Personal Attributes: 10 Good Reasons to Employ Me and Why:

⇒ I am not a criminal, I don't gamble, smoke or have any addictions- I am not likely to steal from my employer for my next 'fix'. ⇒ I am not in debt or paying off a student loan- I am remaining financially astute and no longer chasing the illusion of education. ⇒ I am anti Trade Unionism- I am not an industrial trouble maker. ⇒ I am against workplace pensions- I will not be bought by governmental organisations. ⇒ I am intent on remaining single and childless- Another serving of the world's population problems? Pay for it! ⇒ I am meritocratic, hate Liberalism/ Marxism and Gender Politics- I am in control of my destiny. ⇒ I am anti-establishment- I am not trying to be different: I am what I am. ⇒ I am honest about my income- I play by the rules and expect everyone else to do so too. ⇒ I am a hard worker, with a positive work ethic and a wealth mindset- I have come to enjoy hard work, optimism and respect. ⇒ I am cultured, educated, and above all else: "HAPPY"- I take pride in my work and in my thinking.

Mindset & Skills:

What I am looking for is a team and environment where I may be nurtured and more importantly: loved. Somewhere like my current role at DSC where I will do virtually anything for the people there as I regard them so highly.

Building upon failure, I am no longer in any way about money: just job satisfaction- no matter how creative or humdrum the task may be- I have come to enjoy it all. I have a mind expanding mentality and an insatiable desire to meet like minded people. I use my non-verbal communication at every opportunity within the Office and this has given me influence and motivation to keep things running smoothly. I don't regard my role at DSC as work, as I love it so much. I expect there are people who are paid more, but do not feel the same way- I can only answer for my experience there.
