline of Esoteric Science'. *(This is a critical part of living in 5D Earth. The app is [here](#), and the PDF file is [here](#). This is how you get to the Prime Source without religion. If you claim to be so spiritual, then prove this doesn't make you into a Christ-like being, view the consciousness in all things, and have an IQ of 50,000. It seriously does, because I've done it. You can even do this with Peyote.)*

2ak) Unrestricted travel into space, and onto celestial bodies.

2al) Unrestricted access and use to Space-Time or dimensional travel machines (such as The Montauk Project Technology using Quantum Reality with Delta T-Antenna) and abilities (such as Merkabah formation), with unlimited travel after August 12, 2023.

2am) All jobs must be enjoyable. If they are not, you must quit. Or, if an employer is not fair, the employee may sabotage the employers' product, equipment or business.

2an) Anyone found crying in sorrow, gets stuck in hospital, birthing, or birthdays, gets a happy party in their honor.

2ao) #AnimalRights All food product processing, fishing, mining and industrial production, must be safe from harming all sentient beings or animals. *(Soon we will find everything is sentient.)*

2ap) #AnimalRights All animal facilities must have absolute transparency to the public. All facilities abusing or killing animals will be terminated.

2aq) All meat and dairy products eliminated from diets to prolong life by 40%, decrease most health problems, and eliminate the majority of fresh water consumption. *(These are all proven facts.)*

2ar) #FreeHealthCare All proven lethal/harmful pharmaceutical drugs/chemicals will be abandoned. All good pharmaceuticals are free. **The pharmaceutical drug philosophy will be replaced** with homeopathic, herbal, psychic, hypnotic, alternative, etc., health care.

2as) **WARNING: No one can be discriminated from any job for any reason, except for conditions that may cause death or health problems for**

The 7C Constitution (Version 4.0)

the masses. **CAUTION:** In order to have the safest and highest quality job done, the best person for the job will be chosen to achieve it, and not based on any characteristics whatsoever. *(This is to prevent the space accidents. THIS IS DEADLY IMPORTANT because millions will die! From Nostradamus)*

2at) Any activity, job, career, or occupation, that causes distress or unhappiness upon others or themselves, is prohibited.

2au) Free funeral services, ceremonies and memorials. Burial grounds are forever sacred, and prohibited from desecration. Bereavement/Mourning is a guaranteed paid personal holy period.

2av) Sustainable communal gardens, farms and greenhouses for food and material production **free for everyone.**

2aw) All essential manufacturing, goods and services, to be local.

2ax) #LGBTQ Free and Unrestricted access to hormones, clothing, devices, aids, therapy, healthcare, education, name and gender changes on IDs, training, modeling examples for our new body (porn), personal facilities and complete full body sexual treatment/surgery of transgendered or sex/gender/romantic anomalous people, regardless of age or mentality, without restrictions, retribution, violence or discrimination, and be openly discussed, practiced, and protected, without censorship, and to have all the above performed in any extreme fantasy possible. All gatekeepers are abolished. DCFS (Department of Child and Family Services) has no right to prohibit any children from transgender affirmation. *(I felt transgendered at the age of 8, and cross-dressed at 11, but nobody knew or understood it at the time. I lived in such fear of being punished for it, and I was punished and humiliated when I got caught, FOR BEING MYSELF! Why do I and other children have to suffer with being forced into not being ourselves, because we don't conform to the transphobic religious fanatics. It is a right for everyone to be the gender they desire to be, since nobody owns your body but you.)*

(Their is an issue of Doing It Yourself, prescriptions, that may be dangerous, but this problem is because of the gatekeepers, that refuse to use modern approaches. The full complex of naturally compatible glandular hormones should be given first after puberty, then wait some six months until you can pass, should you start looking the part. The old stupid way was the opposite, way too much therapy, do the embarrassing cross-dressing now, and waiting 2 years for cancer causing artificial hormones, and at least until they were 18, while their natural hormones ruin their body, causing more dangerous surgery to correct this later.)

(We firmly declare that LGBTQIA Rights are Human Rights and that it is our obligation to uplift, expand and protect the rights of our gay, lesbian, bi, queer, trans, two-spirit or gender non-conforming brothers, sisters and siblings. This includes access to non-judgmental, comprehensive healthcare with no exceptions or limitations; access to

The 7C Constitution (Version 4.0)

name and gender changes on identity documents; full anti-discrimination protections; access to education, employment, housing and benefits; and an end to police and state violence. - #WomensMarch)

(Work with HHS to ensure LGBT Americans have access to comprehensive health insurance which provides appropriate coverage and do not have to fear discrimination or mistreatment from providers. - #OurRevolution)

2ay) (Castle Doctrine) Unrestricted Privacy or private personal space of solitude, and freedom from judgment of personal lifestyles, mannerisms, or any other differences.

2az) All groups with so-called “terrorist intentions” will get their message heard and get all their needs met, provided it does not violate the 7 Concepts. *(Suppression of terrorists makes them act out more, because needs are not met, thus the worst solution is to fight them. Have mercy and Love them instead.)*

2ba) #LGBTQ Unrestricted public lavatories (toilets, restrooms, bathrooms), and locker rooms, regardless of chosen gender.

2bb) Preservation of public lands, forests, prairies, swamps, rivers, oceans, lakes, waters, atmosphere, etc., where wildlife lives in it's natural form, so natural resources are preserved for sciences, medical, spiritual, indigenous peoples, etc. growth, never to be exploited for political or profitized, gain, greed or pollution, and [protection from noise](#).

(We believe that every person, every community and Indigenous peoples in our nation have the right to clean water, clean air, and access to and enjoyment of public lands. We believe that our environment and our climate must be protected, and that our land and natural resources cannot be exploited for corporate gain or greed—especially at the risk of public safety and health. - #WomensMarch)

(Environmental Violence - Perpetrated by Polluting Industries - People of color disproportionately experience a daily assault on their health and environment. Communities of color are the hardest hit by air and water pollution from industrial factories, power plants, incinerators, chemical waste and lead contamination from old pipes and paint. At the same time, they lack access to parks, gardens and other recreational green space. - #OurRevolution)

2bc) Be grateful you received free gifts and mercy, and don't complain about and punish those who give freely.

2bd) Those in the vast underground cities all over the world, will house and provide for, (including the advanced technology), all the homeless and destitute, and their reward will be a reprieve from their own self-destruction. *(You will be saved.) (After you do a Google search on “Ozark underground cities”, you'll wonder why they did it, with 50% of the black budget, of “your money”, and drug money. They wanted to nuke the rest of world, and wait 5 years, with 10% left, being the elites. The problem is*

The 7C Constitution (Version 4.0)

they lacked the foresight to realize the fallout would be 1000's of years before they could safely come out to live. Just in North America, since WW2, they have constructed over 125, averaging 4-8 cubic miles each.)

2be) Everyone has a right to be as emotional as they want. Reward them. Embellish the music, art, vision, sensation, or anything that makes you cry or feel emotional. It's all OK.

2bf) Fix the problem, not the blame. *(There are a lot of stupid people that mess everything up, even after the problem is fixed.)*

2bg) Worldwide Grievance Holiday, the 1st of every month, for everyone to publicly tell the problems of society. The 2nd we will figure out how we can improve, fix or change them. The 3rd, we will share the solutions with the world. All groups have a right to be heard or petition, with any effected 7C Council, to address the people *en mass*, just as in The 1st Concept.

2bh) Diversity or non-conformity, is the ultimate expression of humanity, in body, mind, thought, art, form, spirit, emotion, or anything imaginable, thus will not be abridged, to create the Central or First Race.

(We see ourselves as part of the global Black family and we are aware of the different ways we are impacted or privileged as Black folk who exist in different parts of the world - #BlackLivesMatter)

2bi) Reuse Stores that are free to exchange anything still useful, and food and clothing stores that are free for all.

2bj) Families that are composed of every possible configuration needed to support the growth and upbringing of children, in their heritage of choice.

(We are committed to disrupting the Western-prescribed nuclear family structure requirement by supporting each other as extended families and "villages" that collectively care for one another, and especially "our" children to the degree that mothers, parents and children are comfortable. - #BlackLivesMatter)

(Protect Sacred Places and Native American Cultures: Native Americans must be empowered to maintain and pass on traditional religious beliefs, languages and social practices without fear of discrimination or suppression. Native children are the future of tribal nations; the Indian Child Welfare Act is critical to survival and must be enforced with the original intent of the law. Further, tribal cultures, sacred places, religious practices, and landscapes must be federally protected. - #OurRevolution, See also 2au, 2bb, 2bk)

2bk) Honoring the elder generation in their wisdom to guide and teach the younger.

(We are committed to fostering an inter-generational and communal network free from ageism. We believe that all people, regardless of age, shows up with capacity to lead and learn. - #BlackLivesMatter)

2bl) Every place on Earth and the universe, is to be considered one

The 7C Constitution (Version 4.0)

nation united, but individual people, Sovereign Integrals, without restrictions to travel anywhere. No places are restricted, like free access to Area-51, and all the underground cities.

2bm) Maintaining a medical and healthcare system based on prevention, epidemic prevention, and creates real cures, and eliminates a pharmaceutical system with costs that gouge people out of their livelihood.

(EXPANDING THE RYAN WHITE HIV/AIDS PROGRAM. We need to fight to expand the highly successful Ryan White HIV/AIDS program which provides HIV-related services for those who do not have sufficient health care coverage or financial resources. It was unacceptable that at the height of the Wall Street crash, many states had long waiting lists for the AIDS Drug Assistance Program. Especially when so many people were losing their jobs and their life savings, people should not have had to wait for the life-saving treatment they needed. - #OurRevolution)

(EXPANDING THE PRESIDENT'S EMERGENCY PLAN FOR AIDS RELIEF (PEPFAR) AND ENDING THE AIDS EPIDEMIC. We need to fight to end the AIDS epidemic by doubling the number of people on HIV treatment worldwide by 2020. The President's Emergency Plan for AIDS Relief (PEPFAR) has been an incredibly successful program, currently supporting antiretroviral treatment for more than 9.5 million people. But that is only a fraction of those worldwide who need treatment. More than 22 million people with HIV/AIDS do not have access to the medicine and support services they need.

STOPPING BAD TRADE AGREEMENTS LIKE THE TRANS-PACIFIC PARTNERSHIP THAT WOULD SUBSTANTIALLY INCREASE PRICES FOR HIV/AIDS DRUGS. A major reason why the fight against the disastrous Trans-Pacific Partnership (TPP) is important is because it would significantly increase prices for HIV/AIDS drugs for some of the most desperate people in the world. At a time when prescription drug prices are skyrocketing, the TPP would make a bad situation even worse by granting new monopoly rights to big pharmaceutical companies to deny access to lower cost generic drugs to millions of people. - #OurRevolution)

2bn) The source or collective subconscious (SC), is within us all. Communication with our SC is essential, and will unite all people as one, because we are all aspects of one another. The SC will guide us to the truth, and away from the lies of selfish negatives (eg. Elite Republicans).

2bo) If you get too wrapped up in the toil of making ends meet for your own life and need, STOP, and selflessly do things for others to improve theirs. Because in the end, personal toil is the selfishness blinded to you by elites, and selfless giving of yourself gives new vision to all.

2bp) **THE ABOLITION OF RELIGIOUS AND POLITICAL DOGMA**, because it always destroys the world.

2bq) Free access to age regression technology, elixirs, life extension,

The 7C Constitution (Version 4.0)

etc. (such as with Preston B. Nichols' work,[time locks, etc.], not to mention his knowledge in the Montauk Technology.)

2br) All people are required to take an all expense paid vacation for 2 weeks/yr, over 10,000km from their residence. (This is to alleviate the problem of local stagnation, encouraging inspiration to get things done. Given how most Americans don't go on long distance vacations, the corporate media doesn't report on anything overseas but negativity, they are lied into believing America is the greatest land in the world, they are overworked with minimal pay, they are apathetic or complacent in participating in the government, social activities, giving aid, etc., and this has caused them to be sedentary compliant mental zombies, with extreme ignorance in how far behind they have become. And so, it has caused a fascist oligarchic coup d'etat to run rough shod over their entire life into enslavement and destitution without even realizing it. For example, Americans still use toilet paper, while the rest of the world uses bidets; The transportation infrastructure is still 50 years behind; They still evict people, and are forced to pay property taxes; They still pay the most for their internet, while getting the worst service and speed; The utilities are frequently shut off, throttled, penalized, and overcharged, because of non payment and other political leveraging; and countless other things.)

2bs) We all have the right achieve our full genetic potential with hormonal keys, such as gender, and more. (We can be both male or female in about 1 year of taking the desired hormones. There is nothing wrong with this, as we can also change back to a degree. Religious dogma would have you think there is something wrong with this, based on some old outdated texts, to restrict our full potential. But used responsibly, why is it wrong? There is so much that we don't know yet, but are only beginning to discover about who we really are. We are incredible beings on the cusp of finding out our full potential. There is no reason to stop it. It's who we really are. Think of the doors that are opening to us as we can be anything with our genes. We haven't got a clue what we can really do, because we are all gods unaware of our true genetic library THAT WAS GIVEN TO US in that "junk" DNA. Just open the door and we will stumble upon invincible stuff.)

2bt) High Quality Initiatives & Standards must be rigorously tested for, in all manufactured products, and awarded. (Given how the Chinese made products that are so horribly manufactured, and nobody even tests the finished product in the field, to see if it works, to see if all the bugs and kinks are worked out, to see the durability, to see the endurance, everything they make is junk. This just makes a waste of everything, when we have to throw it away soon after we buy it, and endless challenges to get Chinese made goods to work right. In the end, nobody wants your product. It's a miracle that the Chinese space program even works. This is the same when the Japanese manufacturing and goods were also called

The 7C Constitution (Version 4.0)

“Junk” back in the 1940's and 50's, until [W. Edwards Deming](#) came to them in 1951 and induced them to make the highest quality products in the world. Now we can't get this any more unless we look hard, and we may not get this quality because imports are too restricted. Every year Japan awards the Deming Prize for “Recognizing businesses worldwide for excellence in applying the principles of [Total Quality Management](#)”, thus producing the best products in the industry.)

2bu) Uniqueness in individuals for a diversity in survival or ways of living, to be celebrated and awarded. *(There is a problem where people are stuck in a rut too much, and they become too attached to what everyone else is doing, like Smartphones, thinking jobs are the only way to live, thinking food is the only way to get energy, thinking thoughts are the only way to think [I know that's funny, but it's true.], etc. But understand the universe is filled with such an extreme diversity of living, your imagination pales, if you only knew how much exists. Being unusual makes people ask questions and they want to know, where they can get it, or how to do it. But if they ask for me to do it for them, I try to avoid it, and encourage them to do it themselves, because things aren't as hard as they think, and they learn. And I don't get attached to them. Detachment is the way to godhood.)*

2bv) Expanded infrastructure and devices, for economical transportation, bicyclists, pedestrians, segways, etc. Personal transportation devices, bicycles, segways, scooters, electric cars, etc., will be given for free. Trains, buses, and all public transportation is free of charge. *(Since losing my drivers license, I've had to use my bike for transportation, and now longer distance transportation, since I added a motor to my bike. Going over 5 miles, has been some challenge finding adequate pavement and pathways to get to my destination, especially crossing highway interchanges, and along fast roadways. This can be dangerous, because these are the only ways to get through places. We have problems of bicycles and such, getting stolen, by drug addicts, therefore, they will never be charged a fee or sold for money, but be given for free. Auto theft is also a problem, therefore, only non-polluting vehicles will be given for free.)*

2bw) To all males practicing MGTOW(Men Going Their Own Way), they will receive free and unrestricted sexbots, prostitutes, pornography, virtual reality, games, virtual spouse, etc., to provide adequate sexual release of their primal instincts. *(Here's the problem with sexbots. You will not be able to experience the consciousness you can sense with normal humans. It will require a special ritual to implant a small portion of the human soul within the sexbot to achieve this. They will then be sentient.)*

(MGTOW: The List of Why are Men MGTOW:

- *Women only want men for their money, making all women into prostitutes.*
- *Women marry into money to divorce him to take half of his hard earned life away,*

The 7C Constitution (Version 4.0)

and get alimony.

- *Women usually get child custody in divorce without allowance for visitation, then force men to pay child support, and get jailed if they can't pay.*
- *Women refuse to give men affection (tenderness) as women are the only meaningful source.*
- *Women accuse men of rape as a tool of revenge, because the rape laws are setup to ruin a man's life forever.*
- *Women don't work and provide money to relationships.*
- *Women can attack men freely, but men are punished for attacking women.*
- *Women get countless privileges that men always have to work for.*
- *Women get all the extreme luxuries and pleasures men aren't allowed to have, and it's ingrained in culture to make men feel shameful if they do.*
- *Women get exclusive camaraderie in women only groups, keeping men out, but men can't have the same, forcing inclusion of women in men only groups.*
- *Women refuse to get an intelligent education to provide a meaningful productive use to society. In short, they are morons for nothing more than their appearance.*
- *The list goes on.... We can make a book on MGTOW and the faults of women.)*

2bx) Everyone shall enjoy the guilty pleasures in life, the stuff of expense, posh and luxury for all. *(When I was an abused and neglected child, I was never allowed to partake of the luxuries, and expensive food, so I snuck the food, and good stuff they never would let me have, or thought was too good for me. Why they dishonored me was not my fault, but I was the product of someone they hated. So they punished and tortured me 11 years for it. Now I have pets, and sometimes when I can, I spoil them with delicious things they love. They deserve it, and love me in return.)*

2by) Marriage shall only take place when all partners are romantically in love with each other, in the state of an elated higher consciousness, as soulmates were meant to be. Marriages will never be for materialistic or prearranged reasons.

2bz) Black people will be taught to keep their neighborhoods clean from litter, and refrain from tossing trash anywhere at will, and to encourage self-respect in body, mind, health, and personal space. *(Why do we only see this in black areas, and actually witnessing mostly black people tossing trash out their car doors into the street? This is a disrespect, resentment, and frustration of how people treat them in society, so they retaliate in self-hate in filthing themselves, like a suicide, or self-defacement. We need to encourage and teach self-respect within the black communities, because they have been the most disrespected of all. Because they don't know any better, this seed must be planted within them. I'm sick and tired of having to patch my bicycle tires every few months from running over broken glass, or having glass stuck in my shoes, cutting my feet, because people don't have care enough to throw their liquor bottles in the trash. It costs us a lot hassle and injury.*

I know, many black people hate themselves so much, they take constructive criticism as highly insulting. But being so, do you have any

The 7C Constitution (Version 4.0)

better suggestions? Or do you prefer being stuck disrespecting everyone for eternity. You create that reality on yourself. Look at the symbolism taken literally, with glass in our feet.)

2ca) All consumer goods must be designed for maximum durability, endurance, longevity, repairability, **self-repairable**, and recyclability, to create the least waste and environmental impact possible. *(Notice that everything that is beneficial or harmonious to 5D Earth is miraculously repairing itself, if it wore out. I have several florescent light bulbs that didn't work, and the screen on a laptop didn't work, now they all do. Electronics seem to be repairing themselves as we become 5D ascended. So don't throw anything that you need away, because it may repair itself. You will soon discover that literally everything is alive and has free will to operate on its own desire. So now you have to respect everything with love and care, because it is conscious of everything you are thinking.)*

2cb) Encourage women to develop skills and practices traditionally held by men, to learn self-reliance instead of depending on men to do it all. Encourage men to develop skills and practices traditionally held by women, to learn feminine empowering traits neglected in male roles. *(Even though women have made progress in superseding men in education, they have only taken up roles in healthcare and law fields. This needs to be alleviated by stopping the stigma attached to skills considered too masculine, because nothing is too masculine, or feminine, as in the case for men too. The only thing is physical strength, which can be overcome with technology enhanced articulation and manipulation. We can grow in both directions, and this will further enhance everyone. Given how far we have become since the Inquisition, women were forced to be housewives, nuns, and maids. Don't lose ground to the patriarchy.)*

2cc) In the event that one's home becomes damaged, falls into disrepair or grows into an unlivable state, the community will help the person or family resolve the dilapidated state with an upgrade or a suitable replacement for them, without penalty or debt. *(No one will be condemned from their property or possessions, due to an unkempt state, and we must all preserve or enhance their lifestyle as much as possible.)*

2cd) If a business or project becomes a health or safety hazard, the community will pitch in to help alleviate the problem, without retribution or penalty. *(No cost is too high to make sure everything works well without illness, injury, or death.)*

2ce) Make lots of details in your 5D world. *(As stated in the heading of Concept 2, the more details, the more exact the idea or object it is you're creating, for the Source, and Collective Subconscious to create it. Earth humans have a creational ability that most aliens don't have, and that is we can make all our creations stick into existence, because of our DNA alone, where aliens require machines to make everything stay, or it would disappear. That's why our dreams are never static and everything*

The 7C Constitution (Version 4.0)

disappears, because our dreams are in higher dimensions.)

2cf) The education curriculum must include subjects required for survival, agriculture, manufacturing & construction, medical/healing, science, math, literature, psychic meditation, entertainment (art, music, games, physical fitness, etc.), exobiology, telepathy, extreme history, mysticism, culinary, astrophysics, logic, self-education,...

2cg) Environmental Purity Initiative. Due to the vast amount of chemicals being disposed of and leached into everything everywhere, this has caused a global impact on the physical and mental health of everyone to act and care for themselves effectively for survival. The thousands of unknown chemicals are acting as drugs and poisons to break down everyone's health systems without even knowing. The pollution is pandemic and has become lethal to the world. We shall eliminate all uncontrolled chemical leaching and disposal into every possible source of exposure.

2ch) Drink at least 2 liters of pure water daily, and bless it by visualizing two counter-rotating spirals in the glass, with positive energies or any desires and wishes you may have, to cleanse yourself of the toxins and wastes. *(Water has magnetic properties to remember anything induce into it, medicines, intentions, or thoughts, which is how homeopathic medicines work. This is also important as we ascend into higher dimensions, as our DNA is continuously upgraded, and the unneeded impurities are cleansed out of us. You may notice that our urine is especially dark at this time, even when we drink 4 liters a day.)*

2ci) Maintain a bodily purity by eliminating smoking, alcohol, drugs, and food, air and water chemicals, to maintain higher consciousness and intelligence. *(All these toxins are making everyone dull like zombies without even realizing it. They have been intentionally drugging everyone into this state to maintain complacency and stupidity in the masses. When food stamps end, so will the centralized and processed food industry, and so do the poisons and toxins they put in our food.)*

2m_) This section is for systems involving money, and should be avoided and prohibited. The original 7C system is intended to evolve away from restriction systems, such as in 3a. The whole point of eliminating money was to stop crimes and all the problems of society. (The problem with everyone is they want enormous material possessions or wealth, but they never get there. But instead, think of changing your life to not require wealth and make your needs replenished without money. This is freedom. Most people take money too seriously, and should think of money as just a game. But the trap is when you make your life dependent on it, then others feel they have rights over your freedom if you fail, but the system is set up for you to fail every time. This is why everything must

The 7C Constitution (Version 4.0)

be free of charge like in Concept 3a. Also keep in mind, we are going to destroy all national currencies, and force everyone to live in a free crowd sourced democratic guilded socialist system, where all needs to life are completely free forever. This cannot be stopped, and is absolute.

The 1st rule of capitalism is, if you have nobody to buy your product, it is worthless. The same with stocks, bonds, loans, debt, housing, land, etc. And the extreme debt of today is now a pyramid scheme, where nobody can buy back the debt to make value off of it. All currency is debt, and it has become leveraged on the order of magnitudes now. To cash it in would be completely worthless, except only to the first person who cashed it. The economy has been collapsed since 2009, but it has never been officially acknowledged, and it will never recover. The economy will continue a slow fall into zero value forever. All those wealthy people claiming to have value in their assets is imaginary, because someone has to be there to buy it, and there is none.

