✓ **WWW Resolved**    Perfect, WWW is Resolving.

This parameter assesses whether your website re-directs to the same page with or without WWW (World Wide Web). It is better and more convenient for users when it does.

✗ **Ip Canonicalization**   No

When a search engine spider indexes a website, it gathers as much information about the website as possible. This may also include the IP address. Why is that a problem? For starters, if you have multiple domain names under one IP address, the search engine could possibly label one URL of the websites as duplicate content.

✓ **Robots.txt**  <https://pavel-samuta.livejournal.com/robots.txt>

When a search engine crawler comes to your site, it will look for a special file on your site. That file is called robots.txt and it tells the search engine spider, which Web pages of your site should be indexed and which Web pages should be ignored. The robots.txt file is a simple text file, that must be placed in your root directory.

! **Sitemap**  No

Sitemaps are a way to tell Google about the pages on your website. In its simplest terms, an XML Sitemap is a list of the pages on your website. Creating and submitting a Sitemap helps make sure that Google knows about all the pages on your site, including URLs that may not be discoverable by Google's normal crawling process.

<H1>Предлагаю добавить Livejournal карту сайта Sitemap XML для персональных блогов.

<H1>Я всегда знал что хочу творить, даже больше удивлять (еще больше нравится вводить в хорошем понимании в шок) - как оказалось сегодня на тренинге сообщества Архитекторы мечты .

<H2>Личный блог инженера Павла Самуты

<H2>А также неплохо было бы создавать дополнительный адрес с переадресацией страницы ЧПУ транслитом (человекопонятный урл , от англ. friendly url) — уникальный адрес веб-страницы в глобальной сети, кратко отображающий ее содержание, понятный и удобный для восприятия пользователя.

<H3>Живой журнал инженера конструктора о профессии и жизни. Статьи которыми приятно делиться с друзьями.

<H3>Все статьи блога Павла Самуты

<H3>Друзья и вот снова "Джазовые вечера" проходят в Минске.

<H3>Добавить карту Sitemap XML персональных блогов и другие улучшения Livejournal.

<H3>Удивлять или даже шокировать.
