**Register: [bitly/X](#)**

The Population Mental Health State of Science Conference will showcase cutting-edge advancements in the areas of integrated care, ACEs and early prevention, mental health and technology, and health equity. The event will open with keynote Levitt Speaker, Dr. Ken Minkoff. Dr. Minkoff is a leading psychiatrist at Harvard University who focuses on dual diagnosis and integrated care. A panel discussion of the keynote will follow. After a break for lunch (provided) and an activity, there will be two speaker sessions, each with two track options. The event will conclude with an early evening reception that will encourage networking among the attendees.

**Skip Rizzo, PhD**

Research Professor  
University of Southern  
California

**Joanne Klevens,  
MD, PhD, MPH**

Former Epidemiologist  
CDC

**Ken Minkoff, MD**

Clinical Asst. Professor  
Harvard Medical School  
Keynote Speaker