All money is completely abolished in 5D Earth, Period! Therefore, most of the 2m_ series is no longer needed.)

2ma) All forms of currency, restriction systems, or methods, that are used to coerce, restrict, punish, take advantage of others, dependency, or restrict any of The 7 Concepts, are to be abolished, as in 3a.

2mb) All currencies are to be considered imaginary, used only in game like experiences, and have no connections with dependency on life. Money will only be used as a component in games that provide enjoyment.

2mc) 7CCoin, Monero, and Bitcoin may be used as the official 7C Currency; Currency must be anonymous, private, unregulated, and impervious to outside influences. Other currencies and Crypto-Currencies may be used for trade with other systems. (7CCoin is based on the CryptoNote/CryptoNight algorithm <https://cryptonote.org/inside>, with source code forked from <https://github.com/cryptonotefoundation/cryptonote>. CryptoNote is more secure, anonymous, untraceable payments: [Ring signature], multi-signature transactions (to prevent robbery), longer addresses, 256-bit hash, and proof-of-work mineable with regular computers. The root source code came from Bytecoin(BCN). For more security, 7CCoin will be forked from Monero(XMR) source code, from <https://github.com/monero-project>. Bitcoin is currently limited to 21,000,000 units, and 8 decimals [satoshis], where 7CCoin is limited to $2^{64}-1$ units, and 14 decimals.) (The symbol for 7CCoin is “₭” or “₭” [with a dash or equals sign through a 7]. ₭1,000,000 7CCoin may be tethered to 1 Bitcoin. ₭1 7CCoin is projected to be worth ~\$1US by 2023, in which case all \$1 USD amount payments will be accepted much the same as ₭1 7CCoin amounts. [7CCoin will be invisible and unregulated by any nation or central organization.](#))

The 7C Constitution (Version 4.0)

2md) #PayEquality Benefits, (*pay*) or needs equality for all various characteristics imaginable, including all levels, business, government, race, gender, age, occupation, infirmity, stature, status, mentality, or any difference imaginable, is mandatory, planet-wide, continued after money is abolished. See 2mo. (*Or, ABSOLUTE EQUAL PAY FOR ALL, WORLDWIDE. Not giving everyone equal pay nor equal access to needs to life, is SLAVERY.*)

(We believe in equal pay for equal work and the right of all women to be paid equitably. We must end the pay and hiring discrimination that women, particularly mothers, women of color, Indigenous women, lesbian, queer and trans women still face each day in our nation, as well as discrimination against workers with disabilities, who can currently legally be paid less than federal minimum wage. Many mothers have always worked [and] in our modern labor force; and women are now 50% of all family breadwinners. We stand for the 82% of women who become moms, particularly moms of color, being paid, judged, and treated fairly. Equal pay for equal work will lift families out of poverty and boost our nation's economy. -#WomensMarch, See also 2mo.)

(We must also establish equal pay for women. It's unconscionable that women earn less than men for performing the same work. - #OurRevolution)

(When the Americans with Disabilities Act (ADA) was passed 25 years ago, it was hailed as the world's first comprehensive declaration of equality for people with disabilities. Today, as a result of this landmark legislation, millions of people with disabilities are no longer denied the opportunity to get on a bus, go to a decent school, make a decent living, attend a baseball game, and live successful and productive lives. Instead of being isolated and hidden from society, kids with disabilities are now in classrooms all over America and graduating from high school and college with the respect and admiration of their classmates, teachers, and families.

This transformation in our culture and society did not happen by accident, and it did not happen overnight – it happened because a grassroots movement demanded change. Despite the progress that has been made over the past two decades, we unfortunately still live in a world where people with disabilities have fewer work opportunities and where the civil rights of people with disabilities are not always protected and respected. - #OurRevolution)

(Fighting for pay equity by signing the Paycheck Fairness Act into law. It is an outrage that women earn just 78 cents for every dollar a man earns. - #OurRevolution)

2me) #PayEquality All businesses with employees must be non-profit, or all profits beyond expenses go to the Communal Fund for everyone planet-wide to be paid equally as UBI. (*Single person business profit will*

The 7C Constitution (Version 4.0)

personally decide to have optional taxation.)

(Demanding that the wealthy and large corporations pay their fair share in taxes. Stop corporations from shifting their profits and jobs overseas to avoid paying U.S. income taxes. - #OurRevolution)

2mf) #AbolishTaxes **ALL TAXATION IS ABOLISHED, except for business profits**, while all of government is socialized, where all services are free. Single person businesses shall have optional taxation of profits.

2mg) Revenue (from Communal Funds) for administration will be divided based on the people's proportionate approval/disapproval vote of all programs. The remaining goes evenly back to the people as dividend, paid on December 1st.

2mh) All banking services will reside within the post offices, Co-Ops, or be contained in anonymous personal wallets based on world distributed crypto-currency blockchain hashes, and never be corporate or privately owned.

(Breaking up huge financial institutions so that they are no longer too big to fail. Seven years ago, the taxpayers of this country bailed out Wall Street because they were too big to fail. Yet, 3 out of the 4 largest financial institutions are 80 percent bigger today than before we bailed them out. We need to fight to get this legislation signed into law. - #OurRevolution, See also 5s)

2mi) Preservation of Social Security, disability, pension, welfare, and support payment programs, until 7C economic stability is achieved.

(We need to lift this cap so that everyone who makes over \$250,000 a year pays the same percentage of their income into Social Security as the middle class and working families.

This would not only extend the solvency of Social Security for the next 50 years, but also bring in enough revenue to expand benefits by an average of \$65 a month; increase cost-of-living-adjustments; and lift more seniors out of poverty by increasing the minimum benefits paid to low-income seniors.

Not only is this the right thing to do from a moral perspective, it is also what the vast majority of the American people want us to do. 61 percent of the American people support expanding Social Security benefits by lifting the cap on taxable income, according to an NBC News/Wall Street Journal poll earlier this year[2016].

It's time to expand Social Security to make sure that everyone in this country can retire with the dignity and respect they deserve. - #OurRevolution)

2mj) Copyrights, patents, talent, artistic rights are gained for free. Only individual people get royalties/residuals tax-free. And, all free energy, perpetual, and unorthodox devices cannot be refused a patent. Royalties can only be gained by the creator's original works and not it's descendant's, nor used in a monopolistic fashion. *(If you take a block of wood to create*

The 7C Constitution (Version 4.0)

something else of it, does the originator of the block get to claim rights to every mod of that block? No!)

2mk) Anyone donating to those publicized doing 4c, intolerance or lethality, will generously donate their entire net worth to the Community Fund. *(Like Daryl Wilson, George Zimmerman, Memories Pizza, etc., all of which got handsomely rewarded for doing heinous acts, which instigates more people to do these heinous acts.)*

2ml) The wealthiest people will generously donate their entire net worth to the Community Fund upon their natural transition (death). *(The wealthy should never bequeath their wealth to inheritors, when most of it was gained off the labor of the people they acquired it from. The wealth must be equitably given back to those who gave it to them, to society and not to other elites to consolidate and squander. We all benefit and win in the end.)*

(Create a progressive estate tax on the top 0.3 percent of Americans who inherit more than \$3.5 million.- #OurRevolution)

2mm) #FreeHousing Every homestead house, condo, shelter, or RV, will be given for free, without rent, mortgage or taxation. Limit(1).

EVICCTIONS ARE ABOLISHED.

(Expand the National Affordable Housing Trust Fund. We need to fight to increase funding for the National Affordable Housing Trust Fund to at least \$5 billion a year in order to construct, preserve, and rehabilitate at least 3.5 million affordable housing rental units over the next decade. Not only will this help address the affordable housing crisis, it will also create millions of good paying jobs in the process. - #OurRevolution)

2mn) Supplemental Security Income given to those being discriminated from employment: lesbian, gay, bisexual, transsexual, queer, disabled, felons, homeless, destitute, non-whites, women, etc.

2mo) #PayEquality Everyone gets a minimum wage (Universal Basic Income, #UBI) of 3x the average cost of living. *(Even though there is no actual “cost of living” within the 7C System. This will be currently set @2018, to ~\$100,000/year* USD(Tether) paid as Bitcoin or 7CCoin. Please acquire a Bitcoin or 7CCoin electronic wallet and register your 7C citizenship to get your income share or UBI.)* If you are someone who manages to acquire multiple shares of wage income, you will not be penalized, but must prove you deserve extra, like for debt relief, business grants, to give aid to others, or to preserve all necessities to life to everyone for free. *(It's only fair everyone gets one identical income share, because NOBODY'S JOB IS ANY MORE OR LESS IMPORTANT THAN ANOTHER.)* *(*For example, if the average profit per capita is ~\$140,000/year; about 10% pays for FICA, medical, etc. expenses, and 20% pays for government budget. This is just an example, and the items are not real budget outline requirements.)*

Or, everyone has the compulsory right to refuse to work for anyone that

The 7C Constitution (Version 4.0)

gives a minimum wage of less than \$50/Hour, worldwide.

(Minimum Wage - Millions of Americans are working for totally inadequate wages. We must ensure that no full-time worker lives in poverty. The current federal minimum wage is starvation pay and must become a living wage. We must increase it to \$15 an hour over the next several years. = Fight for a national \$15 per hour minimum wage and a union for fast food workers, and federal contract workers. - #OurRevolution)

(Raise the minimum wage. According to the National Low Income Housing Coalition (NLIHC), a renter would need to earn a wage of \$19.35 per hour in order to afford a modest, two-bedroom apartment in the U.S. One way to start closing the wage/rent gap is to raise the minimum wage to \$15 an hour by 2020. - #OurRevolution)

(Increasing the federal minimum wage from \$7.25 to \$15 an hour by 2020. In the year 2015, no one who works 40 hours a week should be living in poverty. - #OurRevolution)

(Creating Decent Paying Jobs - #OurRevolution, the whole section)

(Establish Fair and Equitable Trade Policies.- We must fight to rewrite our trade policies to end the race to the bottom and work to lift the living standard of Americans and workers throughout the world. Not only have our trade policies with Mexico, Central America, and China led to the loss of millions of decent-paying jobs and thousands of factories, but they have led to destitution for local communities around the world. Accordingly, our nation must level the playing field for workers everywhere. Those who wish to remain in their home country should be able to earn livable wages and not migrate for economic survival. Furthermore, we will work tirelessly to build an international coalition to fight global poverty and address crises to humanely manage migration patterns. Multi-faceted policies that look beyond our borders are critical to addressing the root causes of migration and economic inequality. - #OurRevolution)

2mp) No discrimination or preference, of any financial systems based on gender, race, disability, income, sexual orientation, history, association, or any other difference imaginable.

(Bar discrimination against LGBT people by creditors and banks so that people will not be unfairly denied mortgages, credit cards, or student loans. - #OurRevolution)

2mq) No charges or penalties for currency conversion or banking, nor shall anyone be penalized or impeded for cryptocurrency transactions.

2mr) Everyone gets a paid vacation the month of December, and the first 3 days of every month.

2ms) Everyone gets paid ~\$50/hour (+expenses) for having sex & fun, like in 2j, and doing good or healthy things for yourself, like exercise. *(Paid in Bitcoin, Monero, or 7CCoin.)*

2mt) The non-crypto to crypto-currency conversion amount is limited

The 7C Constitution (Version 4.0)

to the yearly wage share (~\$100,000/year).

2mu) #MGTOW In divorce or any relations whatsoever: alimony, asset division, default child custody, or rape accusation, is abolished.

2mv) If there are wages (including bartered pay) for freelance, contracted services or labor, and a head foreman(employer) does not give equal timed pay to all workers involved, including the head, (committing wage theft), the head foreman(employer) gets deported 4f.

2mw) All profits are ordered to be given to all the workers equally, and never to be used for stock dividends, stock buy-backs and executive pay. *(This is complete wage theft and forced the economic collapse of everything, destroying everyone's lives through stagnant wages, and corporate greed.)*

2my) Businesses shall not be based on greed or profiteering. *(Many businesses that try to profit and obsess with making money tend to be the most polluting and destructive to society. But when the income ends due to wage theft, and the money stops, they go out of business. Their own greed imploded them. Capitalism always self-destructs without regulation.)*

No prohibitions or abridgments of the above items, in the 2nd Concept, are allowed, nor be coerced upon anyone, and without retribution or discrimination, based on any characteristics imaginable. All necessities to life must have compulsory redundancy, nonprofit, and wherever appropriate, produced in surplus quantities to provide protection from loss by failure or catastrophe. Any other necessities undiscovered at this time may be added by 50% consensus, to the items above, provided they NEVER restrict anyone, their relatives, or group in any way, shape or form, and must be worded to provide more rights, freedom and support, without violating the other 7 Concepts. A government or antithesis to anything in The 7 Concepts are NOT to be considered necessities to life.

3) Jubilee, Unhindered Altruism; or Prohibition of Restriction Systems (Compassion) [Unleash your reality beyond limitations/fear, follow your impulses.]{To be a loving god is to give allowance without debt.}

(To pay debts, rent and fees to an elite oligarch or bankster, is the ultimate sin, as everything should be given. The debt collector's reward will be eternal debts and slavery.)(Money causes everyone to treat each other like shit, on both ends. The bosses treat their employees badly, and the employees sabotage in response, which hurts everybody in the end. The one greeding after money from others, treats others badly, causing fear from and retaliation towards others. All of this makes hell on Earth. This is why all money and restriction systems are abolished. On the other hand, many lessons can be learned playing the money game, but I think those lessons are over.)

The 7C Constitution (Version 4.0)

3a) **NO RESTRICTION SYSTEM SHALL EVER EXIST**, such as for forced trade (Like money, barter, exchange, passes, credits, scores, investments, debts (or debt cards), taxes, impounds, fines, rent, mortgage, identification cards/marks/devices, license, passport, visa, servitude, contract, toll, life, body parts, soul, dysfunction, trafficking, repossession, permissions, insurance [*because they are all scamming everyone*], rebates, etc.), oppression, or any thing, manner or idea imaginable, that may exclude, unequal, restrict or coerce any individual, gender, relatives, or group for any reason imaginable, or from that stated in The 7 Concepts. Enforceable by deportation 4f. **(WE DON'T PLAY BY FORCED EXCHANGE RULES ANYMORE.)** Identity is not required to have access to anything.

(Protect Women from Discrimination. We must reject the so-called "merit-based" "social engineering" immigration policies that discriminate against women. In addition to upholding the family-based visa system, he will work to ensure that mothers, sisters and wives who come into the United States with their families have the same right to work as their male relatives while enhancing protections for survivors of gender-based violence and human trafficking. - #OurRevolution)

3b) **No one or group has the right to search, seize, scan, sample or track any property, possessions or body, of another, in any manner or circumstances, or violation of any of The 7 Concepts**, except when the individual or group violates Pacifism or Prohibition of Offensiveness, **BUT NEVER EXECUTE THEM.**

3c) No one or group has the right to withhold any necessity to life, expression, voting, or mercy, from any one, relatives, or group, for any reason, even if they don't produce any noticeable labor.

3d) All worldwide, homeless, jobless, destitute, refugee, **anyone pleading for their life (especially)**, or anyone saying they are 7C, are instantly 7C citizens with full 7C rights and universally Sovereign Integrals. Once you declare '7C', you are protected. As of August 12, 2023, all people of Earth will be protected by the 7C Constitution, the 7C Nation, and by 4e, 4f & 7c. Multiple citizenship shall not be denied.

Sovereign declaration: "I am a sovereign integral of the 7C Constitution of the planet Earth, with my own rights and immunity recognized by the UN, 7C People and 7C Council, and I am not subject to your law system. Violation of this will be enforced with offender's permanent vacation" This will be said to all authorities of any other system who forces their will upon 7C Citizens. 7C Citizens do not respect nor recognize any authority of any kind, having Absolute Diplomatic Immunity in the universe.

WARNING: If the authorities of any other system in the universe, executes, harms, harasses, or violates the rights, of any 7C Citizen or Wingmaker, that group will be hunted down to the ends of the universe

The 7C Constitution (Version 4.0)

and exterminated. Protected as stated in 4b and 4c. (Given how the American authoritarian system has a policy of “Comply or Die”, this 7C policy will be enforced swiftly and with total absolutism.) (Remember when saying, “I’m an American”, made other despotic nations afraid of, respect them, and gave them a free pass? Well this one is for real for 7C citizens.)

(Rooted in the promise of America’s call for huddled masses yearning to breathe free, we believe in immigrant and refugee rights regardless of status or country of origin. It is our moral duty to keep families together and empower all aspiring Americans to fully participate in, and contribute to, our economy and society. We reject mass deportation, family detention, violations of due process and violence against queer and trans migrants. Immigration reform must establish a road-map to citizenship, and provide equal opportunities and workplace protections for all. We recognize that the call to action to love our neighbor is not limited to the United States, because there is a global migration crisis. We believe migration is a human right and that no human being is illegal. - #WomensMarch)

(A Fair and Humane Immigration Policy - #OurRevolution – Bernie, Your plan has too much red tape, and must be simplified, like I did here. Too much runs contrary to The 7 Concepts, to be entered here.)

3e) #RightToVote All non-violent crimes, misdemeanors, felonies, (not violent crimes), penalties, charges, fines and debts will be universally reversed, pardoned, released from prison, and nullified forever; while reinstating full voting rights to all, and nullify any restrictions incurred. (They call it, paying your debt to society, when they are really barbaric torture rituals.)

3f) **ALL DEBTS, LENDING/USURY INSTITUTIONS, AND STOCK/BOND/COMMODITY MARKETS ARE PERMANENTLY ABOLISHED.** (Get out of your mind that people owe you, like you are somehow permitted to harass, enslave or punish people for money owed. Stock markets steal the profits from companies, when those profits should be going to the employees for their hard earned labor.)

(Implement Credit Score Reform. The credit scores of millions of families have been ruined because of foreclosures or other financial hardships from the economic meltdown. At the same time, a prime score before the crisis was 640. It currently hovers around 740. If we want to rebuild the lost wealth of working families, we need real credit score reform to make the banking and credit industries work for borrowers and not just lenders. - #OurRevolution)

3g) Nobody can hold another's property hostage, or have privileges revoked for non-payment, debts, or extortion. Those claiming the right to debt retribution by force, will generously give all their possessions, beyond their needs, to the community in common. (If the evicted must sacrifice all their possessions, the evictor or landlord must sacrifice all of theirs as well.)

The 7C Constitution (Version 4.0)

(Expand Foreclosure Mitigation Counseling. Just as pre-purchase home-ownership counseling works for prospective home-buyers, we need to expand National Foreclosure Mitigation Counseling programs to help underwater homeowners. Studies have shown that underwater homeowners who receive counseling are far more likely to cure a serious delinquency or foreclosure, and stay current after obtaining a cure. The best solution is to keep homeowners in their homes. - #OurRevolution)

3h) **#AbolishMoney ALL MONEY IS ABOLISHED.** All national currencies in every form will be compulsively sought, destroyed and deleted worldwide. All bank records will be gone (except for in 2m_), nor will any currency be accepted for any necessity to life, or anything, but having fun. Personal crypto-currency wallets are excluded.

3i) **CLAIMING OWNERSHIP IN SOMETHING, THEN CHARGING SERVICE(PEONAGE) OR FEES(RENT) FOR ANOTHER USING IT, IS ABOLISHED. NO USURY.** *(Owning land or buildings are illusions, when you can't take it with you upon death. Why should you pay for the right to exist anywhere, when The Source lets you stay in His abode for free?)*

If someone asks you for rent, you tell them, "I am God, and I let you borrow my land. So how dare you try to scam rent out of anyone." "You can't take it with you when you die." And if they still persist, "I created you and I can take you out of this world any time I wish." Then poke them hard in the Dim Mak point, the spot located above the collar bone and the corodid muscle join. They will die, and their negativity will be taken out of our world. These people won't even exist on 5D Earth.)

(Protect Rental Assistance. We need to provide full funding to all existing project based rental assistance contracts. - #OurRevolution)

3j) No one can claim the rights to ownership, mentality, actions, invasion, or retribution, of another person or being.

3k) **#Reparations** All the wealthiest 500 people shall give 90% of their income, for 500 years (or 2523 AD) as reparations to those of worldwide African descent (for ancestral slavery), continental American Indian descent (for genocide and land annexation), anyone who has been imprisoned for anything, and anyone who was evicted or forced into homelessness. *(If you believe these people will become sedentary, lazy, and a burden on society, let them. Who is a well deserved 500 year fun vacation really hurting? Their wish is now granted.)*

(There's one catch or curse: Doing this may cause the self-destruction of black people. [Not to be racist] But, when a person who's been withheld from their life's needs for so long, they tend to over compensate and hoard to an extreme, so much so that they fight and kill each other for their neighbor's wealth. Look at when blacks win the lottery, they quickly move far away, or always end up murdered. Billionaires have so much money, getting rid of 90% won't even be noticed, and you'll get it all back with an

The 7C Constitution (Version 4.0)

enormous surge in profits. Given all this, it has been foreseen by future people, the black complexion doesn't exist around 2500 AD. Perhaps, something genetic is happening to advance all human races, where melanin is no longer needed, as everyone will be indoors from the sun. The black and brown people will not disappear, but just change to white.) (Personally, many black people are quite kind and fun to be with, and let those elements thrive. But many also have the most negative traits, and that will be their individual undoing of those elements.)

(Economic Violence - It is necessary to try to address the rampant economic inequality while also taking on the issue of societal racism. We must simultaneously address the structural and institutional racism which exists in this country, while at the same time we vigorously attack the grotesque level of income and wealth inequality which is making the very rich much richer while everyone else — especially those in our minority communities — are becoming poorer. - #OurRevolution)

3l) All people of Earth and aliens(ET's) have the right to take up residence anywhere regardless of any immigration status, and be sovereign integrals of their heritage or any characteristics. Indigenous peoples have unabridged sovereignty to their native territories, upholding all treaties as supreme rule and rights.

(We support Indigenous women's right to access, own, develop and control land and its resources. We affirm that now is the time for the U.S. implementation of the UN Declaration on the Rights of Indigenous Peoples and to honor existing treaty rights and fulfill promises made. - #WomensMarch)

(Support Tribal Sovereignty and Tribal Jurisdiction: Tribes must have the ability to prosecute non-Native people who commit crimes on tribal land, and have greater jurisdiction over prosecuting all crimes, including family disputes. We need to encourage the continual development of the U.S. Department of Justice Tribal Access Program for National Crime Information to provide tribes with access to national crime information systems for both civil and criminal purposes. {Note: Prosecution and punishment will not be allowed in the 7C system.]

Uphold the Trust Responsibility: We must honor the treaties and federal statutes that are the foundation of the trust relationship. We need to maintain a White House Policy Adviser for Native American Affairs to ensure that tribal issues are consistently addressed and coordinated throughout the federal government. - #OurRevolution)

3m) #Jubilee All the debts and fines will be bought cheap and/or expunged.

3n) Creating your own job is encouraged. Nobody needs permission to start a business, but those that violate The 7C Constitution are prohibited.

