

*A different kind of Crypto Lottery*

## **Hello and Welcome**

Be aware, before you read these five pages carefully you should:

- like to gamble
- like to experiment
- like to help
- are bored about the bear market in crypto 😊

Note: If you think already now that this could be scam or spam or so, don't waste your time and drop this letter in the bin. Else, use 10min of reading time and get a view about what we offer.

### **Intro:**

The crypto world is currently in a sideways trend to find its base value. Especially Bitcoin. But there is definitely no doubt about that this period will sooner or later end and the Bitcoin will go its slow or even fast rise further.

We have no doubt about that this will happen. It's just a matter of time. The last years and especially last couple of months, cryptocurrency was more or less always a bit like gambling.

### **The Lottery:**

So, let's take this point as a challenge and also as a bit about against the boring time. Let's play a game. A kind of Lottery with acceptable entry and hopefully high outcome for the winners.

In fact, if Bitcoin raises until the Lottery end, everyone who takes part will be a Winner, finally.

Because that is based on the fact that you can expect to get back at least your entry stake after the Lottery end if you want.

### **The tech facts:**

We are working with an account that is already combined with a professional and safe working trading bot system.

Therefore, every value which will be invested is placed at the right time and will trade at the right time. And timing and time is actually the values that counts very much in the current crypto world. So, we won't do any unsafe experiments or anything that could lead to faults.

## **Let us have a look on the conditions of participation:**

An individual lottery participation will be at 25,00\$. (twenty-five USD\$)  
Your sending address will act as the receipt and stored in our database.  
As a second database verification, please send us an e-mail with the following:

- your country of residence. (optional, used for statistic)
- your year of birth. (optional, used for statistic)
- the crypto transaction ID (TXID). (mandatory, to assign your contact data to the transaction)

Important: Without the e-mail, we are not able to contact you.

And a promise: We will not use your e-mail address for marketing purpose, etc.

It looks a bit like an old fashion way, without any Social Media, etc. But that's the safest and easiest way to do.

**[At the end of this letter you find a detailed guide how to participate.](#)**

## **Finance security concept:**

All stakes of the participants will be value transferred to Gold (Vaultoro, Switzerland). This makes all entry stakes secure.

The Lottery organizer will top up the total amount collected with further 10% of the collected total amount out of own funds (also backed in Gold).

A loan in value of the total Lottery revenue will be taken and placed and used for the Lottery investment in the account portfolio. (The loan is backed by the Gold)

## **Limits and rules:**

Participation is limited to 1.000.000 players. If you are above the limit, we will contact you by e-mail and inform you to refund your entry stake back via crypto transaction. If you do not react to our e-mail after 60 days, your 25,00\$ will be used for charity (Red Cross, Red Crescent). If you want to spend your stake for the charity anyhow (within the 60 days limit), please let us know in a short return message.

The participation registration timeline is limited to **31 January 2019**.  
The winners will be drawn on **31 July 2019**.

## **Profits:**

Based on the number of participants and the value of the cryptocurrency inlay at time of draw the prices will be granted like this:

**First price is Bitcoin valued 25% of total entry stake value.  
(max. 250.000,00 USD, but min. 5000,00 USD)**

**Second price is Bitcoin valued 10% of total entry stake value.  
(max 100.000,00 USD, but min. 2000,00 USD)**

**Third price is Bitcoin valued 5% of total entry stake value.  
(max 50.000,00 USD, but min. 1000,00 USD)**

All others can get back their Lottery investment after winners draw within 60 days or donate as charity gift as described before. So, that help-needed people can also become winners.

On top, we split 50% of the account profit increase (if portfolio increases) and split from the 4th winning level up on into same parts. (25,00\$ + value split share of increasing portfolio)

Nobody can lose anything in this kind of Lottery. Sounds crazy. But also, nice to know.

## **Who are “We”? And why do we offer this Lottery?**

“We”, are Paw and Pava. Both 39 years young.

Two Crypto Enthusiasts from Finland and India. (yes, that is possible)

Since 2012 we are in the Crypto Universe and very much excited to be part of a future game changing finance and business system based on blockchain technology. It's just great to take part of a change in history. We believe in the technology and have linked our old business and jobs to it.

We made our lost and earnings, ups and downs over the past years and created many profits in value, knowledge and experience.

The bear market is quite boring. To make this time also useful and a bit excited, we decided to found this kind of Lottery. A simple idea, started as just for fun. We will probably not take any real profit of it (in fact, we are putting time, work and money into it + admin staff). But the only thing we like and that is also nice, is to hand out a price to the winners and support charity, if possible. It should be also seen as some kind of experiment, for science experience related to blockchain technology.

The charity organisations that we support are doing a great and very important job, especially in current war zones. They are well known in the world and need our all support.

Red Cross, Red Crescent

<https://media.ifrc.org/ifrc/>

As this Lottery is not an official one, please also handle this as it is like. "Anonymous" is the topic. Please share only with friends and people that you like.

If you hear about in future somewhere in public about Paw and Pava, you will remember something. 😊 We are looking into the option to publish some interesting stuff on a Facebook account.

If you still think this is scam or spam or so, then please go back to the note on top of this letter and do what you have to do.

If you like to participate and/or share, you are very welcome and your attention for reading was very much appreciated. Below you find the detailed participation description.

We wish you "Good Luck", "Thank you" and already now best wishes for 2019.

Make the world a better place. Safe, respectful, tolerant, open minded and free.

### **How to:**

To participate in the Lottery, you simply need to send the amount of 25,00 USD\$ to one of the following crypto receivers addresses you find below.

We accept Bitcoin, Ethereum, Litecoin, Bitcoin Cash and Dash.

Important: Do **not** send your "Private Key". Never do that!

We only need the sender's transaction ID, (TXID) to assign your participation.

How to find the TXID:

<https://support.coinjar.com/hc/en-us/articles/204770485-Finding-a-digital-currency-transaction-ID-TXID->

- follow next page

1. Send 25,00 USD\$ in chosen cryptocurrency to Lottery crypto address.
2. Look for your transaction ID (TXID) and prepare the e-mail.
3. Send an e-mail to [pawpava@protonmail.ch](mailto:pawpava@protonmail.ch) .
4. The e-mail could look like this example:

[Senders TXID (paste from clipboard)	] / Name	/ Country	/ Birth
0x1BvBMSEYstBatqTEr5Au4m8GFg7xJaMWN1	/ Donald Trump	/ USA	/ 1946

5. Done