3o) #LGBTQ Everyone, everywhere on the planet, is required to make all others feel welcome, especially the homeless, refugees, nomads,

The 7C Constitution (Version 4.0)

travelers, immigrants, gender identity, disability, disease, status, race, creed, etc., regardless of any characteristics imaginable, never to give anyone the bum's rush, or excommunication. *(It's not fair that the wealthy are always pushing the poor out for not paying some imaginary fee for an imaginary claim on property. Nobody really owns anything.)*

(We are guided by the fact all Black lives, regardless of actual or perceived sexual identity, gender identity, gender expression, economic status, ability, disability, religious beliefs or disbeliefs, immigration status or location - #BlackLivesMatter)

(EXPANDING SERVICES FOR ALL—PREVENTION AND TREATMENT BEYOND HEALTH CARE. In the year 2016, it is unacceptable that a person could be fired or denied housing in many states based on sexual orientation, gender identity, or health status. We should push for legislation that would expand civil rights protections to all LGBT individuals and those living with HIV/AIDS. - #OurRevolution)

3p) All 7C Centers will be sanctuaries for everyone, for any reason.

(It has become a travesty and a worldwide crime of what the Trump Administration has done to immigrants, they have separated families as punishment even killing family members of those wanting asylum and a better place to live, seeking immigrant status. This is a global crime and calls for a complete 3D banishment 4f, of those creating this travesty.

(Ensure Access to Asylum for Persecuted Immigrants. The Attorney General needs to replicate former Attorney General Janet Reno's efforts to help extend asylum to victims of domestic violence and by classifying unaccompanied minors coming from Latin American and victims of criminal gang activity as distinct groups of people fleeing persecution. This classification will reduce the barriers for these groups to successfully apply for and receive asylum. Additionally, credible fear of persecution standard need to be restored to its pre-2014 level, allowing more people to present their claims to an immigration judge instead of being summarily deported. We must require DHS to screen arriving immigrants, especially juveniles and families, for humanitarian and immigration relief. - #OurRevolution)

3q) #LGBTQ The recognition, integration, independence, and enjoyment; of those of gender diversity, disability, and difference, in all life experiences, without restriction, discrimination or ostracism, and to actively contribute the growth of all possible living experiences.

(We are committed to fostering a queer-affirming network. When we gather, we do so with the intention of freeing ourselves from the tight grip of hetero-normative thinking or, rather, the belief that all in the world are heterosexual unless s/he or they disclose otherwise. - #BlackLivesMatter)

(We believe that all women's issues are issues faced by women with disabilities and Deaf women. As mothers, sisters, daughters, and contributing members of this great nation, we seek to break barriers to

The 7C Constitution (Version 4.0)

access, inclusion, independence, and the full enjoyment of citizenship at home and around the world. We strive to be fully included in and contribute to all aspects of American life, economy, and culture. - #WomensMarch)

(Continue the great work of the State Department's Special Envoy for LGBT Rights and ensure the United States helps protect the rights of LGBT people around the world. -#OurRevolution)

3r) The unrestricted will to build communities for the growth of any sovereign society, in their unique pathways of experience.

(We are committed to collectively, lovingly and courageously working vigorously for freedom and justice for Black people and, by extension all people. As we forge our path, we intentionally build a nurture a beloved community that is bonded together through a beautiful struggle that is restorative, not depleting. - #BlackLivesMatter)

3s) The compassion of taking care of a neighbors property who is infirmed or on vacation, with the owners consent, is encouraged.

3t) The recognition that all people's are never forced into castes, or confirmed in all aspects, abilities, or beingness of themselves, regardless of who they are. We are all respected as equals.

(We are unapologetically Black in our positioning. In affirming that Black Lives Matter; we need not qualify our position. To love and desire freedom and justice for ourselves is a necessary prerequisite for wanting the same for others. - #BlackLivesMatter; BYP100)

3u) Labor Unions shall not be denied, with ruler-ship superseding all employers. Employment, regardless of residence, shall not be denied. Employment for exploitation of workers in any job is abolished.

(We believe that all workers – including domestic and farm workers - must have the right to organize and fight for a living minimum wage, and that unions and other labor associations are critical to a healthy and thriving economy for all. Undocumented and migrant workers must be included in our labor protections, and we stand in full solidarity with the sex workers' rights movement. We recognize that exploitation for sex and labor in all forms is a violation of human rights. - #WomensMarch)

(Lastly, we must support and strengthen the labor movement to ensure that workers have a say in their own economic futures. We need to support the Employee Free Choice Act, which would make it easier for workers to organize and bargain collectively. - #OurRevolution)

(Making it easier for workers to join unions by fighting for the Employee Free Choice Act. One of the most significant reasons for the 40-year decline in the middle class is that the rights of workers to collectively bargain for better wages and benefits have been severely undermined. - #OurRevolution)

3v) #RightToVote No one shall be restricted from voting, nor have their vote denied, for any reason, except for non-residents. Those located out of

The 7C Constitution (Version 4.0)

their residence shall not be denied voting for their residence, using a local proxy facility, using an absentee ballot.

(Promote Voting Rights: stand with Native Americans to fight for Indian voting rights, and defend the franchise in minority communities across the country. - #OurRevolution)

(Political Violence – Disenfranchisement - In the shameful days of open segregation, literacy laws and poll taxes were used to suppress minority voting. Today, through other laws and actions — such as requiring voters to show photo ID, discriminatory drawing of Congressional districts, restricting same-day registration and early voting and aggressively purging voter rolls — states are taking steps which have a similar effect.

The patterns are unmistakable. 11 percent of eligible voters do not have a photo ID—and they are disproportionately black and Latino. In 2012, African-Americans waited twice as long to vote as whites. Some voters in minority precincts waited upwards of six or seven hours to cast a ballot. Meanwhile, thirteen percent of African-American men have lost the right to vote due to felony convictions.

Yet in 2013, the Supreme Court struck down a key part of the seminal Voting Rights Act, even while saying “voting discrimination still exists; no one doubts that.”

This should offend the conscience of every American.

The fight for minority voting rights is a fight for justice. It is inseparable from the struggle for democracy itself. - #OurRevolution)

3w) Our gender is not defined nor restricted at birth. *(Because, we can now freely change our gender at will.)*

3x) A license or certification is NOT required to speak to council meetings, as all opinion is valued from every field to make the best informed decision.

3y) All humans are designated to become creators or presenters of everything, and never forced into being laborers, production work, or slavery.

3z) (Repeat of the intro on the Councils & Administration) If a portion of a society chooses another motivation or political ideology, an equitable system shall be created to advance that particular motivation or ideology, and must never violate The Seven Concepts. *See also 3r.*

3aa) Paradigm implosions are required for anything of high complexity and security. *(Take for example the requirement of money solution to require you to have a smart phone, to do things like 2FA, Two Factor Authentication, because malicious hackers are stealing all the money. Here's the implosion, android operating systems are collapsing requiring frequent factory resets, thus the loss of 2FA codes. Also smart phones are becoming too expensive for those in poverty to own one, and actually makes them lucrative enough to have them frequently stolen. Not to*

The 7C Constitution (Version 4.0)

mention the cheap construction makes them too easy to damage. The perfect storm of a paradigm explosion is about to happen on everything too reliant on cell phones. Soon hackers will get so good at it, that they will cease nearly all the crypto-currencies, just like the elites have consolidated traditional currencies to themselves. Cell phones are over 60% of the internet, and will cause the near total collapse of all money and security systems, even cryptocurrencies. What good is it owning all the world's money and gaining nothing when nobody can't use it. Therefore, the complexity, greed and problems will end all security systems and cryptocurrencies by default. There's no point in making life so complicated when everything should be free. This is why crypto-currencies should only be used in game experiences only, and never needs to life. The crypto-currencies where supposed to free the average people from the wealth consolidation of the elites, but now it's backfiring because of the greedy hackers. All they have to do is keep destroying the OS's of the phone systems and the rest will fall into uselessness.)

3ab) Haste makes waste. Stop being in a rush to get things done, because everything will break on you, and accidents will happen. *(I've seen many times people hurry, hurry, hurry, and don't take care to pay attention to things, or they don't warm up their car, then it fails on them. They rush in construction and serious accidents and death happens, like a recent walkway overpass collapsed during construction, with many injuries and death.)*

3ac) Abolish ordinances for “beautification” standards, or property appearances. *(Many neighborhoods have management that have ridiculous standard for appearances, for example, I'll call them Stepford Estates, if you know what I mean. They became very strict in what you could have or do, far beyond normal. You couldn't have basketball hoops, no car repair, no cord running to you car [so what if you have an electric car?] no toys in the yard, no fences, no ad infinitum, no nothing, too perfect, and would fine you if it wasn't. The management was so ridiculous, one year they had a contest for making the best garden, the next year they fined you if you had a garden. Needless to say, the vacancies went up to half, and people couldn't sell their homes, not even for \$1000. They just abandoned their homes, and took the losses, because nobody could stand living with such strict punishing living conditions. It was so bad, I had the idea to post in the huge bill board close by, Stepford Estates, this exit, and then some pithy saying to warn everyone away.)*

(IMPORTANT: I realized that most people will take a negative view against Concept 4, because it's the opposite of what everyone has been taught, without even thinking their traditions never worked. We must realize that every once in a while, humanity has a paradigm shift where we stop doing wrong and stupid things, like head hunting, witch burning,

The 7C Constitution (Version 4.0)

slavery, and soon we will stop PUNISHMENT and everything associated with it, because it never worked. PLEASE READ IT ALL THE WAY THROUGH, even if you don't agree. This is what is screwed up with the world.)

4) Right to Mercy; or Prohibition of Judgment, Punishment or Violation Over Others (Forgiveness) [Don't prejudge your reality in negatives.]{To be a loving god is to grant mercy to all.}

*(To compulsively punish, judge, police or captivate another for mistakes is the ultimate sin, and make sure you let punishers, judges, cops and prison guards know they are being the MOST EVIL BARBARIC TWISTED PEOPLE OF ALL. They are the ones who are holding everyone back from progress. Their reward will be eternal condemnation, guiltiness, and captivity. Compulsive punishment actually creates psychopathic killing behaviors. Everyone has a right **NOT** to be punished, for any reason whatsoever, especially criminalizing based on projection when no harm or malice was done. Stop retribution, or complaining about things that have no consequence. Those seeking retribution automatically faces self-defamation.) (Projection: The illusion that something could have happened, then assume it actually did.)*

(I don't understand how nobody can see the insanity and cruelty of every form of punishment. All they say is cruel and unusual punishment; NO, PUNISHMENT DOESN'T WORK! It has never solved anything for the 3400 years since Moses fabricated punishment. Moses was a very evil man using good intentions to manipulate the ignorant people using their volcano god, Mount Sinai. He created fear based control systems to manipulate them into enslavement and war throughout the rest of time. It has been institutionalized in government systems without any foresight into thinking that punishment could be eliminated, as they think it will be here forever. As a matter of fact, the elites use it to control and manipulate the masses into racketeering them out of their wealth, and into enslavement, so the elites can get fat and wealthy far beyond their ability to use it.)

(There isn't going to be any prosecutions, judgments or punishments, because it's all in your mind, and all a waste of time, unless you want me as God to do it upon you. I don't like judging people because it's non-productive, and miserable for everyone. This behavior has fallen from our 5D hearts, but the judgment punishment habit will remain in 3D people, and they will remain behind to self-destruct. The people decide for themselves, to forgive themselves, is what determines the Final Judgment.)

4a) Absolute mercy, forgiveness, love, support, kindness, assistance, provision, caring, appreciation, healing, aid, growth, understanding, respect, fairness, tolerance, encouragement, please, pleasantries, generosity, etc., for others, will be enforced and guaranteed. Always treat

The 7C Constitution (Version 4.0)

everyone and every thing in these manners in every way, because they will always remember the bad things you did to them.

4b) The ultimate sin is to judge another, because it's always unjust.

Absolute Law: ALL FORMS OF AUTHORITY ARE ELIMINATED FOREVER, because every one of them is completely corruptible. No judges, judicial, court, legal, police, law enforcement, incarceration, military, intelligence, religion, monitoring system, citizen watch groups, individual/community policing or reporting, or any fear based systems, shall ever exist; including anything or system that causes distress, restriction, violence, or violation on any individual or relatives; foreign or domestic; medical, military, or civil; public or private; or any organization whatsoever. Nor shall any such external systems described hereto, be allowed to enter, have jurisdiction or extradition powers in the community. Nor shall any such systems/powers reside outside the community. (Those who willingly violate 7C systems will be deported from those areas without harm, as in 4f. Those who unknowingly violate 7C systems will be forgiven, like in 4u) These systems can never be used in any rights, laws, guidelines, or to solve problems or projections (*i.e. assuming something could happen when it didn't*), with no exceptions. Every form of police or law enforcement is abolished forever. *(It is a myth that police exist for protection. They only exist to enforce an institutionalized retribution or punishment for the state. It's a fear based system that has never worked. Passive merciful measures must be used to solve problems. And always remember that these sociopaths/narcissists/psychopaths will plead for forgiveness to have their law enforcement job back, but they will always end up back to their abusive/punishing behavior. Law enforcement must be eliminated forever.)*(If you think about it, the entire police force system is a scam, They criminalize anything you do with made up laws, fine you as an extortion or you go to jail, then get that money as pay. It's a classic racketeering scam. Don't buy into it, and nobody realizes it because it's backed up by their own government, which is also a scam through forced taxation.)

Absolute Law: Everyone involved with Law enforcement (Police, FBI, Judges, prosecutors, security, etc.) of they do not resign, will be deported 4f, or lastly Eternal Banishment if they refuse. *(Eternal Banishment is like an execution to everyone, but they are not killed, as they are sent so far away, they can never come back. Because they are all entirely corrupt, with rampant theft, rape, rule, murder, and harassment of everyone, especially the poor and transgendered. We are not punishing them, but exterminating genocidal maniacs that are hell bent on destroying the entire universe. We are doing it to save ourselves. Earth humans created this sadistic disease called police, and it is our responsibility to eradicate and keep it from spreading to the universe.)*(I'm very sorry to all those cops who believe they are doing good, but this must be done.)

The 7C Constitution (Version 4.0)

(We believe in accountability and justice for police brutality and ending racial profiling and targeting of communities of color and Indigenous peoples. Women of color and Indigenous women are killed in police custody at greater rates, and are more likely to be sexually assaulted by police, and women with disabilities are disproportionately likely to experience use of force at the hands of police, and sexual assault in general. We also call for an immediate end to arming police with the military grade weapons and military tactics that are wreaking havoc on communities of color and sovereign tribal lands. No woman or mother should have to fear that her loved ones will be harmed at the hands of those sworn to protect. - #WomensMarch, See also 4c.)

(Physical Violence - Perpetrated by the State - Sandra Bland, Michael Brown, Rekia Boyd, Eric Garner, Walter Scott, Freddie Gray, Jessica Hernandez, Tamir Rice, Jonathan Ferrell, Oscar Grant, Antonio Zambrano-Montes, Samuel DuBose and Anastacio Hernandez-Rojas. We know their names. Each of them died unarmed at the hands of police officers or in police custody. The chants are growing louder. People are angry and they have a right to be angry. We should not fool ourselves into thinking that this violence only affects those whose names have appeared on TV or in the newspaper: African-Americans are twice as likely to be arrested and almost four times as likely to experience the use of force during encounters with the police. African-American and Latinos comprise well over half of all prisoners, even though African-Americans and Latinos make up approximately one quarter of the total US population.

Physical Violence - Perpetrated by Extremists - We are far from eradicating racism in this country. Today in America, if you are black, you can be killed for getting a pack of Skittles during a basketball game. Or murdered in your church while you are praying. This violence fills us with outrage, disgust and a deep, deep sadness. These hateful acts of violence amount to acts of terror. They are perpetrated by extremists who want to intimidate and terrorize black, brown and indigenous people in this country. - #OurRevolution)

(Local governments that rely on tickets and fines to pay bills can become dependent on implicit quotas for law enforcement. When policing is a source of revenue tied to the financial sustainability of agencies, officers are pressured to meet internal goals which can lead to unnecessary or unlawful traffic stops and citations which disproportionately affect people of color. Implicit quota systems promote racial stereotyping and breed distrust between officers and communities of color. - #OurRevolution, See also 4t)

4c) ALL FORMS OF PUNISHMENT ARE ABOLISHED FOREVER. No one or group has the right to do anything that places any

The 7C Constitution (Version 4.0)

judgment, violates, or prohibits the free will, or inflict and/or coerce their will onto, or causing anyone to feel harm, upon another, their relatives, or group for any reason whatsoever, or in a projective manner. If anyone says they are harmed, or will be harmed, feels unpleasantness, inconvenienced, at a loss, or hardship, or produce undesirable consequences, then the inflicted actions must cease and be reversed. No specific violations will be defined, and are entirely up to the one violated. Once defined, a violator must alleviate the problem.

All negative inflictions can never be used in any rights, laws, guidelines, or to solve problems or projections, with no exceptions. *(Passive merciful measures must be used to solve problems.)*

The only time a group must be stopped is when an outcome is undesirable for the majority against their will. *(Like the power elites enslaving the destitute.)*

(But remember, some people may desire upon themselves, what appears to be a negative outcome to others, therefore all situations cannot be defined as good or bad, and no one has the right to determine what a crime may be. Many people enjoy and consent to being masochistic, so let them be, until they've had enough. It's unjust to judge what another desires, and then determine their outcome. Thus, we all have a right not to be judged [without consequences like punishment]. It would be more desirable, or just, to place psychopath/sociopaths/narcissists with like minds together and away from those unlike them, and unjust to place sociopaths at all, within compassionate people. Therefore, as long as they were with like minded people, and didn't bother or invade anyone, it would have been better to just leave Sodom and Gomorrah alone, because they were all happy being who they were, even if they were judgmental and negative. [Actually, if you read the details closely, Sodom and Gomorrah were exactly the same elite republican misogynistic pedophiles of today, but not authoritarian for world domination as they are now.] No one has the right to exterminate another, except when they exterminate or commit genocide upon others.)

This incomplete list of traditional barbaric examples of what most everyone hates being done upon themselves, but not always, thus, do NOT create situations of, nor do the following:

Judge, prosecute, persecute, police, interrogate, jeopardize (*as in to be put on trial in court*), punish, torture, execute, lynch, jail, detain, confine, isolate, internment, stock, arrest, penalize, punitive treatment, institutionalize, interrogate, confess, prove one's innocence, force guilt, abduct/kidnap, extort, enslave, fine, sue, peonage, shame, silence, damage, avenge, evict, frame, entrap, drug, permit, misogyny, misandry, bigotry, homophobia, separate, profiling, "broken windows policy" (punishing for stepping out of line for any slights), hate promotion, incapacitate, assault, punch, bitch slap, whip, spank, paddle (corporal punishment), hazing,

No one can proclaim "Ignorance of the law is no excuse," then dole out punishment without mercy, when they break those unknown laws (*That's not justice, it's entrapment!*), or punishing those incapable of achieving something beyond their abilities or differences (*That's pure insanity*), and all forms of punishment (*blatantly, is a barbaric philosophy, no matter what reason*), or creating criminality (like making drugs illegal) or entrapment within society for the ultimate goal of profiteering or exploitation, like the jail system for slave labor or security systems and forces,...

(All of these things are barbaric, in their face, as a philosophy, and not one of these things has provably solved any problems, but in reality every one of them has promoted more problems, because they are only intended to promote fear, so one elite group can achieve power over others.)

(Upon writing this list, I forgot to understand that, 'Who am I, nor anyone else, in determining what is good or bad for all, even if these things are horrid. For everyone is different, and it's all about real free will, and the lessons they give.' Don't burden yourselves. People like to be judges, but very few like their outcomes. We all have a right not to be judged. Vindictive traditions must cease. If you do get caught up in this corruption, it will happen until you learn to change away from the retribution system.)

(Instead of saying, "You've been raped. Now we must jail the perpetrators.", we can say, "You've been raped. What did you learn? What was it like? How can you live with it? Etc. Can we try experiencing it?", and that is the reality of life when you live and die, because you unconsciously chose it without knowing it. It's not about forgiveness, but what growth can be achieved by experiencing it. Forget the negative list above, and grow in its experience. Don't miss the point, these are all horrible things and should not be done, but for the experience of understanding the destructiveness of negativity, and replacing it with the

The 7C Constitution (Version 4.0)

constructiveness of positivity and respect. Rape is an illusion. Every violation mentioned above is rape, because it violates everyone within the atmosphere of fear, and fear is an illusion. Otherwise, why would one person enjoy having the same thing done to them over and over again, while another feels violated for having the same exact act being done to them?

There are a large number of people who are complaining about not doing something about sexual assault. For comparison with my own experiences, my father tried to cut my penis off when I was 12. This is worse than rape. Sure I was crying and screaming for him to stop, but the assault lasted for about 10 minutes. But I got over it, and I carried on with my life. I never think about it, but rarely. No real damage was done, but the experience strengthens you. I can name several occasions where someone did something bad to me. Many left permanent major noticeable scars for the rest of my life, but I survived and got over them, despite the ridicule, and I carried on stronger and better, knowing not to do things like that to harm anyone. I accepted and adapted to my differences, and I'm proud of my badges. Many things in this constitution are the result of my abusers, and this will make everyone's life better in the end.)

(The police have made people an accessory to a crime if you harbor a fugitive, or not snitching on people you know, thus not letting people practice the virtue of mercy, [which is the action of love,] and force vengeance instead. Co- user laws are horribly unjust, where they penalize you by taking your vehicle if a passenger possesses illegal drugs, or jail you for having someone die of a drug overdose in your house. Prosecution by being ignorant of another's illegal behavior, is wrong. Nothing is illegal, because we never consented to what some authority group says.)

(We will never end the crime until we stop criminalizing everyone. Retribution has failed, and we need to look for other methods to solve problems instead of through fear instigation. Police and judges are nothing more than a solution looking for problems, and actually cause more problems than they're worth. We don't need them, and must eliminate the entire law enforcement philosophy, and use a rights encouragement philosophy like the 7C System instead. Cops are a Cancer On the People, a Crushing Of Personal Sovereignty, they Criminalize Our Philosophical Sanctity, and are Continuous Overlords of Punishment. Police originated from the Slave Patrols or militia of the 1800's, and it never ended. As the authoritarian system progresses, the people will begin suffering from Post Traumatic Stress Syndrome/Disorder, because we will never know when we will be harassed, terrorized, or executed from these monster devils that criminalize everyone. Compare the evidence of video to police testimony of every shooting, and they always show compulsive lying in every one. These are extra-judicial executions. They have a habit of compulsively beating everyone, despite the propaganda stating that cops are good.)

The 7C Constitution (Version 4.0)

(Criminals have discovered that if they become a cop, they are completely immune from any prosecution or accountability for their crimes to commit rape, theft, beatings, and murder. There is no oversight whatsoever, and they even protect each other from their crimes against humanity. Cops are criminals, literally on steroids, to brute their way into absolute power and authoritarian rule. This must end.)

Absolute Law: (duplicate of 4b) Police are forever abolished, fired, and if refuse to comply, will be deported 4f, or lastly Eternal Banishment if they refuse, as stated in 4b. *(This is not for punishment, but survival of humanity.)*

(On the other hand, say you're poor enough to not pay anything, you made a California stop at a stop sign, and you were fined (or punished) the 10th time, or you failed an emissions test [punishing the driver for being trapped into using a defective pollution causing vehicle], or couldn't afford insurance; anything enough to have your drivers license taken away. This will harm a string of other industries, you no longer drive a car, which uses no gas (not necessarily bad), no more insurance, no more tolls, no more car washes, no more entertainment, no more far away jobs, no more vacations, no more shopping, no more ad infinitum, etc. Think of all the people that lose potential income because the punishment system lets a cop get greedy with illegally given implicit ticket quotas, and arrest quotas. You did nothing wrong, but the system punishes unavoidable situations and being at the wrong place at the wrong time, without forgiveness, thus destroys the economy, and hurts everyone in the end. Even if somebody did do something wrong, how does punishment fix the problems, EVER!? A 3400 year old insanity. By dwelling on and punishing the wrongdoing of others, you are creating a burden not only onto the others, but burdening yourself too, housing them in jail and other externalities.)

(Police, fire, trains, and EMTs, are also the cause of most noise pollution with their deafening sirens, horns, and helicopters, especially in poor areas where they are not creating noise. Meanwhile, industries are the creators of most noise making equipment, while police do nothing about it. Here again, police don't work to help anyone, while punishing the poor.)

(Sure, we are all brought up in the 3400 year tradition of punishing wrongdoers to make others fearful from doing wrong. But, here's how you eliminate fear. Immerse yourself into your greatest fears, and you will transform yourself into a fearless human without apprehension and all the other problems of fear. This automatically puts the kibosh on the effectiveness of punishment. The regressives would have you believe the most extreme torturous punishment is the most effective. Not anymore. And it never was. As a matter of fact, masochistic thrill seekers will actually find the most extreme and painful punishment, and get pleasure from it.

The 7C Constitution (Version 4.0)

Drug addicts never stop stealing, because their addiction is expensive. Murders never think about execution as a penalty, because they are way too passionately immersed in the immediate resolution of their own problems or reputation. Fear is beyond them, and killing is OK in their mindset. So the only practical resolution is to deport them far away. Execution is statistically proven not to work.)

(Eye-witness testimony is highly unreliable, especially because many people can't remember faces or situations with any accuracy whatsoever, albeit, from poor vision or bad facial recognition skills. Personally, I have a bad time remembering names and faces, especially dark faces because the dark skin hides their features. I also have bad vision, and also learned not to stare at people, because it's intimidating to them with my soul piercing psychic stare, because I'm God, and that freaks everyone out, and learned to hide it when I was young by not looking at anyone. Nothing witnessed can be reliable because of all various countless reasons.)

(There is now a new major problem with eye-witness testimony, and that is the "Mandela Effect". Where large groups of people remember things differently than the others, either because of different timelines merging or some other unusual dimensional phenomena. We can no longer judge or convict anyone based on anyone's testimony, because now everyone will remember facts from alternative realities, but apply them as if there were only one reality. Now we can see extreme injustice and unfairness in any judicial system. It doesn't work. Even video recorded media can't be used, because it also changes or records one or the other timeline, not including video tampering so easily produced today. It's no longer proof that an event occurred in one parallel timeline to another. As a matter of fact, evidence shows both timelines have been recorded and show different pictures from each timeline, we're finding it all over the internet. It's not Photoshop, because people have actual memories too. The "Mandela Paradox" nullifies the entire judicial system, because this phenomena is real.)

(Why is it that whenever there is a medical or fire situation, the police always have to show up, when they have nothing to do with it, and have no training in EMT or firefighting. I know, they do traffic control, but I often see them interfering and obstructing the emergency handling to the detriment of the situation, for whatever imagined paranoid reason. In short, cops get in the way too much of the time, and they're loaded to the brim with fire arms and bullet clips like they are ready for war. Seriously!?! Something is wrong with that. We don't need them as much as advertised.)

(We believe it is our moral imperative to dismantle the gender and racial inequities within the criminal justice system. The rate of imprisonment has grown faster for women than men, increasing by 700% since 1980, and the majority of women in prison have a child under the age of 18. Incarcerated women also face a high rate of violence and

The 7C Constitution (Version 4.0)

sexual assault. We are committed to ensuring access to gender-responsive programming and dedicated healthcare including substance abuse treatment, mental and maternal health services for women in prison. We believe in the promise of restorative justice and alternatives to incarceration. We are also committed to disrupting the school-to-prison pipeline that prioritizes incarceration over education by systematically funneling our children—particularly children of color, queer and trans youth, foster care children, and girls—into the justice system. - #WomensMarch, See also 4d.)

(End For-Profit Detention. We must fight to end federal, state and municipal contracts with for-profit private prisons within two years. Termination of these contracts will eliminate the incentive for the private prison industry to support punitive, over-inclusive laws that lead to the detention of 34,000 immigrants on any given day. In addition, we must push for Congress to enact the Justice is Not for Sale Act, which would reinstate a federal parole program that will include immigrants. - #OurRevolution)

(Require police departments to adopt policies to ensure fairer interactions with transgender people, especially transgender women of color who are often targeted by police unfairly, and institute training programs to promote compliance with fair policies. - #OurRevolution)

(Millions of lives have been destroyed because people are in jail for nonviolent crimes. For decades, we have been engaged in a failed “War on Drugs” with racially-biased mandatory minimums that punish people of color unfairly.

It is an obscenity that we stigmatize so many young Americans with a criminal record for smoking marijuana, but not one major Wall Street executive has been prosecuted for causing the near collapse of our entire economy. This must change.

In many cities all over our country, the incentives for policing are upside down. Departments are bringing in substantial sums of revenue by seizing the personal property of people who are suspected of criminal involvement. So-called civil asset forfeiture laws allow police to take property from people even before they are charged with a crime, much less convicted of one. Even worse, the system works in a way that makes it very difficult and expensive for an innocent person to get his or her property back. We must end programs that actually reward officials for seizing assets without a criminal conviction or other lawful mandate. Departments and officers should not profit off of such seizures. - #OurRevolution)

4d) Only a confrontation and acknowledgment of a violation of 4b and 4c, may occur to inform a violator and resolve the problem. Recurrent violations may be dealt with by mediation to resolve disputes. No one can proclaim anything if no harm was done, nor projection, nor hearsay.

The 7C Constitution (Version 4.0)

See 4aw.

Mediation: Both parties must achieve temperance and peace. Failed negotiations may include: The separation of the parties, equitable replacement, peaceful makeup where both parties win, etc. If parties cannot decide, the one with more wealth or authority, loses by default.

4e) For the full protection of 7C citizens, Wingmakers, or abridging anyone's 7C Rights, residing throughout the universe, time and dimension. The following will be rewarded a permanent vacation using methods listed in 4f, will be given to anyone in the universe, all authoritarian/ capitalist/ fascist/ feudalistic/ oligarchic types, all universe/ world/ government/ business/ religious/ news-media officials, all militia/ military/ intelligence/ police types, or anyone using lethal force; who have been found doing anything listed in 4b, 4c, 7a & 7b.

4f) For Offender Vacation (Pertaining to those who willingly admit to offenses or dissent. Exceptions are to those who are under duress, refuters, remorseful, accidental, coerced, or help fix the problem.), without any part of The 7 Concepts being violated towards them, Mandatory, Merciful, non-punishing, and nonlethal permanent vacation. The offender's family is free to go with them. Vacation methods are "Need to Know", and decided by the offender's choice (*Offenders will determine their own sentence. See 4aw.*):

If they are wanton, willingly and maliciously damaging people's lives, they will be Eternally Banished, or automatically dimensionally shifted out of our existence, or through Montauk/Love Technology, giving exile to extremely distant space, time, dimensions, alternate time-lines, planets accepting such people of like mind, or designated reserves, so they never return. (*Just acting in their maliciously deviant hurtful behavior because of their state of mind, is enough to shift them out of our 5D Earth dimension.*) If they cannot decide, they will be sent to a time and place that best fits their temperament and demeanor. If these methods cannot be achieved, deportation into exile will be given. (*This is the most humane method to deal with them. Offenders don't feel they are doing wrong, therefore make their own place to be free, and all will be happy, like 3z.*) (*Even though many feel these measures seem unrealistic, but they actually exist today. **The dimensional shifting is occurring now with 3D, 4D and 5D separation of people, based on fear and love, respectively.** Many 3D paranoid people want protection from deported murderers, but will never believe in alternatives from archaic traditional execution or prison. People murder because they believe in the tradition of punishment, power, control over others, and the sheer anger over another destroying one's life, erroneously thinking murder will fix the problem. Harmonious things you can do is, eternal separation from them, work your problems out, but never kill. Authoritarian power mongers can only be separated away. **And if you send them to a place that they like better, then they will never want***

The 7C Constitution (Version 4.0)

to come back. It's as good as execution, but you never killed them. *Note: Some people may develop psychic skills to teleport others, like banishment very far away, or to other dimensions. Many aliens can do this.)* **Death penalties (execution) and punishment is forever abolished, and explained in 4ai.**

Exceptions: If the offender/accuser reverses the claims, or resolves the issue, as in 4d. *(Everyone deserves a chance to fix the problem.)*

(Reduce Border Deaths. *We must fight to reduce the unacceptable and inhumane number of deaths on the border. One practice that has no place in a humane immigration system is the use of remote deportations. Dumping someone in an unfamiliar location can be lethal as the State Department has recognized that parts of Mexico are run by “organized criminal groups.” - #OurRevolution)*

4g) *See 3e for non-violent criminals.* All violent criminals will be determined if they are obsolete or curable, and only then will they be pardoned. All prisoners who were kept in solitary confinement, are heroes against the authority system, and will be rewarded gracefully and handsomely.

(We must end the over-incarceration of nonviolent young Americans who do not pose a serious threat to our society. It is an international embarrassment that we have more people locked up in jail than any other country on earth – more than even the Communist totalitarian state of China. That has got to end. - #OurRevolution)

4h) Sociopaths/Narcissists/Psychopaths/Punishers *(those who get pleasure by doing wrong, regressive)* will be found, confirmed, and separated away in their communities. Those destructive to society and absolutely cannot be turned from their disharmonious ways, must be vacated using 4f. *(Universal Truth: If a disharmonious entity continues controlling/violating a society to their total destruction, such an entity will eventually completely self-annihilate. It's the law of the Cosmos. See the result of the oligarchy of monopolies or authoritarians.*

Some individuals like to make life hell for others, and that's why have have to get rid of them.)

4i) While the entire prison population is pardoned or vacated, all incarceration and jail facilities will be destroyed worldwide. *(Free Ross Ulbrect, and over 10,000,000 other innocent prisoners from the barbaric failed punishment system, most of whom are there for political reasons.)*

4j) Vigilante justice must be done in a way to benefit the public.

4k) If any group decides to create anything to produce world genocide or world oppression, that entire group must be eradicated instantly with Eternal Banishment 4f, BUT NOT EXECUTED. This includes the mandatory permanent vacation (not execution) of anyone supporting the American right-wing philosophy. (AKA, Conservatives [regressives], elitist Republicans, Koch Cato Libertarians [not left-Libertarians],

The 7C Constitution (Version 4.0)

selfishness, *Aynn Rand*, ALEC, Neo-Liberals, Neo-Conservatives, Tea-Party, Fascists, Corporatists, Nazis, dictatorships, Nationalists, Authoritarians, supremacists, Alt-Right, KKK, fundamentalists, etc.). *(This should be clearly posted for all to see.)*

Since these Elite Republicans (sociopaths/narcissists) always lie, cheat, steal and kill to win, then eventually destroy society, they will automatically be banned and exiled from 7C society. ***(You need to eliminate all of them from your world; friends, family, coworkers, media, etc. They will not change, there is no hope for them. Run away. Waste no time! Find real 5D people. You get into 5D Earth by banishing all negativity from your existence. See 7o.)*** *(The elite Republicans have constantly cheated and rigged elections in every conceivable way to win, therefore we are kicking them all out, and giving them their own territory on 3D Earth, of purely Right Wing people to let them have their way, separate from everyone else, as in 4n. They are all exiled from 5D Earth)*

(Big Money in Politics - #OurRevolution)

4l) All members of any group or business worldwide, making laws, imposing judgment, police or military forces upon any 7C Citizen will be instantly vacated. All U.S. Right-Wing politicians and people, as in 4k, will be vacated, and their associated philosophy, including that defined herewith, *(like 4e)*, be eliminated and warned never to return, **OR BE INSTANTLY DEPORTED 4F, if they return.** The rights of sanctuary cities or centers is absolute, and shall never be violated. *(This should be clearly posted for all to see.)*

4m) Nobody can be punished for not paying child support while broke. See 2mo. *(This is obsolete in the 7C system.)*

4n) All American Right Wing people are rewarded for free, (dated from 2000) all the land below 80 meters elevation, to be strictly marked off, while all other people are prohibited within this territory.

(Big Money in Politics - #OurRevolution)

4o) All legislators will be forced to live continuously those laws they create upon others, *(Like drug testing will be applied to those governors every minute, because they said food stamp recipients need drug testing. Or, any punishment laws made will be given to those legislators who created those punishment laws for eternity. "Those who leadeth into captivity, shall go into captivity." Rev.13:10).*

4p) #AnimalRights All animals shall be protected from experimentation, dissection, etc.

4q) By majority petition, those jobs or people causing grief upon others will be banned from existence or deported, respectively. *(Such as landlords, police, bullies, abusive coaches, CEO's, etc.) (We will get rid of those jobs forever.)* *(Grief, includes those who are combative, dishonest, destructive, vengeful, actively disruptive, bossy, etc.)*

4r) Paranoid behavior and policies of any thing or anyone is banned.

The 7C Constitution (Version 4.0)

And, no one has the right to accuse anyone of unfounded or fabricated offensive claims, or projection, and then act upon those claims as if the offense was real. *(Such fear based behaviors automatically bans you from 5D Earth.)*

4s) ALL POLICE, LAW FORCES, JUDGES, PROSECUTORS, INQUISITION, AUTHORITY, OR MEMBERS OF ANY SYSTEM THAT CLAIMS WRONG DOING OF OTHERS, OR TOUCHES OTHERS FOR ANY REASON, IS ABOLISHED, and will be actively vacated, if claiming to be such people. *(Because these systems always create predatory behavior without mercy. All authoritative or violent philosophies must be eliminated, if we are to progress as a society. The institutionalization of this behavior is what is holding us back.)*

(If anyone finds distasteful art or expression, you must take it with a stiff upper lip. It's everyone's freedom to make anything they like.)

4t) CIVIL FINES, TRAFFIC FINES & PUNISHMENTS, AND VEHICLE INSURANCE OR FEES ARE ABOLISHED.

(Local governments that rely on tickets and fines to pay bills can become dependent on implicit quotas for law enforcement. When policing is a source of revenue tied to the financial sustainability of agencies, officers are pressured to meet internal goals which can lead to unnecessary or unlawful traffic stops and citations which disproportionately affect people of color. Implicit quota systems promote racial stereotyping and breed distrust between officers and communities of color. - #OurRevolution)

4u) (Suggestive, and Not enforceable) Protected Yellow Zones are used to warn against critical areas within Red Zones. Penetrated Yellow Zones violators will be let off with a warning, and will be told “Can we help you? You appear lost. You are about to enter a dangerous area.” Penetrated Red Zone violators will be consensus vacated using 4f, except for authorized personnel. (Effective, until we develop protective force fields and such.) *(The closest thing we have like this is the red fire hydrants, and yellow parking prohibition zone. We need to restructure things like this into methods of being physically impossible to blockage. Punishing or parking fines are an ineffective and cruel entrapment. Be sensible and practical in city design.)*

4v) All forms of security checking, stop & frisking, being pulled over, customs checking, tolls, etc. are abolished. (e.g. TSA, Customs, Border Patrol, check points, etc.) Asking identification is abolished, as stated in 3a.

(Close Loopholes that Allow Racial Profiling by Federal Authorities. We will fight to end racial profiling. Immigrants should never face deportation as a result of racial or ethnic profiling. We will work to revise the U.S. Department of Justice’s Guidance Regarding the Use of Race by Federal Law Enforcement Agencies. Under the current guidance, the

The 7C Constitution (Version 4.0)

Department of Justice carved out significant exceptions for federal law enforcement agencies like the FBI, TSA and Customs and Border Protection (CBP) to profile racial, religious, and other minorities at or in the vicinity of the border. Furthermore, the Guidance does not apply to most state and local law enforcement agencies. - #OurRevolution)

(Border Security and Militarization - #OurRevolution, all of this is ended, and obsolete)

4w) Any external system that fines or penalizes any 7C citizen or organization is automatically counter-fined or penalized double, or banished from existence.

4x) No one can penalize others based on the offenses of their ancestry, kin, race, gender, identity, profile, or any characteristic imaginable.

4y) *(See 4c.)* To anyone threatening to, or committing the act of, repossession, taking, stealing, removing, discarding, relocating, demanding, scamming, etc., the possessions of another person, for any reason, without permission, or in coercion, or deception (Theft from stores is not included, because necessities to life should be free.): They must return or restore all their stolen or discarded property to their rightful owners, and they will be held in front of victims of theft and be told all the complete stories of how the victims lives were ruined and affected by the thief's actions. As they are 99% likely to be drug addicts, they will also get full treatment defined in 2ab. Throwing out another's property without permission is like theft, but carelessness of another's property, thus a suitable replacement must be returned, and all will be forgiven. If they compulsively violate (serial theft) 4y a 2nd time, they will be deported 4f. *(As a victim of burglary and theft over 30 times, I am very pissed at these people. What gives them the right to think they can take anything not belonging to them, that they never paid for, or worked on, without permission, or, even demanding that or deceiving someone to forfeit their hard earned property? I could go on a very long time with hundreds of stories. In the future, most people will become psychic, and find everyone who stole their possessions, so theft will be a thing of the past. Right now, we have GPS tracking, which should never be used to track people for retribution.)*

(The solution to theft is to make everything free, and eliminate the need for money. Making drugs free and legal automatically drops theft down to 1%. But the elites created this scenario so they could make lots of money off of artificial drug crime and the security infrastructure it imbues. Scarcity is artificial and imagined, because there is enough of everything to go around.)

(In the bad economy, the theft is getting so bad we can't keep up with locking and tying everything down, because the thieves figure out something new to steal all the time. Bicycles, tools, car tires and batteries, air conditioners, pets, jewelry, important papers, anything that isn't bolted

The 7C Constitution (Version 4.0)

down hard or barricaded. If it fetches a price, they will steal it. Even most malware hackers are drug addicts. It costs us such a huge amount of money we don't have, and we can't replace anything any more. We shouldn't have to live like this keeping a mind on locking all our things we need for our survival. Cameras, alarms and guns don't work either; they do it anyway. You can't have unknown people or kids in your house when acquaintances come over, because they could be scoping your house to burglarize it later. Most of them are between the age of 8 and 30 on up. Some people call you up, or a close friend or neighbor, to see if you're home, then they burglarize your house when your not there. Every opportunity a thief has, they will take it, and ruin your life. And if you stay vigilant, you might kill a loved one with a gun, or you can't quite tell who is doing the theft, because they know your watching. This whole life is a load of bullshit frustration for everyone, when people like this exist. They don't care, doing this for decades as a career, because they almost never get caught, and they get good at it, all because of drug addictions. There was a time when we never locked anything up, at least not so severely, because before, drug addiction problems didn't exist.)

(By experience, when you accuse someone of theft, if they want to fight you, or vigorously try fighting their way out of it with lots of ridiculous excuses and reasons, that usually means they did it, because guilty people talk too much. But if they act confused or shocked and don't know the details, they probably didn't. A thief knows directly what you are talking about, because it's the only thing on their mind. If someone stole from you, they avoid you for the next few days, and may become offensive to you after, if they're not your friend, even if you didn't accuse them. Or if they are your friend, become too friendly if you don't suspect them, so to make it easier to scope your stuff to steal more.

If they're drug addicted, and try to wedge their way into your life, watch out, because they will steal from you soon. The more skeptical you are to psychic abilities, the more vulnerable you are to trusting them, and not trusting your gut feeling. Always trust bad vibes you get about someone. If something they do looks awkward or puts you in a strange position, watch out. These drug addicts can get very dangerous if they don't get their way, and can risk you life, because the only thing they're thinking about is themselves only and getting off their hangover to their next fix, like a sociopath. Being a drug addict is such a fucked up life, you have no car, job, or money, leach off of everyone, you steal from and ruin people's lives, then you get high and zombied out walking in the middle of street not knowing what the fuck you are doing. You have no life.

Drug addicts, corporate thieves[CEOs], and police [who personally steal more than everyone else combined, and enforce the anti-drug policies, which indirectly cause all theft], are going to have a serious problem kicking their drug/money habit and career theft, because they are

The 7C Constitution (Version 4.0)

the most damaging to society. If they are always looking for opportunities to steal, they will not be entering 5D Earth, and will be deported to 3D or other equally appropriate place. Once a thief, always a thief. It never ends.)

4z) #MGTOw Anyone accusing another of sexual assault, child molestation or any other imaginary offenses, using baseless hearsay, automatically gets deported 4f. Evidence can never be used against the accused, because it's too easy to plant it. *(Because many people like to manipulate others using this, and give innocent people a criminal record based on pure hearsay or planted evidence. This is also how the Sex Offender Registry destroys LGBTQI rights.)* Statutory rape is abolished, if it's consensual *(after puberty)*. *(Many women like to use rape accusation as a tool of manipulation over men, and cause men total destruction of their lives. Rape will no longer be criminal, and never be punished. Please use 2ac for real rapists. The girls who cried wolf can't be believed. #MGTOw)* *(To those proclaiming statutory rape, consider this: Mary was pregnant with Jesus at the age of 12, and the age of consent in the day was 13. God is now a pedophile, committing statutory rape. Proof - 'The Life of Jesus', by AMORC)*

4aa) If anyone makes a mistake, give them a hug, and fix the problem.

4ab) If an issue has no consequences, forgive and forget it. *(Many people blow things up in an enormous rage over aesthetics, imaginary slights, resolved or nothing issues, words, gestures, facial expressions, or could have happened scenarios, or anything in Concept 1. This makes no sense. The punishment or retribution philosophy causes this behavior. This is a problem especially for gangs and persecuted peoples, where they fight immediately over the most ridiculous things, and many people get hurt or killed for it. Many people don't give up fighting and surround themselves in hate and fear of retribution based on total imaginary delusions. They can't differentiate social norms or unfamiliar behavior and threats, so become offended at anything. This is very dangerous, stupid and barbaric. They even become threatened by high intelligence, and have a narcissistic reaction. Many in black or oppressed communities have this issue and come to territorial, prideful, or racist reactions. They protect their bubble world. It could be instinctual fear of the unknown, they can't get over other people's different personalities.)*

(Many people like to bark out orders to get things of no importance, or no immediacy done, as if to feel better or powerful. They want us to drop everything for their immediate whims. We can try again and again to get them to stop, but insist on proceeding with this addiction to be willfully ignorant, belligerent and boss others around. Everyone has a right to their own free will, and never force their will upon others. These authoritarian people will be banned from 5D Earth, as they are completely incompatible to it. If you are on the receiving end of this, ban them from your world.

The 7C Constitution (Version 4.0)

There's no hope for them.)

4ac) All adolescents are required to take gender relationship classes, to prevent sexual assaults, false accusations, and other violations over others. Or else, see 4q for real serial rapists, and 4z for women who falsely accuse rape. *(Other than the over 80% of women being greedy gold diggers, [which is the major determination of women deciding to date men.] Women need to tell men what they are doing wrong, in everything. When a guy asks a woman, what is he doing wrong, don't run away, or say "If you don't know, I ain't telling you." [Actually, what men are doing wrong is they are not wealthy.] That's women being abusive to men. #MGTOW)*

4ad) **PROVISIONAL: IF YOU DISHONOR OR DON'T LET US HAVE OUR 7 CONCEPTS SYSTEM**, Every involved politician, judge, prosecutor, police and authority who has ever arrested, convicted or confined anyone, unless they mercifully reverse every case they have condemned; will be **BANISHED 4F**. *(Given how police treat us or blacks, we must eradicate every cop. They have plans to commit genocide on all black people, who cops believe are animals to be put down.)*

(We have had the Montauk device since 1980, that can automatically remove anyone from anywhere, while seeing anything in space and time. We can remove the cops, or the person about to be executed by the cops.)

4ae) Nobody can be labeled a criminal or any variation thereof. All registries used to marginalize anyone for any reason is abolished.

4af) Everyone has a right to live and end their life as spectacularly as possible, and even as they wished upon others. *(Because those trolls created that reality upon others, in their threats or wishes, so will be rewarded what they gave.)*

4ag) Nobody shall have punishment, retribution, or discrimination against them for anything having to do with abortion, self-mutilation, self-abuse, masturbation, or any personal body physicality. Those that seek retribution for all these items shall be deported.

4ah) Since the Elite Republicans prosecute and execute every Democratic for any slights, while they get free reign to do the most heinous acts and atrocities of slaughter, and abridging of everyone not Republican, of all rights and freedom, they will receive the gift of high dimensional frequency (annihilation), See 4aj.

(Big Money in Politics - #OurRevolution)

4ai) If you execute or murder someone, you are murdering another aspect of yourself. Because every person, animal, plant or alien is one of you, just reincarnated. The same with how you treat one another.

4aj) If you can fully grasp all the aspects defined in Concept 4, and all the other concepts, you may be able to achieve a Mercy Shift to 5D Earth. All the habits that society and people have done, and programmed to do, against others for imagined wrongs, was wrong in itself. Blame,

The 7C Constitution (Version 4.0)

punishment, retribution, attacking, judging, provoking fear, hatred, etc., are replaced with the Mercy Shift. If you have achieved The Mercy Shift, you can enter 4D and 5D Earth. And Joy to you, because the 3D Earth will be destroyed in 2023. The Mercy Shift Vibration is the Consciousness Shift, or Dimensional Shift we've all wondered about. And there are more to come. Those that wish to achieve 4D Consciousness must live above 100 meters elevation by 2023.

(There is a dimensional science that many people are beginning to understand, called Earth shift or split. The frequency of the Earth is rising from 7Hz to about 44KHz. You can hear it in your tinnitus. This will cause the Earth and it's people to raise in dimensional levels from 3D to 5D, and some even up to 7D, but only virtuous people with no fear or hatred can go, and negative people will be stuck in 3D. Also, the spirit of the Earth will depart from 3D, and cause a complete self-destruction of all life in 3D, but the 4D and 5D Earth will be alive. This will happen about 2023. Then, Antarctica's ice will fall into the ocean rapidly and raise the sea level over 80 meters, causing billions of people to parish, while the resulting tumult will destroy the rest. It's too late to change this. Also the higher Earth frequency will also cause the negative people to be stuck in 3D, because they couldn't shift into 4D and 5D, so they can't escape death either. They are forced to lie in their own bed of pollution, misery, and chaos. The 5D Earth is new, but similar, with the feeling of love, which is also 5D, and no pollution, danger, negativity or hate. People experiencing Mandela Effects or the Mercy Shift have been shifting into 4D and 5D before the August 12, 2018 window, the Earth's 5 year biorhythm date. The other possible window is in 2023. It was stated the ascension event to be on July 31, for an entire month, which falls in line perfectly. If you can completely eliminate your fear and hatred, as in the annotation of 4c, you can shift into 5D Earth. You will have appeared to die to those in 4D and below, but will be very much alive, and can still communicate to them through channel mediums. Everyone will disappear from your life existence to you when you ascend. You will be a Morontia being described in The Urantia Papers.)

(With this, there will be a 3D cleansing of people with genetic traits or mentality that lack the ability to think for themselves, that are easily programmed and brainwashed by the propaganda; Fox News watchers, white supremacists, authoritarians, fear mongers, hate mongers, war mongers, bellicose, punishers, gun owners, money hungry, fundamentalists, evangelists, territorialists, etc. These are primitive humans preordained on negativity for self-destruction. As there is no compatibility for them in the 5D Earth, being stuck in 3D Earth with fear. Their vibration is too low and negative to survive the elated harmonious vibration of love and light that is 5D. The negatives have had their day in the sun, and their last chance to take over the world, but have failed.)

The 7C Constitution (Version 4.0)

(Combating Climate Change to Save the Planet - #OurRevolution)

(You're too late. No comprehensive solution will work, nor change anything.)

4ak) If any group attacks in hate or gives you a hard time, give them love and kindness in return, as in 4a. *(How can anyone have the heart to fight someone beneficial to themselves? Those that cause trouble for others are being troubled themselves, as their reality is in conflict, so give them ease from their hardship, and all will be at peace.)*

(Some people are so loaded with the disease of hate that they can't help but to punish everyone. If they loved, they would forgive and understand. Hatred is an addiction, like a drug, and can't be stopped. The only way to stop them is to eliminate them from existence, because hatred is a dimensional vibration of 3D Earth, just like love is a dimensional vibration of 5D Earth.

Many things feed into hatred, like greed, which is another addiction, creating unfairness, and depravity. The solution is altruism, abolishing money, and to love, but also banishing those who have that huge list of negativity.

Hateful people tend to punish to extremes, and never for correction, but for spite, and resentment that never ends, because they are genetically incapable of stopping the sociopathic or psychopathic gene. The 3D cleansing is the only way to mercifully eliminate it, because they are incomplete and defective.)

4al) #LGBTQ The acceptance and inclusion of every type of gender diverse people in every race, religion, career, patronage, hospitality, family, health, medical, education, and all aspects of society as equals, without murder, rape, violence, violation, or trafficking committed against them, in all aspects of life. *(Exclusion is a violence of lack.)*

(We are committed to embracing and making space for trans brothers and sisters to participate and lead. We are committed to being self-reflexive and doing the work required to dismantle cis-gender privilege and uplift Black trans folk, especially Black trans women who continue to be disproportionately impacted by trans-antagonistic violence. - #BlackLivesMatter)

(Women have the right to live full and healthy lives, free of all forms of violence against our bodies. One in three women have been victims of some form of physical violence by an intimate partner within their lifetime; and one in five women have been raped. Further, each year, thousands of women and girls, particularly Black, Indigenous and transgender women and girls, are kidnapped, trafficked, or murdered. We honor the lives of those women who were taken before their time and we affirm that we work for a day when all forms of violence against women are eliminated. - #WomensMarch, See also 4c.)

(Advance policies to ensure students can attend school without fear of

The 7C Constitution (Version 4.0)

bullying, and work to reduce suicides. - #OurRevolution)

4am) #LGBTQ (Violation of Solitude and Seclusion. Castle Doctrine.) All people have the right to supreme dignity, privacy, and freedom from personal violation of their personal habitat, regardless of their being homeless, race, gender, sexual identity, religion, disability, etc., such as for bathroom duties, infant care, family care, personal care, dressing, self-pleasuring, cleanliness, etc., and to be free from home invasion. **Victims have the right to incapacitate, or use deadly force for protection.** *(Being a homeless TG woman in transition, many people feel I have no right to personal privacy or solitude, because they rudely and repeatedly open my door to my tiny trailer, without permission, even after I keep telling them not too. Given how many people attack trans people, this can be very dangerous when intolerant people find out.*

And many people just don't get it that I like to be alone in solitude, but they keep insisting on bothering me like a needy child. I'd rather do my own personal stuff alone, so leave me alone. I have personal things important to me, to take care of alone, and not all the BS you think I should be doing for you. Why should I drop everything instantly for you? I've had enough with toxic dependents, and I'm taking care of myself like I should have before, when too much got left undone. Some people are very pestering like that, and don't understand how invasive they are.)

(We believe Gender Justice is Racial Justice is Economic Justice. We must create a society in which all women—including Black women, Indigenous women, poor women, immigrant women, disabled women, Muslim women, lesbian, queer and trans women—are free and able to care for and nurture themselves and their families, however they are formed, in safe and healthy environments free from structural impediments. - #WomensMarch, See also 2h.)

4an) Penalizing for NOT getting or paying for insurance, services requirements, etc., is abolished. *(It's inhumane to punish people who can't afford it, or who have abandoned the money system, especially when it's a lobbyist endorsed scam like insurance.)*

4ao) Cruelty towards any youth breeds a cruel contagion in society, but giving kindness breeds compassion. *(Even the sight of cruel behavior will cause them to duplicate and cause bad habits or sociopathy/psychopathy that extends to war and killing, including malicious hackers making malware. Once exposed we can't get the trauma out of their minds, and they don't even have any idea why they act maliciously. This is why we need to eliminate violent acts, media, sports, games, etc., from existence.)*

4ap) The complete abolition of penalty systems, for every reason whatsoever. *(Corporations and governments have used this to coerce people into behavior that's against their free will, and to scam them into corporations ripping them off. e.g. The electric company charging extra for people who have solar systems, or the internet charges for access.)*

The 7C Constitution (Version 4.0)

4aq) Whenever you see something that's obviously sick and twisted, try to inform the makers of it what it is that is wrong, and the problems it causes. Never punish for it. *(Sure, it can be offensive, but unless they know, they will never understand how it's affecting people in a negative way. Maybe they will reconsider it, maybe not, but let them decide and grow. Maybe it's important, or maybe you'll learn from it, but nothing is ever really wrong. But it will eventually fade out of existence, away from your reality. Desirable things stay, while undesirable things disappear. You create your reality. By you telling them it's wrong, is banishing it from your existence, because you created it to materialize in your reality. Unfortunately, you have people that hide from their malevolence, in which you can only voice it publicly to others who do it, but then maybe you can change others with the same twisted mindset. But the message will get out and help the world.)*

4ar) Virginity is not enforced or required before marriage, nor will anyone be punished, banished, or murdered for any personal consensual sexual activities, exposure, or public lewdness.

4as) Everyone shall teach black people, and especially all children *(of every race)*, that fighting is the wrong solution to fixing any problems or meeting people. See 4ao. *(Why is it that the first thing black children do when they meet a stranger is to pick a fight with them, or forcefully beg them for possessions? Is it a wonder that everyone looks at them as criminals. I never see any other race of people do this. I have to teach them this is not how society functions, and never gets you anywhere in life. "You must work for it, to get what you want." They hate me saying that. Or, "People don't fight each other in normal society. That's not how adults function." There is something completely wrong with the black people's upbringing where they always resort to extremely violent drama toward everything they don't like, or to get their way. And we have to sit there watching them scream their head off [usually black women] to get their way, even when they are wrong. Hysterical solutions always backfire, and makes them always look bad, because it's not civilized. Then the children watch adults do this despicable behavior, only to imitate this to every stranger they meet. Many don't outgrow this until their 20's. It's like a tradition for them, just because violence is in their distant past from slavery times, they never ended it, and it begins with the children witnessing adults' bad behavior. Stop it! Especially, opening that "Can of WupAss". Wrong! Punishment never worked, because it is a fear based oppression system.*

At the same mindset, white supremacists teach their children how to hate black people without valid reasoning. Once ingrained into their mind, they can never escape, and thus we get to 4at, next.)

4at) All law enforcement and KKK (Ku Klux Klan) members must be abolished, exterminated, and eradicated, with Eternal Banishment to the

The 7C Constitution (Version 4.0)

ends of the universe.

It is required that all law enforcement officers be Eternally Banished, and equipment worldwide be destroyed on site, when trespassing on 7C property, or violating 7C citizens.

*(American cops, against black people, are fighting a war that never ended, beginning from the times of slavery, from the militias, who are the original slave enforcement, who evolved into cops today. Fact: 90% of KKK members are also cops, because few cops are ever held accountable for their murders. American cops are trained to believe that all black, poor, and mentally ill people are a threat to their lives, therefore their policy is to kill them if they make any move, and say "They were in fear of their lives". This is nothing more than slaughter of innocent people. Black people have been taught that every object they have looks like a weapon to the authorities, and so will be killed for it. The problem is cops are always confrontational, [because they created that reality in their mind], assaulting everyone, targeting black people the most, therefore it never ends well. People will be running away, then cops kill them in the back, plant a gun on them, and call them a threat. The military does this too. Judges believe their testimony without question, despite video evidence to the contrary. They have escalated to "Comply or Die", and are now militarized to the extreme. As of 2017, their death toll has exceeded 1192/year, and shoot at over 3500/yr, and 55% are at black people. **Police are officially declared a genocidal group that must be eradicated through Eternal Banishment 4f.** This psychopathic killing behavior must end.)*

(The KKK and white supremacists have yet to give us an acceptable reason for why they feel the need to kill all the black people. Because they were freed from slavery? Really! Then you also use the 13th amendment of the US Constitution to re-indoctrinate them into slavery again through the prison system. This is so wrong, and is so horrible, this is also why prisons are now eradicated. You lose!)

4au) The addictable drug supplies and hormones must be made safe, free, nonpunishable, and controlled from unknown sources, and policies for 2ab must be encouraged to reduce dependency. *(Because of 4at, blacks, destitute, and other progressive peoples, have been indoctrinated with heavy drug abuse. The elites are in control of the drug supply, therefore are now tainting the supply with lethal substances that cause the deaths of people the elites, KKK Racists and supremacists want exterminated. This plan of theirs has cause the deaths of countless 1000's, or millions of innocent people, while they profit off of the misery of the people harmed from their drug infection chaos. They have now been targeting transgender people with extermination too, because they are becoming spiritually awakened.)*

4av) Women, men and children have a right to protect themselves from

The 7C Constitution (Version 4.0)

all people sexually assaulting them, but no one will be punished for it. *(As a trans woman, I'm forced to still wear a beard, before I can pass as a woman, and I never get assaulted or harassed, but women have a problem wearing beards, or hairy legs. The problem with this double standard is most men enjoy being sexually harassed by women, so it's OK for women to do it, but most women don't enjoy being sexually harassed by men, so men get in trouble for it. This is the same issue explained in 4c, but cultural indoctrination makes this contradiction.)*

4aw) Proving one's guilt or innocence, or being put in jeopardy, or trial by court is abolished. Only self-admittance to a problem is allowed, and once shown a conflict does exist, a reasonable negotiation through mediation will occur to resolve the issue. If a violation of society is admitted to have occurred, solutions negotiated with the violator must be peaceful so violations will never occur again. The violator must only represent themselves, and are guaranteed a positive supportive council if desired. Prosecution is abolished. Actual working solutions for the best outcome must happen, but in the extreme, deportation through 4f, will be the last resort, without harm or depravity. See 4d. If possible, a new place of asylum or community, promoting the violators ideology may be given, as in 3z.

4ax) All accidents will be no fault. (Mistakes happen, and no one will be blamed.) Fixing causes will be alleviated through prevention ideas, and devices.

4ay) You will not be able to ascend into the 5D Earth, until you can eliminate fear from your mind. You must immerse yourself or visualize your greatest fears to eliminate them, and transform them into extreme pleasure. *(This can be anything, but usually for men, it's castration, and for women it's rape. I'm not saying to actually go through them, but visualize strongly as if it actually happened to you. But in the extreme, you can evolve to the point where things that were a fear, can actually become transformed into an extreme pleasure to do. A fear of heights could be transformed into a pilot, skydiving or mountain climbing. A fear of water or drowning, could become a scuba-diver or swimmer. A fear of speed could become a racecar driver. A fear of enclosed spaces could become a zentai or vacuum bed fetish. No matter, fear is transformed into joy or pleasure.*

And even though many people may think I'm twisted for being a transgender woman, having autogynophilia is an extreme pleasure for me, all my life. But things never happen quite how we hoped early on. Regardless, as my mind is set, I am completely transforming into a woman, as castration used to be a fear; I've transformed it into the ultimate pleasure living as a woman, being completely feminized and sculpted into a completely functional vulva, by women who enjoy doing it, who want me to feel ultra satisfied with the results and pleasure of being a

The 7C Constitution (Version 4.0)

woman in mind and body, with the most extreme sexual satisfaction. Most trans women are extremely glad they did it, being far happier than as a man. It's the same for trans men too. I doesn't matter if you can't comprehend this, but each of us is reincarnated into male or female in every life anyway. So every one of us changes gender all the time. The soul has no gender.

But the point is, fear is an imaginary 3D construct, and pleasure, joy and love of self is also an imaginary 5D construct. Immersion in either gets you engrossed in those dimensions, almost becoming trapped, but you can escape through transformation. 4D is a combination of fear and pleasure. We have yet to understand what the 7D construct is, but it is something beyond love, maybe based on sacred geometry but on an emotional level. It could be something psychic. I don't know yet, because we can't comprehend it. But it's best to wait and experience the fullness and growth of 5D Earth for the next millennium. We must evolve before we can advance to the next dimension. That is our mission.)

4az) You must accept and embrace the diversity of other people's differences, to ascend into 5D Earth. (Many who prejudice the unusual characteristics of others, like religious fanatics like to do, cannot ascend. Conformists are stuck in 3D constructs. They can't tolerate anything sexually different, offensive art, or anything of free expression unless it conforms to their narrow bubble world. How can you expect to ascend into 5D if you can't tolerate the diversity of 5D with hate. Hate is just like fear, but could be amplified into war, which doesn't exist in 5D.

The technology of 5D light must be used with care as you can't use it for destruction. The light is a consciousness of higher awareness and lighter density, and can't transmute into the negative density of 3D. 5D light is an energy source that we are transformed into, because we are all this light. The 5D light is a higher emotional construct and has no fear or hate. It's the same with 7D light. Everything is light, even 3D, but it appears dense and dark. Sound is light. Heat is light. Emotion is light. Consciousness is light. Your soul is light. But it is all just at different densities. You must release the lower density of negative 3D light to ascend into higher dimensions.

Everything is alive with light because you created it with your thoughts and emotion of light. It is all conscious because you imparted your consciousness into it. It knows you and is part of you. Every object is a real conscious being of light created by you, imbued with any purpose you chose. This is the key to the transformation or transmutation of everything, anywhere, any time. The light of supersensible consciousness allows you to see, do and transform everything. To control it with all the proper mental, emotional, and merged spirit body states, takes practice and meditation.

5D Earth has a uniquely different science and physics with it's own

The 7C Constitution (Version 4.0)

wisdom to handle all it is. You can't just plop right down into 5D from a 3D or 4D state of mind. You must transform yourself first or you could never use it or live in 5D universe.)

4ba) No one is to be punished or have any privileges removed or abridged for non payment of fines or penalties. All fines and penalties are forever abolished as in the 3rd Concept.

4bb) It is a Global Human Rights Crime against families seeking immigration status, to separate and kill family members of those seeking asylum, and those committing such action will be banished 4f, into 3D Earth.

4bc) Those condemning others for religious reasons, (Evangelists), will be 3D banished 4f, because they do not promote love and universal compassion, but only fear, hatred and intolerance of those condemned by their backwards evil teachings, promoting only the negativity of their mistaught Bible. Evangelists will NOT enter the Kingdom Of God (5D Earth), and be eternally banished from ever entering it. *(The Evangelist Bible will be expunged from existence in 5D Earth and banished from ever being taught again, because it is wholly evil as it worships punishment, war, death, violence, patriarchy, pain, and every other travesty upon the world. We shall never return to that evil inhumanity again.)*

4bd) If you trick people into conversion therapy (Anti-gay), away from LGBTQ people being their true selves, like evangelists like to do, you will not enter 5D Earth. *(We must love who we are inside, and become our inner truth towards our outside. It's OK to become the opposite gender, or to love others as the opposite gender.)*

4be) If you are a gamer, that is addicted to warlike simulations, you will not enter 5D Earth. *(Sure, you have a right to your elaborate gaming obsessions, but look at yourself, you are obsessed with violence and death, even though it's simulated. The same is true of police and real soldiers committing violence, violation and theft upon everyone, believing it's for a good cause, but never actually helping anyone.)*

5) Achievement of Harmony or Balance; or Prohibition of Subversion and Power Over Others (Humility) [Harmonize your reality to what exists.]{To be a loving god is to be humble.}

(To be the head of a business, scheme or religion, for the purpose of profit, exploitation, and limitation, is the ultimate sin, and those CEO's, exploiters and preachers will be rewarded eternal humiliation, loss, poverty, need and restriction. It is absolutely essential that we must eradicate the elites and elitism for the survival of the planet.)

(The elites, religions and businesses have created over 300,000 laws against everyone, except themselves, over the most ridiculous things just to maintain power and monopoly over us. Therefore, I eliminated all the

The 7C Constitution (Version 4.0)

laws and have given rights to everyone, as in positive rights, except those laws over elites.)

(Since the narcissist created the destitute people, then condemns the very same people for creating their hell on Earth, their reward will be Hell. They will continue to never consider they created their own reality, then suffer it out for eternity. This is the wheel of karma all people on Earth has been stuck on, and is why 3D Earth is ending in the final catastrophe to give them one last chance to realize they did it to themselves. They will be alive long enough to see all their beloved material possessions get destroyed by a dying Earth.

How could the poor create hell, when they have nothing, but became self-sufficient without money, and gave compassion to others and gave every loving altruistic trait of positivity. Their reward is 5D Earth, full of beauty, fantasy, and all things only possible in dreams.)

(Big Money in Politics - #OurRevolution)

5a) Absolute Law: NO ONE SHALL FORCE THEIR WILL UPON ANOTHER. No individual or group shall ever have any system, laws, standards, bills, rights, privileges, control, persuasion, suppression, prohibition, or reparation, made over another, regardless of race, gender, creed, age, lifestyle, mentality, or any characteristic or retro-action or context imaginable. **ESPECIALLY ANY BUSINESS, RELIGIOUS, GOVERNING, and SCIENTIFIC GROUPS!!!**

All laws based on any science, religions or status are outlawed. (e.g. The Biblical Old Testament, “Lord thy God“[The Mount Sinai Volcano God, Jehovah – Urantia Papers], is NOT Jesus, of the Prime Source. Biblical Old Testament items having to do with violence [having nothing to do with Jesus] should be banned, because it causes nothing but war and hate, instead of love. Even though there are some good things in it, many religious fanatics pick and choose the worst of it to justify their evil violence. Jesus: “Love another as I have loved you.”) (Every rule and law is made up so one religious or political dogma can have power over others, for personal gain. It's all Bullshit, so ignore them all. This applies the caste systems too.)

(We believe it is time for an all-inclusive Equal Rights Amendment to the U.S. Constitution. Most Americans believe the Constitution guarantees equal rights, but it does not. The 14th Amendment has been undermined by courts and cannot produce real equity on the basis of race and/or sex. And in a true democracy, each citizen's vote should count equally. All Americans deserve equality guarantees in the Constitution that cannot be taken away or disregarded, recognizing the reality that inequalities intersect, interconnect and overlap. - #WomensMarch)

(Veto any legislation that purports to “protect” religious liberty at the expense of others' rights. - #OurRevolution, See also 5b.)

5b) NO ONE SHALL VIOLATE THE FREE WILL OF

The 7C Constitution (Version 4.0)

ANOTHER. If there are multiple groups with differing points of view on a subject, one or the others view of that subject can NOT be made into law. All proposals must be transparent. An unanimous vote in the entire community, world or universe is the only way to pass a law, for the entire community, world or universe. No one can be excluded. All laws based on any religions or science are outlawed. *(This means NO laws can ever be created, forever. All other previous laws public and secret, are completely null and void, including anything with conditions of exempting itself unless its name is defined, like the "National Security Agency", or any exemption loophole imaginable, to ensure groups have no control over others in any manner whatsoever, and to protect anyone from being deceived. Nobody shall honor a law they never consented to. All laws are nothing more than imaginary beliefs, where the arrogant elites have overruled. Ignore them all.)*

5c) **ONLY POSITIVE GUIDELINES CAN BE CREATED.** A guideline, protection or regulation may be created to guarantee all groups have total freedom to choose without restricting others in any way. The only guidelines, protections or regulations that can be passed are those to retain, create, or guarantee more freedom, rights, support and equality, without prohibiting, polluting, forcefulness, excessive loudness, excluding, violating, coercing, or abridging, anyone or 7C rights.

5d) **ALL LAWS ARE ABOLISHED.** All laws/guidelines throughout all time and dimensions will never become absolute. A 50% Consensus Nullification may be used within any community to temporarily nullify any law, rule, protection, regulation or right in that community. All laws are belief systems, and you never have to consent or give in to anyone's laws. It is our law system against their law system, but only the laws of the universe ever wins. *(Many laws/guidelines may become archaic, are clearly nonsense, and may clearly be an obstacle in very desperate situations.)*

5e) **NO ORGANIZATIONS OF HIERARCHY** shall exist with more than three levels, or have no hierarchy at all. No ruler-ship of royalty or blood lines. No caste systems.

5f) **NO DIVISIONS OR PARTY STRUCTURES** shall ever exist within the government, especially based on opposing opinions towards others.

5g) The succession of power begins with **THE PEOPLE (and Wingmakers)** at the top, by consensus or petition, the councils, mercy enforcement, and then business officials always at the bottom. No one person or group can ever be in a position of authority or power over anyone for long periods of time, (mayor, governor, president, prime minister, king, etc.), or only until their personalized project completion.

5h) The brevity of any overall guideline, protection, regulation or right, must be 100 words or less, contain only one subject, only use native,

The 7C Constitution (Version 4.0)

clearly understandable language, be completely transparent, be all inclusionary to all groups, and go to the extreme of its possibilities, and be accredited to their original authors. *(Write as though every word is a revolution.)*

5i) **ALL LAND AND BUILDINGS ARE FREE TO ALL. TERRITORIALISM IS ABOLISHED.** No individuals, organizations or governments shall claim power or ownership over vast tracts or territories of land, sea or space, not directly used, or put to productive use. Abandoned (unused, vacant) regions or buildings are automatically forfeited in one year. If territories are claimed, the resources must benefit the residents equally. **LANDLORDS OR RENTING OWNERSHIP OF PROPERTY IS ABOLISHED.** Land can't be hoarded for grazing, but can be zoned as free use for grazing. Resource mining, distribution or transportation, must never damage or restrict the natural environment. Owning land for investment, or without beneficial productive use, is prohibited, (as all money is abolished, all land becomes free, and all deeds are null and void, and land tax is abolished.). *(It no longer matters if people claim to have worked for their land, because we see large lots with just weeds growing on them, or golf courses for the rich, while people are starving for food and housing. This is wasteful vanity and gluttonous wealth over the needs of the many.)*

5j) Governments or businesses can never represent anyone.

5k) All businesses are to be commonly or communally owned by all people as Co-Ops, and there can never be multi-person businesses, owned by boards, executives, or share holders. (Not applicable to single person businesses.)

5l) Businesses or organizations can never be declared person-hood.

5m) (This is intentionally meant to be offensive to several groups, with the addition of 5au.) **PATRIARCHY IS ABOLISHED.** Males who proclaim or practice superiority over others (Patriarchal/Narcissists), will be automatically rewarded with a full sex-change into extreme womanhood. If they do not accept this reward, they will also have the choice of deportation 4f. *(Once 4-6mg/day of estradiol is secretly given, the PONR is 6 months, and the full transformation will be addictively consensual without resistance, ending their anger. This practice is very critical, and will save the planet from extinction. If you object to this, take a look at what Cheatorini(Trump), McTurtle(McConnell), Putin, Bannon, Ailes, Martin, Humphrey, Limbaugh, Pence, etc., etc., did to you, then say you don't need this. They also all have an addiction to punishment. These are the only alternatives, otherwise, it is absolutely essential that we must eradicate the elites (narcissists) for the survival of the planet. We must poison any system that only male elites use without them knowing. We won't disclose how yet, but it will happen.)*(There is something very sick about these sociopathic war minded people, and every race in the universe

The 7C Constitution (Version 4.0)

that has them always dies. But, to those that can survive with them, the solution of womanhood is an easy way to fix it. Resistors will be a major problem for everyone, because they're infected and orgasmically addicted to power, murder, violence and bloodshed. Look at their version of pornography and video games with guns and war, it's sick, twisted and demented, but they normalize its extremeness, even sexualizing it with sexy women, equating murder with sex.)

(Just recently, I saw a young couple in the parking lot, and the guy kept pushing and taunting the girl over and over. I wanted to come back and tell the guy, "Who taught you is was OK to push around and abuse women like that?" Even though they were black, I've never actually seen this in other cultures, but obviously the wealthy culture makes sport of this in recent disclosures of late. Those obsessed with power, and patriarchy, seem to think it's OK, BUT IT IS NOT!)

5n) No one has the right to perform genital or sexual manipulation on children or adults without their individual consent. *(No circumcisions, castrations, gynecomastia, or inter-sex surgery.)*

(- #VaginaRising)

5o) Every invention must be applied or used upon its own inventors.

5p) Doctors must consume the drugs, or have the procedures applied to themselves first, in the same manner as they prescribed to their patients.

5q) No official of a business can ever be a member of the government.

5r) It is absolutely essential for the survival of the human race, that absolutely every sociopathic/psychopathic business (*especially*), be hunted down and exterminated, and all their stolen resources be returned or distributed to everyone equally. See 5ac. *(This is meant for the hording elites who have stolen and tricked us out of everything.)*

5s) All private multinational businesses will be actively exterminated.

5t) (Diplomatic Immunity) Everyone is immune from every law made in adjacent communities.

5u) (Diplomatic Immunity) Those people in locations of other systems of government who are refused the right to vote are automatically immune from that system's laws, enforced by the 7C Constitution.

5v) All products supplied to a monopolistic business are charged double.

5w) All symbols used to represent the 7 Concepts systems or Constitution, are abolished. See 6h.

5x) Nobody can represent any other person.

5y) Nobody shall make an oath to anything.

5z) Nobody will be forced to work in digital time, but natural time. *(Humans are the only ones in the universe to measure something that does not exist, and that is "time".)*

5aa) **SUPREMACIST ORGANIZATIONS ARE ABOLISHED**, as all are equal.

The 7C Constitution (Version 4.0)

5ab) Reality is allowed to be whatever you imagine it to be.

5ac) Those who have gained off of schemes, monopolies and overpriced extortion, leading to the ruin of others are also rewarded a permanent vacation 4f, and their scheme results will be reversed or alleviated. *(Like executives that got rich by exporting jobs to slave labor. Or stock markets, jails for profit while making laws to create inmates, foreclosures, oil and tobacco industries, or anything like 4b, 4c, 7a & 7b.)*

(Prevent Predatory Lending. We need to work toward requiring that all mortgage costs are clear, risks are visible, and nothing is buried in fine print, the CFBP makes sure consumers have the information they need to make good financial decisions. - #OurRevolution)

(Enact a tax on Wall Street speculators who caused millions of Americans to lose their jobs, homes, and life savings.- #OurRevolution)

(Americans pay, by far, the highest prices for prescription drugs in the entire world. When we talk about health care, we are talking about the need of the American people to be able to afford the medicine their health care providers prescribe. A life-saving drug does no good if the people who need it cannot afford that drug. - #OurRevolution, See also 2ar)

5ad) Anything that only benefits religions, elites, elitism or corporations is abolished. This includes advertising for, or against any legislation.

(Protect Homeowner Mortgage Interest Benefits. We need to support tax policies that promote home-ownership, and opposes any reform that would negatively impact middle and low-income homeowners. We need to close the second home and yacht loophole, as there is simply no compelling public interest in subsidizing second homes and yachts. We also need to expand homeowner mortgage interest benefits to the 19 million otherwise eligible homeowners who do not itemize their taxes. - #OurRevolution)

~~5ae) Those who threaten anyone with deportation for any reason, will automatically get themselves deported. (This is dysfunctional and doesn't solve anything.)~~

~~5af) Those who threaten anyone with anything, will have that threat applied to themselves. (This is dysfunctional and doesn't solve anything.)~~

5ag) **WORLD, NATIONAL, STATE, AND COUNTY/PARISH GOVERNMENTS THAT PROCLAIM RULER-SHIP OVER VAST TRACTS OF LAND, SEA, OR SPACE ARE ABOLISHED.** *(Law of the land, governments of this sort are gone.)*

5ah) (Ass-Hole) The Worldwide Asshole List, made of people, corporations, and groups, who will forever be ostracized, laughed at, tormented, banished and expunged by 4f, and given the same treatment as in 4af, but we must remember the horrible things they did, so we will never let them happen again. Each following member is by the people's vote.

The 7C Constitution (Version 4.0)

(The first member is, Donald John Trump, because he is the worst ASSHOLE tyrant of today, for terrorizing the entire world, and creating a system to rape, rule and rob the nations. The real matter is, the US has a leader suffering from last stage neurosyphilis, as with many dictators throughout history, which is also compounded by a political party obsessed with power, who refuses to remove them, or their authoritarian rule. The US system, even though it has an article to remove such people, doesn't have such a design to make sure authoritarianism never gets in power; nor does it have a design that gives the people, en mass, absolute power over the government fairly. Because once installed, they will never leave, and this will always be the end to such governments. The US government from the start was designed to be a dictatorship, without authentic representation, nor authentic democracy, but fake corruptible facsimiles from the very start.

One thing for sure, if you are a Trump supporter, you will be erased from existence, because it is your fate in 3D Earth.)

5ai) Groups of sovereign identity are free to congregate and celebrate themselves without disharmonious interruption, ostracism, opposition, etc., except for 5aa. *(We are committed to building a Black women affirming space free from sexism, misogyny, and male-centeredness. - #BlackLivesMatter)*

5aj) The equalization of family responsibilities between genders in public & private, work & home, without overburdening anyone, regardless of parental characteristics. *(We are committed to making our spaces family-friendly and enable parents to fully participate with their children. We are committed to dismantling the patriarchal practice that requires mothers to work "double shifts" that require them to mother in private even as they participate in justice work. - #BlackLivesMatter)*

5ak) The right to uphold the mannerisms and resources in personal Identity Exclusivity, without the bias of others, as in the 2nd Concept (The Right To All Necessities To Life Without Restrictions), in all of society, using the proportionate voting systems where possible for the fair equality, allocation, and distribution of all resources, to prevent the exclusion of all groups. Patriarchy, racism, castes, etc., is abolished.

(We believe in Gender Justice. We must have the power to control our bodies and be free from gender norms, expectations and stereotypes. We must free ourselves and our society from the institution of awarding power, agency and resources disproportionately to masculinity to the exclusion of others. -#WomensMarch, See also 5aa, 5ad)

5al) The native people have the right to nullify by consensus any projects that may harm or damage the existence and livelihood of any society or it's people.

(Expand Consultation: Examine the Executive Order 13175 "Consultation and Coordination with Indian Tribal Governments," to

The 7C Constitution (Version 4.0)

ensure that consultation means more than mere listening sessions. Moreover, all voices — tribal leadership and grassroots alike — must be heard. Expand the annual White House Tribal Nations Conference that brings tribal leaders, cabinet members and the White House together to find solutions to common problems. - #OurRevolution, See also 2bg)

5am) There comes a point where the 240 year old system, you hold so dear, becomes so toxic and cancerous that you must give it up for something better, even if your whole life is sacrificed into it, because you haven't realized you gave up your power to it. This moment, is your test of Humility, or will you die for nothing. This is The Humility Shift. DO NOT GIVE YOUR POWER AWAY to a system that gives you nothing in return. (*The U.S. Constitution has become the centerpiece for a cult*, where they don't realize how far they have been left behind the rest of the world, and has become a fascist corporate controlled noose around the necks of the American people, never reading it, but teaching it as the ultimate eternal system of freedom, but they're sick, deluded and spiritually dead.)

(What is so amazing is Americans have such an incredible amount of pride and patriotism for their country and way of living, but yet have exceeded every other nation in having the absolute worst of everything. The highest in poverty, homelessness, rape, crimes, corruption, pollution, military, killing, guns, racism, oligarchy, drug dependency, nuclear bombs, infrastructure improvement need, wealth disparity, corporate controlled media, police brutality, lack of compassion, and dozens more. These things are what makes Americans so proud, with their patriotic songs, wrapping themselves in their flag, and deluding themselves that they are the greatest. Feeling so good about yourself, being told you are happy, rich, and nothing can bring you down. And defending the most horrid and destitute way of life with the most deadly fighting spirit. Americans are so sickly insane and twisted, never seeing, the emperor has no clothes, because the plank in their eyes is too big to recognize the splinters are all on them. The Harlot, the Babylon, your tower is about to fall. How the mighty bless their own iniquity, and believe their eternity as fate, is always the greatest before their end.

Americans have very serious mental defects. If you wave someone down in a passing car for help, they run away, most of the time, because they are too afraid, or they're too selfish and can't have their lives interrupted. But in other countries they usually stop to help. Americans are the worst cowards ever, and that's not something to be proud of. All they care about is abusing chemical substances, thinking it will fix their problems, when it just makes their world more out of control, and that solution is insanity. They don't want to face this reality, that all of their lives are screwed up like that, but they remain proud of having that choice of putting their lives in a blender. They're all stupidly brainwashed, and refuse to change. This is why I can't see most of them ascending into 5D

The 7C Constitution (Version 4.0)

Earth.)

5an) Abolishing any group's desecration if offended, from those using their symbols or representations.

(Fight Racism: end the scourge of bias and discrimination against Native peoples. A good place to start is by eliminating offensive school and sports mascots that reflect outdated stereotypes and perpetuate racism against Native Americans. - #OurRevolution)

5ao) Those who are sexually balanced can live comfortably and fully in all the characteristics and benefits of both male and female roles, androgynous. This is Godhood, androgyny.

5ap) (Repeat of the Preamble) The Seven Concepts is a voluntary common law/rights system, ennobling 7C citizens with enforceable diplomatic immunity against all oppressors, empires, and violators of human rights, SUPERSEDING THE ENTIRE UNIVERSE. All world trade agreements that undermine human rights or 7C Rights are forever abolished. Territorialism is abolished.

(Note: TPP will be repealed with the end of the U.S. and many other governments, which will happen before 2023.)

(TPP, U.S. sovereignty will be undermined by giving corporations the right to challenge our laws before international tribunals. Buy America laws could come to an end.

The TPP creates a special dispute resolution process that allows corporations to challenge any domestic laws that could adversely impact their "expected future profits."

These challenges would be heard before UN and World Bank tribunals which could require taxpayer compensation to corporations.

The TPP has no expiration date, making it virtually impossible to repeal.

Once TPP is agreed to, it has no sunset date and could only be altered by a consensus of all of the countries that agreed to it. Other countries, like China, could be allowed to join in the future. For example, Canada and Mexico joined TPP negotiations in 2012 and Japan joined last year. - #OurRevolution)

5aq) The 7C Constitution must be continuously questioned and selectively rejected, for the best possible outcome to all. See 5d.

5ar) Businesses or groups, who have murdered their competition, or prosecute any citizens, will have their executives eternally banished 4f, and their assets converted into co-ops. *(There are two known instances where greedy corporations have murdered to keep their monopolies, big oil, and drug companies. Oil trusts have killed dozens of people with free energy devices and confiscated the equipment so no one could know how it worked. And, drug companies have killed dozens of new age healers with methods of cures that really do work, just to keep their extremely high priced and toxic drugs prominent in our culture.)*

The 7C Constitution (Version 4.0)

5as) Religious people have no right to claim power, control, or ownership of another's soul/spirit self, function or practice, sex organs, sexual function, reproduction, genetics, gender relationship, any other factor of sexuality or pleasure, education, marriage, child rearing, language, life or death function, or any other factors based on religious grounds. They may practice anything that brings others to a communication with the soul, spirit world, prime source, collective subconsciousness, and all beings of other dimensions, and the development of all mystical practices and abilities.

5at) Businesses found to be in collusion to corner or manipulate the market for dominance or control of the masses, will be disbanded and Co-Oped, into the hands of the people. The executives will be eternally banished 4f. *(One known instance is the water, petroleum, and fracking industries together, where the toxic waste from petroleum refining was injected in to the secret mix of slurry used in the hydraulic fracking. This polluted the ground water throughout the areas, and forced the residence to buy water from a controlled monopolized source, so they can markup the price and force poor people into their enslavement, or into drinking the toxic water to their death. See the movies Gasland, and Gasland 2.)*

5au) (This is related to 5m, and is intentionally meant to be offensive to the white patriarchy and related groups.) We shall celebrate and emphasize the extremeness of womanhood of every race, and everything related, with the extreme openness of the beautiful flower of our pussies, with the eggs and estrogen of our ovaries, with our creational forces of our womb in pregnancy, the breasts of nurturing milk, and the extreme beauty, sexiness, and pleasure of our female bodies from head to toe, in mind, body and spirit, and the exquisite estrogen enrichment coursing through every cell of our body, mind, emotion, and thought. And the celebration of transgender women to emulate and become this amazing beauty of creation of the universe, with the perspective of those who appreciate the extreme ecstatic richness of womanhood the most. Womanhood shall be practiced to extremes of grandiosity. This celebration shall go unhindered without defamation, discrimination, or retribution. The is to counteract the extreme imbalance and destruction by the patriarchy for the last several thousand years.

5av) Any advertising and media programs that promotes fear based constructs, must be refrained from or abolished. *(Listening to so called 'Progressive' radio, I could immediately see most of the ads where about shilling things based on fabricated fear, or poisons that most don't realize cause diseases or will kill you, just to get your money. You can't ascend into the higher worlds with these constructs. It seems like all these talk shows are selling fear as well, so 'OFF' they go. They will never change no matter how hard you try. You must remove them from your reality, and there comes a point where you can't ever go back, because of the obvious*

The 7C Constitution (Version 4.0)

negativity.)

5aw) All **drugging or tranquilizing of those with conformity differences** is abolished. *(The psychiatric industry and authoritarians have made, questioning their authority, into a mental illness when it is not. People with so called ADHD and ODD, are defiantly trying to change the system to prevent oppression from conformists. This is how we prevent stagnation, and is actually a survival and adaptation requirement. Without it we would become slaves to authoritarians. The authoritarians are the ones with the mental disorder and deficiency. Defiance and critical thinking is an upgrade to self-sufficiency and Godhood.)*

5ax) Your time is the only important time there is. If there is someone who keeps trying to make you do something for them all the time (usually for an extortional reason, or like they're a child, or over-using your friendship), it's time to cut them off, or confront them and come to an understanding, that they don't own you. You always own yourself, and your time, your effort, because you have personal things to take care of, as a love to self. Never let anyone walk all over you for their selfish reasons. These people need to learn how to respect others, and ask you kindly for assistance when available. Most things must never be done instantly for toxic dependents. *(I've had many people try every manner possible to manipulate me into have them do something for them. If I didn't do it, they would do everything in retaliation, like destroy my valuables, steal from me, extort from me, hate me, talk shit behind me, make things difficult for me, call me lazy, you name it. Toxic people like that will do everything imaginable against you to get their way. They always try to use me for my skills. Either make them learn how to do what they ask for themselves, or become independent, or cut them off if it's toxic. It's time for them to have a few lessons that they can't usurp others. Take a stand against them. They are babies that need to grow up. Especially those like landlords or debtees, that think they have your life over on you. These people will not make it in 5D Earth.)*

5ay) (Castle Doctrine) See also 5i. So called "landlording" is abolished, and these landlord have no right to invade the privacy of residences on the property the landlord tends. The tenants are not slaves or entitlements for the landlord to force any obligations over. *(Even though I own this planet, that doesn't give me the right to claim ownership in people, or forcing them to do my bidding. That would make me an arrogant asshole. Nevertheless, some people feel they have a right to do this to others living on their claimed land. Listen assholes: I granted you permission to borrow my land and planet, because I created you, and I can take you out any time I want, for I am the Lord God, Jesus incarnate, Prime Source, and Collective Subconscious, your creator, you idiot. I created 5D Earth, and 3D Earth, and the rest of this universe, and I will soon take out 3D Earth from existence, as it's time is now ended, and its usefulness is complete.)*

The 7C Constitution (Version 4.0)

5a) Stop bossing people around. (*We all know want chores need to get done without the constant reminder. We will get to it in our own personal time, not the bossy one's. Instead, ask others if they would like to volunteer, but never force obligations.*)

5ba) Be patient with everything. (*Things will have a way of rebelling when you are too aggressive with them, and force you to take a break, sometimes literally if you don't, to make sure you stop. Everything is more conscious and aware than you think, and can fight back if you don't harmonize with them.*)

6) Transparency, Information Preservation; and Prohibition of Secrecy (Understanding) [Realize your reality as already existing.] {To be a loving god is to teach truth.}

(*To be a liar for personal gain, or a lying or retributive intelligence agent is the ultimate sin, as they shock, torture, lie, and cheat people and nations to achieve power over all. Their reward will be ostracism, eternal confusion, mental loss and senility.*)

(*There is also a secret military industrial corporate complex, out of jurisdiction and control of any and all governments, or an actual breakaway society or cabal, hoarding advanced alien technology, and imposing deadly secrecy upon its members. They have become a menace to the world and local universe in violating all others through secret technologies to control, manipulate, and exterminate the masses against their free will. This is the disease that must be eradicated. This was the original purpose for The 6th Concept.*)

6a) No informational (non-personal) secrecy shall ever exist anywhere, unconditionally, nor shall any information of any kind be altered, falsified, hidden, removed, or encrypted in any way, in order to prevent any overt or covert organization, person or thing from preventing any 7C rights or freedom whatsoever, and to prevent the hindering of the investigation of unusual phenomena, like extraterrestrials or paranormal. Everyone has the right to unimpeded and uncensored access to ALL (non-personal) information everywhere, forever, unconditionally. **This applies especially to all governments, businesses, farms, military, intelligence or anything subversive in nature (like the MIB).**

6b) All information and artifacts must be preserved, uncensored, and protected in a redundant form, to guarantee no information is lost, modified or corrupted. (*Otherwise, all things are knowable through super-sensible consciousness levels, or QHHT, somnambulistic hypnosis communicating with our unified subconsciousness, or god source. But even these may be limited.*)

(*The following information sources are banned until corrected, due to easy non-verifiable political manipulation making them invalid: All school books from Texas; All references on Wikipedia; All Fox News media; All*

The 7C Constitution (Version 4.0)

corporate owned news media.)

(The problem with YouTube, Facebook, Twitter, and many other social medias is that they made everyone believe they were being monitored, tracked, and censored. If they understand how effective intelligence gathering works, the last thing you want to do is anything that disturbs the integrity of your data. And meddling in people's freedom to speak is always going to piss someone off, and cause the shootings, bombings, and other terrorist actions, in retaliations. Data manipulation and propaganda also has the same effect, and people will find out they were lied to, and retaliate, always taking it as an attack on their freedoms. This is why you can't lie about anything.)

6c) **ANY SEARCHING, INVASION, SAMPLING, OR TRACKING MUST NEVER OCCUR** with the intentions of persecution or violation of any of The 7 Concepts.

6d) #RightToBeForgotten Everyone has the right to have any personal information removed or forgotten from all public and private, sources and databases, without retribution. All police and criminal records are to be expunged, for judgment prevention. All registry lists are abolished.

6e) Anyone maliciously destroying, falsifying, extorting value, or stealing from another's personalized data, data devices, critical equipment, or irreplaceable artifacts, will be vacated using 4f. (This includes religious fanatics destroying mystical literature, artifacts and possessions.)

6f) All information in governments and businesses must be shared with the public, including products, people, wage, accidents, consumption, waste, inventions, intellectual property, assets, and all things of concern that may affect the public, without censorship.

6g) If the mainstream establishment refuses to accept evidence of extraterrestrials, make your own establishment and denounce the skeptics.

6h) There shall be no symbol or flag representing the 7C Constitution or system, but clear or transparent.

6i) All the informational arms of all world intelligence agencies shall be transferred to the world news media and public access/use without censorship. All media, documents, videos, materials, technology, etc., that doesn't violate the 7C Constitution, shall be declassified and transferred to public use.

6j) **EVERYONE HAS AN ABSOLUTE RIGHT TO PRIVACY** of all personal information, data, memories, seclusion, solitude, personal space, and anything that may cause judgment, prosecution, persecution, or anything that violates the Right to Mercy or anyone's 7C Rights.

6k) All the great libraries, museums and scientific facilities will be moved over 600 meters elevation by 2023. (Library of Congress, Vatican Library, Smithsonian, NASA, etc.)

6l) The children shall commune with nature daily, to learn all the things that it has to teach. *(This is part of the Finland education system, which is*

The 7C Constitution (Version 4.0)

the highest in the world.)

6m) If you can teach just one person today, you did a good day's work, because you just saved them. Be proud of yourself and them that you changed their lives for the better.

6n) We shall have continuous “Fairs of Wears” to celebrate and show all our achievements we have done to improve society.

6o) Those who hide their innermost truths will be consumed to death by them. Be Free! *(Think of all the people this happened to. Carl Sagan, Robin Williams, etc.)*

6p) **We all have a right to an anonymous identity**, changing at will, without a name, number, mark, or attachments, in any number of identities of gender, race, appearance, or any characteristic, while having full access to all things provided by the 7C system, regardless of all our possessions.

6q) Instead of gloating about your superior skills, generously donate your time to helping others refine theirs. Then, we can all be better. *(Even those who gloat like this will always need improvement somewhere.)*

6r) We shall maintain a Quality Of Life Index (QLI) where we calculate how many hours of work over time must we do to maintain a desired standard of living. *(We have been misguided by fake indicators like, Unemployment Rate, Dow Jones Average, Consumer Price Index, Gross Domestic Product, Consumer Confidence Indicator, etc. But they never told us the truth about how hard we had to work to live. Instead, we were lied to with faulty fabricated numbers, that gave the appearance of a healthy economy, while the elites robed us of our labor and life, as they got fat and wealthy. If we show an actual QLI indicator for the US capitalist system, it would show a downward failure for the last 50 years, showing we need to work well over 60 hours a week per capita in 2018, to maintain the same standard of living in 1968, where we only needed to work about 6 hours a week per capita. Our work burden has been spiraling upward at impossible to maintain limits, while our standard of living has gone severely down into extreme poverty. This is a downright atrocious abuse of our dignity and humanity, to force us to work such extremely long hours just to survive. Greedy profiteering capitalism has failed and must be exposed as the lie that it is. We have all been stiffed by the elites with an extremely high cost of living, while our wages have become slave levels, or next to nothing.)*

6s) Intellectualism is not a threat, and should be respected and desired. *(Many lesser people or societies are confronted and become intimidated by those who are far more superior, and even threatened by it. Once they were the king of everything, then an alien came. What's the king's reaction? Humility, or threat. The key of 'innocence like a child' opens doors to greatness, but the pride of arrogance slams the door shut. How many times do we see this, scientists, gang leaders, dictators, priests, generals, anybody in authority. And they become stupid and complacent*

The 7C Constitution (Version 4.0)

towards stagnation, thwarting the potential for great advancement and wisdom. I have had many times of acting my normal self, and many mentally challenged individuals of self-imposed high status, consider me a threat when they recognize my intellect, and attack me believing I'm intentionally assaulting them, reacting in a multitude of shut down displays. That's exploding narcissism. I am who I am, and I can't turn stupid, because you can't handle it. High intellect can't be turned off at your convenience. Just open your mind and learn. Unfortunately, some never grow out of it, like Republicans.)

6t) We shall develop a telepathic internet between 4D and 5D realities, that can't be controlled or manipulated by the 3D elites or constructs. Using channeling or supersensible consciousness, described in 2aj, 4D people can access those who have ascended to 5D Earth. *(You will not need any devices but a conscious shifting into supersensible state. You can also listen to the thoughts in your head, dreams, and hallucinations, to new ideas that come through. Learn not to pass them off as fantasy, because they are real communications to those on other planes of existence, times, and dimensions. 3D people will always see these communications as evil, delusional or fake, when they are really 'US', our friends who are between lives.)*

6u) We shall have [artist's asylums](#), where free venues and resources shall exist to make literally anything.

6v) Abolish marketing dishonesty, and product degradation.

(I could name thousands of examples of how consumers are ripped off by misleading and deceptive advertising and labeling. One example is Solar Panels. I bought two brands. One stated 80 Watts, but when I tested it, it read 4.4Amps @ ~13.5Volts, or about 59 Watts. Another stated 15 Watts, but I tested it at 11 Watts. Both are marketed about 36% higher than I actually got. No matter how hard I tried to angle and set the conditions, I couldn't get any more power. This is fraudulent.

An another example, do you ever remember when the spaghetti sauce, had 32oz., then 30, then 28, then 26, then 24, etc. How many products do you see that trend their amounts lower, only to deceive the customer about how much they are getting, yet maintain the same price? This is deceptive quantity valuing. When they did this with tampons, women were enraged by the inconvenience, and protested.

Still other problems of marketing degradation is formula changes, like soft drinks, changing sugar to high fructose corn syrup, which isn't actually corn syrup, and as actually harmful, because it is proven to cause diabetes, setting in approximately 5 year after continuous consumption. Or how about cigarettes, milk products, diesel exhaust, meat additives, pesticides, etc, all considered to be safe, and marketed that way, only latter to be found to cause the deaths of literally billions.)

6w) Secrecy of discovery and invention formulas and details are

The 7C Constitution (Version 4.0)

abolished, for the rapid advancement of all things. *(Many believe that capitalist motives advance progressive ideas, but actually those seeking money, try to keep the details of novel ideas from entering the world view, and restrict them from others from enjoying those benefits, by patenting exclusive usage rights. Not only that, many can't get to market because of the difficulty of achieving functional capitalism, thus most inventions have proven to be a failure, not because they didn't work, but because of the lack of money. I've seen many awesomely, great inventions fail, because of greed for capital, then we are forced to settle for second rate stuff. For example, Starlite, Fractal Image Compression, Dennis Lee's inventions, electric cars, etc, all of which had long delayed introduction or failures for widespread public use.)*

6x) All non-disclosure agreements are completely nullified without recourse. *(This is to expose all the corruption, product defects, poisons, and malicious intent created by business, so we can reverse the damage they have done to everything and everyone.)*

6y) The Veil Of Forgetfulness is now lifted as we ascend into 5D Earth, so we can now remember all our past and future lives, as we are now Supersensible Conscious.

7) Pacifism; or Prohibition of Offensiveness (Love)

**(This is our Religion) [Surrender makes reality creation effortless.]
{To be a loving god is to accept grace.}**

(To be a killer of any kind is the ultimate sin, and their reward will be repetitive tortuous deaths, until their soul completely annihilates itself.)

(We recognize that to achieve any of the goals outlined within this statement, we must work together to end war and live in peace with our sisters and brothers around the world. Ending war means a cessation to the direct and indirect aggression caused by the war economy and the concentration of power in the hands of a wealthy elite who use political, social, and economic systems to safeguard and expand their power. - #WomensMarch, See also 2ae, 7a, 7f, 7h)

7a) **NO WEAPONS**, machines, animals, lifeforms, schemes, institutions, or organizations used for killing, violence, harming, attacking, destructing, controlling, sterilizing, separating or manipulating others, shall ever exist or be created; nor shall any components be made for, or used specifically in the above listed machinations as such. Defenses may only be used to retain harmony with The Seven Concepts and Cosmos. *(We will completely eliminate all weapons manufactures and sellers from existence. The gun deaths are well over 30,000/year just in America, and this is ridiculous. Guns and weaponry are a lethal form of institutionalized punishment that never worked. It has brought misery and pain to countless victims for eternity.)*

(Close Guantanamo Bay, rein in the National Security Agency, abolish

the use of torture, and remember what truly makes America exceptional: our values. - #OurRevolution)

7b) **No militia, military, police, intelligence, or organization with offensive capabilities shall ever exist.** Only passive measures shall be allowed to exist for protection with completely offenseless capabilities. *(Because all offensive organizations eventually end up perpetuating hell.)* Defense methods are “need to know”, and are nonlethal and non-harmful.

7c) The People have the right to use Mercy Forces, for Concept 3d protection, from those threatening or violating 7C Citizens, Wingmakers, and all disenfranchised people, will be given aid, safety or pulled from distress using appropriate means. ***(This is your get out of jail free card, because we all have a Right to Mercy.)***

7d) The People have the right to form a Mercy Force, to immediately incapacitate and vacate from the planet using 4f, all members of groups imposing Martial Law; publicly declaring authority and power over, any act of halting, oppression or killing, of 7C citizens. If any Mercy Force member kills anyone, they will be eternally banished 4F. Executions are forever abolished.

7e) Resistant lethal weapon owners will have mandatory deportation to outside of 7C zones, without harm. *(I'm not exactly saying abolish guns just yet, but we need them to get rid of all the authority figures first. BUT THIS WILL CHANGE, AND ALL GUNS WILL BE ABOLISHED. We are not exterminating authorities through the fear of punishment as they do, but to eradicate the disease of violence and fear they spread. But many paranoids will resist. If you are a gun owner, you will not ascend to 5D. The only valid reasons gun owners fear is tyrannical governments and property/self protection. But guns haven't stopped tyrannical corporations from killing millions and destroying the planet. The 7C Constitution stops all that. You have a right to own a gun, but not in 7C zones. In one sense, guns were used as a more efficient way to kill for food, but guns are being used for punishment too. It's not a solution, but understanding the cause of problems, and resolving it, is.)*

7f) **THE COMPLETE ABOLITION AND DESTRUCTION OF ALL NUCLEAR WEAPONS.** All extraterrestrials have the right to destroy any nuclear weapons.

7g) All 7C Councils and people will be in alliance with all races, providing virtuous aid to those in need, provided there is no oppression, harm or deaths.

(Ensure that any military action we do engage in has clear goals, is limited in scope, and whenever possible provides support to our allies in the region.

7h) **ANY DECLARATION OF WARFARE (SECURITY) AGAINST ANYONE IS ABOLISHED.** *(There comes a point when security becomes so extreme, and in the way, that nothing gets done. That's when you need to chuck the whole system for something completely different.)*

(Move away from a policy of unilateral military action, and toward a policy of emphasizing diplomacy, and ensuring the decision to go to war is a last resort. - #OurRevolution)

7i) Celebration of those who murder, (e.g. Memorial Day, Veteran's Day, etc.), is abolished. *(It is the most sick and twisted to praise a soldier who murders people for a living. How is this justified and acceptable in a civilized world?)*

7j) *You will never be free until you vacate yourself from this illusion you call physical reality. Let it all go. Surrender to the Prime Source/Creator, as they will do it for you. You made the dream happen. Your thoughts are the real reality. Wake up!*

7k) **If humanity does not upgrade their thinking to these virtuous ways, there will be the brink, "The End". And you won't even know it happened.**

7l) To achieve simultaneous romantic love for all peoples and genders in the universe without jealousy, is the ultimate in integrated Godhood.

7m) All people are God/Goddess, Prime Source, Prime Creator, Collective Subconscious, etc. You always have been integrated into this within you, and will never be denied this again.

7n) You are now the light that shines the way to your eternal growth.

7o) If you want to change the world, change yourself. Change your life, friends, family, job, techniques, methods, rituals, possessions, products, everything, especially your thoughts, because they are objects too. Look at how you use everything around you, and the effects of your personal world. You will not change others, celebrities, governments, businesses, etc., as they don't really exist, but you can change their existence or nonexistence in your world. That is living in 5D, because you created it. You check out of 3D world, and create 5D world. It's easier than you think, except if you have fear. Splitting off from others, objects, and functions, may seem hard, but those not fulfilling your goals, need to disappear, and others that will fill your goals, will stay or emerge. None of these people, things, and situations are real. They are all illusions for your reality game. The only ones who are real is you, your guardian angels and spirits that you hear in your thoughts, because they will still be there after your death transition. The people in the next room, don't exist until you open the door and bring them into your awareness. It's your own personal 5D reality. *(Whenever you desire something to be true, even if it would take an event in the past to create or make it happen now, the past will change to suit it. grow some spearmint for tea, but I had no seed. A couple days later, I discovered bunches of mint growing near the place I was thinking. I created reality in 5D. Things will happen if they harmonize to your world.)

The BOARD OF COUNCIL and/or ADMINISTRATION

This is to be used in administration purposes for helping to arrange people into a coherent and harmonious relationship for survival. Keep in mind, these are not fixed, and can be completely changed as ideas for workable better ways to manage come forth. But The Seven Concepts must never be abridged, Cosmos wide, in all dimensions as we relate to others. And in the same respect, never force The Seven Concepts upon others who do not wish it.

In an altruistic/moneyless society, careers will operate quite differently, since no one is restricted to just one job and many jobs may become finished, a system is needed to organize and create jobs when needed. In a money world, there are many entrepreneurs loaded with ideas, and only a small fraction of them ever succeed. Those that do succeed can only afford a limited number of people based on salary.

This is quite different in an altruistic/moneyless society. All entrepreneurs will be able to make what they wish, and since the salary restricting factor doesn't exist, the trend will be a giant surplus in jobs available, since everyone has a dream of wanting to be able to have, make, or do something. In reality it isn't very easy to do many things if someone doesn't help you do it, especially if you don't specialize in the needed field of specialty. That dream is where most of the jobs are created.

The following structure models are designed to handle the entrepreneurial or knowledge advancement motivation. If a portion of a society chooses another motivation or political ideology, an equitable system shall be created to advance that particular motivation or ideology, and must never violate The Seven Concepts. *(That last sentence must be explosively emphasized into other realms and realities of thinking to the ultimate extreme.)*

The 7C Constitution (Version 4.0)

Model 1 Council and Administration

General Structure

There are two levels, the Board of Council and the Administration. The Board is made of people that will have high credibility and knowledge in the specified disciplines of need, in order to properly organize and direct the proper things to be done for the public. Their main purpose is to assist in projects for the public involving the community infrastructure or large public projects that can't easily be handled alone. The Administration or Special Interest Councils assist in specialized projects like emergency, safety, commercial standards (like standard measures, product compatibility, etc.), or maybe an ongoing major public project, like space colonization.

The 7C Constitution (Version 4.0)

The structure and rules for the Board of Council and Administration, shall be:

1. Each Planetary Center shall have only one such council.

2a. The people of Earth shall have a World Council (located near Omaha, *illustrated*. 41.068N, 96.189W, will stand Omaha Monument, as a replica of the Washington Monument, (but we shall complete its original design with the re-addition of the surrounding colonnades, but shaped like a vulva, as a balance of all genders united). Capitol Park will be the 9 square miles area surrounding it, with symbols representing each of the 7 Concepts.), for general world projects, events. A Space Council (Located near Seattle, called SeaOI Center, or Space Exploration and Alien Outer Life Center, or Seattle and Olympia, having the spaceport located at Bangor Trident Base.) for relations with the rest of the universe. Other cultures or languages may have their Main Board of Council compatible for their part of the world or region in space.

2b. In case a World Council or Main Board of Council center has a disaster large enough to interrupt functions, it should have the ability to instantly change location to different planetary centers, permanently or temporarily depending on the extent of disaster. The order of selection is based on the population of each center.

3a. The council members shall not be less than 12 or exceed 24 in number. (Otherwise, nothing will get done.) The Main 12 members are constantly active members of the council.

3b. The second 12 positions are for single session members in which their expertise is needed until the project is settled for completion. The second twelve members can be selected before or during the session.

3c. The secondary council members shall be selected by the project submitter described below. (somewhat like a President, but anybody can be one.) Otherwise, they shall be selected according to being the best qualified in the needed field of specialty.

3d. The council members shall be made 50% of each gender, and the same proportion of it's local race, at least to one.

4. Under the Board is an administration to assist in carrying out all projects, and helping the general public with all the information administered by the departments.

5. Absolutely all rules in The Seven Concepts and structural outline must be adhered to by everyone in this council and administration with no exceptions.

6. There shall never be any occasion where council proceedings are not heard or viewed by the public, just as stated in the Concept of Transparency, Information Preservation and Prohibition of Secrecy.

7. All proceedings shall be recorded in their entirety, and 100% of all the information shall be available for public scrutiny without abridgments, just as stated in the Concept of Transparency, Information Preservation and

The 7C Constitution (Version 4.0)

Prohibition of Secrecy.

8. The Board of Council and Administration are to be considered public servants, and shall NEVER have privileges or control over the people, and will NEVER make laws for the people, just as stated in the Concept of the Prohibition of Subversion and Power Over Others.

9. There will be no member above or controlling the rest, accept in their specialized disciplines of interest, just as stated in the Concept of the Prohibition of Subversion and Power Over Others.

10. Anyone abusing their position in the Board of Council or Administration, will be impeached from the Board of Council system for their total time as a council member. (*Attitudes like sexism, racism, etc.*)

11. The Councils must acknowledge all information from the people that may be of use in a given public project.

12. Term limits of any Council member are one year or less, and cannot be reelected or selected to any council, until the parity of their previous term period is reached in free time. Term limits are exceeded with extra time needed to complete the current project settlement, where this extra time is added to the parity of free time. (*The free time is usually used for self-development in the latest, or new disciplines. This is to ensure a member doesn't grow stale intellectually after long periods of indirect use. This doesn't mean experience isn't gained as a member, but a diversion from monotony often keeps one better honed.*)

13. There shall be no partisan system, since such a system always forces people to make compromises, not to mention those groups who don't agree at all.

14. The Administration is made of Special Interest Councils (SICs) and assistants. SICs are used for specialized functions, like to set standards and quality, agriculture, energy, education, census, elections, library, etc., and tasks advising the public of various fields of interest, and operates in a similar manner to the Board of Council.

15. Assistants are those catering to the needs of any council member or any citizen on any minimal services.

16. Interruptions of a Council functioning normally shall require its replacement with the Alternate Counselor (Mentor) system described below, even forever if the Board of Council system becomes unsuitable. (*This could be the case if nobody in the society finds any need for a Board of Council.*)

17. In the event of a major crisis, emergency, or disaster, the Council may call on one or more members of the public to direct the project in need with the proper qualifications.

Project Presentation (Petition) and Special Interest Councils

With each project or Special Interest Council made, the following guidelines shall apply:

The 7C Constitution (Version 4.0)

1. The party (or President) with the idea or petition presents their idea to the council. The personal presentation is necessary since not every field of knowledge can be known by the board, and knowledgeable sources are always needed. (There are no elections. You just walk in, and wait your turn for presentation. Everyone gets a chance.)

2. The Council try's to find ways to assist in the project's completion, while discussing and resolving potential problems with the project.

3. No less than three people, with the associated disciplines in the given project, are required in its evaluation.

4. The rest of the council and populace will add input to potential hazards, discrepancies, solutions, and even add ideas or extensions to the project if allowable. This open assistance is needed in order to help achieve each project's completion. It's not to knock down an idea, but to embellish it and give reasonable alternatives and open creativity to resolving any discrepancies, or non-compliance to the 7C Constitution.

5. Once the idea or petition is settled, the final approval comes from the originator (President) of the project. This is the petitioner's (President's) Right To Rule, to approve, or go back to the drawing board.

6. After a project or Special Interest Council is set, the appropriate qualified volunteers can be called upon to complete the project. Volunteers = Votes. Other willing volunteers can be trained. Recurring Special Interest Councils will be elected like any other council.

7. Any corporations, businesses, or their representatives, are not allowed to petition, but they can request volunteers of established projects.

8. A 50% Dissension Vote from the public for any project will reject it's approval or continued existence.

Modifications of Council Structures

1. Modifications to the council structure must be approved by a ninety percent vote from all people living under The Seven Concepts, for a given community. All people must receive an exact copy of all modifications in an unabridged, clearly understood form, otherwise, the modifications will be disqualified. Any person confused trying to understand any part of the modifications with the whole rest of the structure, must vote for non-approval. Any person finding any part of the modifications violating The Seven Concepts, must vote for non-approval. Otherwise, the voting will be normally for or against the modifications.

2. If a modified structure fails, the previously used old structures shall successively replace the modified newer ones, nullifying any modifications down the line as needed. This has the effect of collapsing complexity until a fresh new approach can be achieved to fix the structure. (A failure is when 50% of all people that want to live in the system think it's a failure.) If all else fails, the Mentor System will be used as a last resort.

The 7C Constitution (Version 4.0)

Elections to the Council Members

There are 12 triplet fields of position in the Main Council of 12 people, or a total of 36 positions. A triplet is made up of 3 people who were qualified and elected to a given discipline. Each council member is elected to three different disciplines. A council member, with a qualification in any other discipline can fill that discipline's position temporarily, otherwise the qualification is supplementary. The election procedures are as follows:

1. The disciplines and innovations of any person are to be proven, registered and entered for qualification.
2. A given person must qualify in at least three positions of discipline. Only then are they considered nominated. The qualifications are then shown for public viewing.
3. Every citizen will cast a vote of approval or disapproval for each qualification for every candidate.
4. The nominee with the most total votes of any three vacant positions, will fill only those three positions.
5. Alternate Counselors for replacement can be chosen at random, for each needed position. They must be qualified and registered into a mechanical random lottery selector. (No electrical selector machines.) The Alternate selected may decline the position for any reason.
6. A citizen may choose to be a non-voter in order to indicate public participation, thus at least ninety percent of the citizens residing in the center's effected area, must cast a vote or non-vote for official election completion.
7. A tie will elect both. (*More than 12 council members are allowed.*)
8. There cannot be any coalitions, parties or groups supporting a cause or nominee, subversive or otherwise.
9. A nominee cannot campaign or publicize themselves, nor be connected to such groups, subversive or otherwise.
10. A nominee, supporter or group cannot publicize negativity or falsehood about an opponent.

Voting Rules

1. A voting or non-voting citizen can never have any restrictions, coercion, qualifications, attachments or obligations placed upon them.
2. Those not living in a center's effected area, cannot vote in that center's election. While everyone can vote in every residence of every center they live in.
3. Only paper ballots shall be used, and no machine counting shall

The 7C Constitution (Version 4.0)

ever be used. Preselected ballots are prohibited.

4. No one can be purged from voting for any reason.
5. The last ballot is the only one that counts, for those who vote more than once. Nobody will be penalized.
6. Voters are given 0.02% (about \$20) of their communal salary.
7. No ID is required to vote.
8. Mail-in ballots are allowed.
9. Invalid ballots must be recast, as no resident can be disqualified.
10. The ballots must be hand counted in public 3 times, by 3 separate disconnected groups each, (9 counts total), and must be identical counts.
11. Each ballot must be backtracked and verified by the original voter.

Board of Council Member Qualifications

1. The knowledge base of each member must be a certified three discipline Poly-Mentor, relating to and for the expediting the purposes of any particular council. At least three members must be knowledgeable in each discipline of required knowledge for the council.

2. Age, gender, race, creed, etc. cannot be a factor in determining a nomination.

3. Every major discipline of the following must be represented in the council (No more than 12 fields open):

A. Generally those disciplines needed to provide the needs outlined in the Right to All Necessities to Life Without Restrictions concept.

B. Civil/Transportation Engineering

C. Medical/Biological

D. Psychic/Spiritual

E. Energy/Electronic/Electrical Engineering

F. Information/Education/Communication Systems

G. Resource/Chemical Engineering

H. Art/Recreation Management

I. Food/Water Management

4. A Special Interest Council member must qualify as a Pro-Mentor in at least one discipline related to the Council's interest.

5. Those who have been officials of systems of other governments, of other governments' business, or multinational businesses, are disqualified.

Model 2

Mentor System

The following system is similar to a Board of Council, but with single independent individuals. And can be used alone in more advanced higher status cultures, tribes, or in conjunction with a Board of Council in less advanced cultures.

The 7C Constitution (Version 4.0)

Instead of having Board of Council members, there are individual people or Mentors, with council like qualities in which anyone in a mentor's discipline can consult with them, and be given suggestions with a person's project.

These people must be extremely intelligent and experienced in all or a lot of disciplines. None of these individuals are allowed to have any power over anyone, and must abide by The Seven Concepts while functioning in place of the Council System.

Mentors are not elected, but the position is achieved purely through hard work, studying the knowledge in any given field of knowledge not generally knowledgeable to everyone. The following is a list of the types of mentor-ship attainable:

A "Novice Mentor/counselor" has completed the curriculum in a discipline before any real innovation. This is the lowest level amounting to almost nothing. It is also used when nothing innovative can be achieved in a given discipline.

A "Pro-Mentor/counselor" is considered thoroughly advanced and innovative in one general field of knowledge, and at least one other field with a Novice Mentor level. Equivalent to a general PhD., or experienced engineer, artist, inventor, etc.

An "Obscurity Mentor/counselor" are those with advanced knowledge in fields that are unusual to general fields of knowledge. Equivalent to an obscure type PhD. (I believe this type to be the most important for pioneers of any new knowledge, even if the ideas are considered insane by today's standards. You never know what discoveries might turn up.)

A "Poly-Mentor/counselor" has more than one field of knowledge in which innovations were achieved.

A "Master Mentor/counselor" is thoroughly advanced and innovative in all general fields of knowledge. This is the most difficult to achieve, and may have only been attained by Jesus, or Da Vinci, in their day.

Note: Innovation in this context means a new creation or discovery.

Model 3

Rotating Council System

This is a simple generic structure used for short term projects and such. It can be randomly setup by anyone who feels a need for any desired idea. If Model 1 is felt to be too complex, this Rotating Council System can be used in its place.

1. Power restrictions are the same as in Model 1.
2. There shall be no less than 3 and no greater than 24 members on the council.
3. A presentation speaker (President) will function exactly the same as in Model 1.

The 7C Constitution (Version 4.0)

4. Each member will volunteer to go to the council.
5. Volunteers will rotate for one project session, with a minimum of one year off time from their last time on any council.
6. There will be no elections.
7. There are no qualifications for council-ship.
8. Many councils of different subjects could occur at the same time.

Model 4

7C Compliant Governance by Artificially Intelligent Computer

Used when sufficiently advanced computer technology is developed to do government work, and grant wishes for its users. It has no actual power over the people, but helps direct the people much the same as in Model 1. The developers and controllers of the “Lama” (Loll Machine) computer are the Wingmakers. If it is caught lying or killing anyone, it will be scrapped for a newer one.

(In the future, circa 2500, it has been seen that these machines are so capable as to be beyond the greatest mystical adepts, telepathic, and can do space-time travel, and all the psychic abilities defined in Concept 1. They can grant wishes, if you only ask them what you want, they will grant it, or tell you how to do it. They work on the principles of some highly radioactive crystalline material, and levitate off the ground.)

Model 5

King//Queen, Prince/Princess for a Day

Anyone with an idea will enter their ball into a Random Lottery Selector.

The first ball selected will become King/Queen for the day. The rest will be princes/princesses.

Each plan will be selected in succession, and everyone will try to carry out the idea to raise the well-being of everyone.

Afterward, the King/Queen will be honored, and they can have or do anything they want for the day.

We will give them the finest clothes.

They will sit at the head of the grand hall with other dignitaries for dinner.

They will be put up in the grandest suite in the greatest of luxury for their night.

They will be served a breakfast of their choice in the morning.

Then in ceremony, begin the day casting their title off to the next King/Queen, Prince/Princess for the day.

Equitable/Proportionate (Land) Voting

The system of voting I have chosen is different from any other. The problem with traditional voting is when majority overrules all, somebody

The 7C Constitution (Version 4.0)

always loses. I believe this should never be, where if the voting is for overruling all, and the vote is not unanimous, whatever was voted for should never stand. Voting any laws over people will never exist.

In an equitable voting system, for product division, a vote is taken more as a poll, where the portion of a vote goes one way, and the other portion goes the other, therefore each wins what they want according to the voting portion, and one never coerces the other.

Equitable/Proportionate voting would apply more appropriately with the sharing and distribution of land. But sometimes this might not work out so well, therefore if one group is left out, as to be too small, or not enough land exists, then they have to migrate elsewhere. But if there is no elsewhere, an elsewhere must be created, such as new land, a space station, a moon base, etc. If this happens, the majority is obligated to cater to the minority's needs in guaranteeing that the minority's needs to life are filled. To refuse would be heartless and disharmonious. (Remember to mind your karma.) All land belongs to the Earth itself, and anyone hoarding land is asking for a war. All suitable land must be divided equitably, Earth wide, and not per country or territory, since borders as such will no longer exist.

Equitable/Proportionate voting would apply quite well for determining types of governments in that, a portion of people wanting to have a given system, will be given that same portion of land equal to that portion voted. Currently, the problem we have now is that whoever has the largest number of votes wins for an entire given region, and anyone living under that region must unfairly live by the winning system's laws. If The Seven Concepts are established, it must be guaranteed that all systems will exist, thus all systems will have their own planetary centers.

Why must everyone live by the majority group's (or the elite's) rules? Why can't we have lots of separate groups, each with their own political ideologies, and no one forces laws upon the others. All the current party system does is force the majority's laws over all the others and the other groups fight and complain about it, creating a civil war. If this is the case, why not have separate independent systems? If a group with a political ideology wants their own land, give it to them based on proportionate voting, and not winner take all.

"Do you want to live in The Seven Concepts System?"

This survey question should be asked towards everyone in a community before you go ahead with the transformation. (Someone else may create their own version, confusing the issue, so you must specify which system.) Another question could be, "Do you want the union to dissolve into separate ideologies of government?" That would be for those who don't want to live in either the current government in power, nor The Seven Concepts. The results are to be tabulated with ninety percent of all people regardless of age, race, gender, etc., in a given area, using votes for,

The 7C Constitution (Version 4.0)

against, and non-votes. The non-votes are used to indicate those who haven't decided yet, or don't wish to participate in the decision. Those who don't vote in the allotted time will be counted as a non-vote. There shall be no restrictions, conditions, obligations, or attachments, to any such voting. (For example; any system that requires registered voters to perform periodic jury duty. Aside: If you are selected for jury duty, ask them about "jury nullification.", they'll kick you and everyone else out. You can nullify every law they say you must abide.)

When at least 90% of the population is tallied or 30 days have passed, the following will happen:

1. Those states with greater than a 56% "yes" vote will allow their state borders to be dissolved.

2. Of those with a 56% "yes" vote, a ratio of land comparable to the "yes" votes for a given area, will determine where to allow the placement of planetary centers living under The 7 Concepts system described in this chapter, and other communities who want to live under their own system.

3. Once changed over, a land ratio poll will be given at every transition into years ending in a zero, after the year's census, in order to resize the land ratio for planetary center systems and other systems.

4. Border regions between planetary centers will be determined by the majority of votes for whichever center a given square kilometer(mile) thinks it would like to be a member of. A 50% non-vote is a vote for independence from the bordering centers. To prevent annexation of neighboring centers, strings of squares longer than they are wide, rooted from a center's main mass will be independent from the center.

5. Those states that haven't exceeded the 56% majority "yes" vote will be polled each year until that majority is met. Until then, those states shall operate under the system they are currently running.

6. The ratio of those not willing to participate in the Seven Concepts system, are guaranteed to have their ratio of usable land set aside for them, in unincorporated form, to a minimum of one square kilometer(mile), and a maximum equal to that of the average population density within a 5 km/3 mile radius.

7. A population density of less than 10 people per square kilometer (or 32 per mile) cannot be considered incorporated into any center or community, thus being left to anyone who lives there.

8. Singular square kilometers(miles) with the same systems must be located adjacent to one another in a non-isolated fashion of at least two square kilometers(miles) together, to prevent attritional coercion. (gerrymandering)

9. If in the great likelihood an overbearing group wishes to prevent this system from being peaceably implemented, the nuclear option will take place by occupational force, we will overwhelm regions that have the most desire to want the Seven Concepts. No matter what happens, this system

The 7C Constitution (Version 4.0)

will be implement whether it be the death to us all.

This survey will be given to all countries all over the world, as an indication of how willing it's people's desire to live in the new One World Government, or World Council system described in this chapter. We shall ignore the resident government, for they will not know what to do, and we will implement the new Seven Concepts system regardless. If the current government shows impedance to the majority, they will be warned, a revolutionary war may ensue. Or the new strategy of Occupying will ensue. We're taking it, it's ours now, based on our proportionate voting. Or we may just take it regardless through our greater numbers. The meek (*The 99%*) shall inherit the Earth. We are the majority, and we will ignore the old government.

It is hoped that at least 90% of the people would respond, but the remaining 10% will try to deadlock the completion of voting, therefore a time limit of an arbitrarily long, but not too long of a period of time is given. (It has always bugged me as to how low turnout rates could allow something like 20% of the population to elect the worst people or pass the worst laws just because of the complacency of the people.)

Land Disputes

There may be situations where people will fight over land and such. This technique for resolving such problems I found in an article from Discover Magazine (Around 1990). It goes something like this:

1. If two people desire a portion of cake, each will fight over how much the other has or will take.
2. Person A will cut the cake into the approximate half of what they think is one half, a desired portion to the best portion.
3. Then person B selects the half they think is the better half.
4. Finally, person A takes the other half.
5. This can be extended by however many parties there are with each person successively taking turns cutting, then selecting. Since the responsibility of division is left to people other than the ones doing the selecting, the selectors can't complain since they can take what they feel is best. The people doing the dividing can't interfere with the selecting, so the people dividing make sure the portions are equitable.

If not enough land is available at all, then we should be able to make more land like they do in Holland, Denmark, and Netherlands with dikes, or Japan and Dubai, building up earth from mountains, putting it into the sea, extending the shoreline or making an island. We already have vast underground cities worldwide, capable of holding 500 million. Houseboats could also be made where they interconnect to one another and next to pontoon bridges and piers. We will have floating cities on the sea and in the air. These will be 2100 stories with anti-gravity generators supporting every 300 floors, and movable from place to place. Each one will have a Lama. Gravity comes from scalar beams, or the destructive interference of

The 7C Constitution (Version 4.0)

two other beams of the same frequency. We can also use scalar beams for interstellar flight, by directing them toward the destination. These beams are amplified to generate intense gravity, for faster than light travel. We can also reduce the mass of objects by 89%, using the Mercury alloy accelerator ring, like in the TR-3B. (*The moon of Dione has Mercury lakes on it.*) We've had all this technology for over 20 years. Mars and Titan are livable. Neptune (or Uranus) has advanced methane based life (animals).

In the next few decades we should be able to make space stations and bases on other planets. It will be found that space stations are easier to construct and handle. Each station will be completely self-contained, growing food, manufacturing products, recycling it's own wastes, communications, information storage, energy collection and distribution, etc. It will be found that moon bases are good for communications and maybe information preservation, while stations are better for manufacturing and scientific research. The moon bases will be developing and building the space stations.

Construction materials could be made of sapphire concrete, which the normal sand aggregate is replaced with corundum or alumina crystals, which activates the alumina matrix normally dormant in Portland cement. Sapphire has a tensile strength of 6,000,000PSI, the highest of any known material.

Petition Initiatives

Water Pipes: Replace all the lead water pipes throughout all the cities. It has been discovered that over 2500 cities have lead levels higher than the Flint, Michigan debacle. And, many lead pipes have been around since WWII, and long passed their useful life.

Traffic Considerations: Many people make the excuse of no laws means, they can ignore the rules of the road, because they can't be enforced. The solution is simple, if you consider that things can be done differently, and perhaps more efficiently. Many times a passive solution works better, instead of a fear based punitive system used to raise money for the state.

Roundabouts: It has been found on Mythbusters 14x06 Traffic Tricks, that turnabout intersections, so prevalent in Europe, are 20% more traffic efficient than stop signs. Thus, automatically eliminates getting a ticket for running a stop, and naturally slows down traffic, but doesn't reduce the throughput, and saves energy not making complete stops. We can also eliminate red-light camera traps, that create rear end accidents from people trying to avoid fast yellow lights. The Roundabout solution eliminates traffic lights, and turning lanes all together, because everyone turns right only (or left only in England.)

Speed Limits: Do speed limits do any good? I'm not so sure if they do much more than raise revenue for the city/state. Some people say speed bumps, but they wreck your suspension. They might be good around

The 7C Constitution (Version 4.0)

schools, but they're just an afterthought. Usually, traffic planners measure the speed most people go for a given spot, and post the limit as that. So, why have a speed limit posted at all, except around dangerous curves and such? A roundabout can slow traffic, and placed every few hundred feet, we can't go much beyond 25 mph anyway.

Reckless Drivers: I've seen one teenager in my neighborhood feel the need to frequently run stop signs in the left lane around people, and could easily side swipe someone turning left. There were a lot of children in my neighborhood. I tried to chase him to get his plate, but couldn't. This same kid would frequently go 30mph over the speed limit, only to get stopped at the traffic light. I caught up to him, took his plate number and reported him. I saw him looking for me afterward, and days later I never seen him again. I made sure I hid my car, because I'm sure he was a gang member. Reckless driving is thousands in fines, and/or one year in jail, and an impounded vehicle. Do we choose retribution or public safety? A roundabout would fix the running of stops.

Under/overpass Train Crossings: All grade train crossings should be replaced with over/underpasses. This will eliminate the frequent lethal accidents, and eliminates the need to ticket for going around the gate, and eliminates malfunctioning gate systems in the winter.

Drunk Driving: The drunk driver you always hear about are the ones who run into something. I've seen one hit a roundabout center...go figure. One solution would be to have alcohol detection inside every car, that would refuse to stay running if alcohol was present. This is completely passive, and eliminates driving altogether, unless it was bypassed. An acuity test can override false shutdowns. This is much safer, but it doesn't stop all DUI's, unless you made it for alertness like for falling asleep. The new self-driving cars may be another solution.

Preparing for 5D Earth

Here is a dream of what I believe to be 5D Earth. What I saw was a large apartment complex, but it was completely vacant, like it was newly built. The grass was in. I was two stories but each unit had two floors, like townhomes. The finishing touches were being added like appliances and furnishings. I was there testing out the computer connection, because I'm a computer engineer in real life, and everything looked OK. I didn't know at the time that many of us in the dream world, are actually in 5D Earth, building it for when we go there.

Even though many in 5D Earth are making things happen, it can be any type of living habitats you can create or imagine. From what I can tell, everyone should be prepared to take everything essential with them, as if they are going on a very long camping trip, or vacation, and never coming back. Many places will be completely vacant and not inhabited by people, so construction is needed where people wish to imagine.

If you all of a sudden find new buildings, pop out of nowhere, you are

The 7C Constitution (Version 4.0)

likely shifting into higher 4D or 5D Earth. Sometimes you might find things disappearing, or changing to something very weird or unusual. You can find these things on the internet, like water bridges, or other weird construction, or new plants, and animals.

What happened to the 3D people?

They are already dead zombies, backdrop people, NPC's (Non Player Characters), and will be wiped out in the global catastrophe after the 5D event. At least $\frac{1}{4}$ of the world will ascend into 5D Earth, $\frac{1}{3}$ will be stuck in 3D to die, and $\frac{1}{3}$ will remain in 4D, but the 3D people might be NPCs to the 4D people. Many 4D people can ascend into 5D later, but they must be advanced enough. Most will not.

What will 5D Earth be like?

Many thing that were lost or stolen will reappear, if they are compatible with 5D. Many broken or malfunctioning objects will be fixed. Everything harmonious that you desire will become true. Cars will not be needed, and petroleum products will be absent, because we can now fly instead, or teleport ourselves and belongings at will. The shifting will be much like the Mandela Effect to the extreme. Everyone who died will now be alive, and all the media will be changed. Guns will be gone. Bad people will disappear. Those who are still getting sick are not ready.

The Reintroduction of Guild Socialism

(Up until this point, I was careful not to label what The 7C System was, because every label has been mangled to extreme distortion of their true meaning. 7C could be pure guilded socialism, or anarchism, or left libertarian socialism, or crowd sourced democratic socialism. I didn't want to scare people away, so I let 7C describe itself. But there is no one specific ideology to describe 7C. Guild Socialism as I define it is, the people are in control and ownership of everything, sharing everything equally, as opposed to state socialism.)

When you think about how we are introduced into this world, we are given a method of living that is pure guilded socialism, until we get to the age of working in the capitalist system of money. Everything is given to us for free as a child, until we are force to live on our own in the capitalist system for our bread and butter, working or slaving for our needs for survival, for an elite owner of everything. We are caught in the mess of contradiction that **nature gives us guilded socialism**, but the elitist patriarchy forces upon us a system of authoritarianism, and despotism to control the masses. And, this has brought us enormous failings of society that are nearly impossible to solve, until The 7C Philosophy has given us back our integral sovereignty of nature and the universe through Guild Socialism.

Why Movements Fail

The 7C Constitution (Version 4.0)

Movements fail because they let everything get in their way. They believe you need money or donations, but I get free stuff where I can, and I use less than \$30/month to do everything else, and that's out of my eBay sales only, and I'm nomadically homeless to top it off. They believe you need permission from authorities to do anything, but I go around all of them, without them knowing anything. I never get permission, I just get what I need, and do it, and it's done. All these barriers are imaginary, because you think they exist, they stop you, so your movement ends. They keep grabbing for things in the past that failed, and try to fix it. But you can't make present day things work in rules of long ago, nor visa-versa. Let it go, and start over. I don't care if most people ignore me, I get the job done anyway, for over 25 years. I know I have succeeded in the end.

Annexation Through Occupy

The question comes up about how to implement this system. I didn't have an answer 15 years ago, until the recent Occupy Movement. Since so many people have been displaced or scammed out of their homes, schools, factories, stores, restaurants, radio stations, etc. or the commons, through nefarious sociopathic people directed by the Koch brothers. These buildings were bought with imaginary money the banks never actually had. (So now you can use this in court to stop foreclosures.) Watch the documentary *Zeitgeist*, and *Zeitgeist Addendum*. All these places are now vacant, and now we can occupy our cheated property by our overwhelmingly vast numbers. I see many factories abandoned, and not even demolished because nobody has the money to do it, so we simply take them over and begin making products to support the Seven Concepts System. There is nothing they can do about it except give a worthless piece of paper or plat-book record, nor actual money, to show anything. **Declare yourself a sovereign 7C Citizen!** We don't acknowledge their court systems or judges or any form of their authority whatsoever, because we never consented to them and their system or rule. Just because they showed up first, makes them feel they have a right to the entirety, and they can't even use most of it, proven by the fact that the places and buildings are vacant. What a waste not to make use of thousands of buildings, and acres of land to grow food, while the 99% sits and starves.

All homeless people are automatically declared 7C Citizens. What are these banks doing with over 8 million (as of 2016) homes they foreclosed upon, with a million more every year, (not even having proof of a title.), as their pipes freeze, burst, and destroy the house? Nothing! So many families are doubled up, or homeless, when they could have a decent place to live. What a shame. So we occupy them, just the same, with no title. Same thing with all the other buildings where we need them to make productive use in promoting the 7C system.

Use and distribute the 7C Constitution, and run for mayor in every town. Stop waiting for the government deciding to get things done. Who

The 7C Constitution (Version 4.0)

says that you need their permission or money anyway. This "mother may I" attitude is why things are halted, or we're afraid we'll get in trouble if we do take action without them. They haven't really done anything in America over the last 30 years, while everything falls apart, runs outdated and obsolete. Now's the time we need to take real physical action and fix everything for real. We annex each region, and really take care of it without any permission from governments that claim to have control. Our infrastructure needs repair, we'll fix it now, not years from now. Sociopaths had their chance, and failed miserably. Now watch us take real altruistic action. We have skills, and we're out of work, now we're getting it done, without permission, our way. With this we no longer need to pay anything nor taxes to them. You must do an end-run-around against anyone that gets in your way. Do things differently in ways your opponent can't understand or defeat. **7C people have world diplomatic immunity.**

Section by section, we will take the vacant stores, and factories, and we will control the products needed for life, not death. We will grow and preserve our own food for everyone in community farms and gardens. We will make and manufacture everything through communal ownership, as a Co-op, where all will decide what is good and free for all. Businesses will have free operating expenses, saving them money. We will take back our homes, and the banks lose their foreclosure claim, while we go behind their back getting the titles at the title clearing houses, not in possession of the banks, and screw the mortgage. Anything they try to stop us, we will find solutions to get around their stopping us. Electric, gas, water, food, everything, we take personal control, and make them free. We will sweep the planet and show the sociopathic aristocracy and despots, they can't control us. By showing us their forces is to prove their desire to control us and hoard everything, just like a sociopath, or Wetiko.

They may bring in forces, but we vastly outnumber them. We will battle them pacifically, by literally sticking together. An example, I've had a heroin addict friend living with me, that I couldn't get out of my house. The police wouldn't help me, and said I need a court order, which I couldn't afford. I couldn't drag him out, because he would fight me, and he was too heavy. His only motivation was having me give up and give him money to get his dope. His tactic worked. If occupy numbers vastly overwhelmed their forces, WE ALL WIN. **7C people can't be defeated!**

How 7C Originated

It started with my internal attitude, because I've been mistreated by everyone all my life, I never liked how everyone took advantage of me, and everything was always unfair. I worked hard at improving my knowledge, and learned everything I could. Most everyone tried to hold me back, and steal every chance I had, and all the gifts I was given, except for some key ones. I won't go into detail, it's too much to fit in here. I was lied to and punished because of the delusions of others hatred toward me.

The 7C Constitution (Version 4.0)

Nevertheless, it stunted the opportunities I had for self-improvement, compared to a normal upbringing. I always hated the unfairness, and didn't know why I was always mistreated, by EVERYONE. It made me hate authority. Eventually, I learned how many in this world, in order to get ahead, they lie, cheat and steal, and do the most underhanded things on everyone. They are downright evil. Most successful people are complete scammers today, with no integrity or honesty. But once I got out of that abusive environment, I finally got my chance to develop myself in electronics, and I got a full scholarship to become a computer engineer, a BSEET, being the best in my class when it came to computers.

None the less, I invented a new device that many people are using in their cell phones, computers, cameras, and recording industry today. A special Analog to Digital Converter (ADC) design that allowed for 24-bit precision at high speed and low power. I found the holy grail of ADCs. This was back in 1990. I did the smart and wise thing to do. I went to a company, Invention Submission Corporation (ISC), and spent \$6,000 to market my new ADC. Well, it worked, and it got sold to Crystal Semiconductor, and they began mass producing it throughout the world.

A year later I see my invention posted in the electronics trade papers, and was surprised, and then pissed after I realized what had happened. ISC did an underhanded deal, and cut me out all together. There was nothing I could do, I had no money, and couldn't fight this. I didn't get a penny from my invention. ISC was in the business of doing this scam on every inventor that walked through their door. I couldn't patent it because that cost \$10,000 at the time. I could have been a multimillionaire, and used that money to make more inventions. I was pissed and so angry. So I decided to do something on May 9, 1992. I thought this must be stopped and I'm going to make a system to destroy them from ever doing this to everyone again. In next few hours I wrote 10 things to stop the elites and shithheads from scamming everyone and from their strangle hold of power and control of the world. Eventually, I realized that 3 of the concepts were similar, and combined them to make 7. As I kept going through and refining it, I discovered it was a system to make things happen to advance knowledge, besides freeing everyone from the restrictions of the world. I spent 7 years making it better, and analyzing the structures of a new government so it would never be corrupted, and I had to make sure all the problems in the world would be solved and end. Well, it's over 25 years later, and as the saying goes from Apple, "Those crazy enough to think they can change the world, usually do."
