AIRFIX**Construction Kits****Each Series made to a
CONSTANT SCALE**

When you build an Airfix Construction Kit you are putting together detailed components to make an exact scale model. Each series in the Airfix range is to a constant scale. Model Railway enthusiasts will find that all the Aircraft Kits (except the Sky King series) and all the kits in the Guided Missile, Armoured Vehicles, Rolling Stock, 'OO' Scale Figures and Trackside series are just the right size for use with 'OO' and 'HO' gauge layouts.

Read the AIRFIX MAGAZINE every month

The Airfix Magazine is published every month, especially for you. It is the only Magazine devoted exclusively to plastic modeling, and each and every month it is packed with interesting articles written by famous people, news and reviews of new products from both British and foreign manufacturers, practical information on constructing and converting plastic kits.

Because it is your Magazine, contributions in the form of photographs, articles and correspondence from readers are included in every issue. You should address your communications to:

"The Editor,"
Airfix Magazine,
Brands Hatch Circuit,
Fawkham,
Nr. Dartford, Kent.

The Editor is also at your service for answering queries and helping you with your modelling problems.

Buy your Airfix Magazine, price 1s. 0d. monthly, from any Airfix stockist or local Newsagent, or to make absolutely sure of a regular supply, send your year's subscription of 16s. 0d. (U.S.A. \$3) to:

AIRFIX PLASTIC ENAMELS AND CEMENT

In order to construct and finish your Airfix Models to the highest standard, always use Airfix Paints and Cement. Airfix paint is guaranteed lead-free and is specially produced for plastic surfaces.

Although cement capsules are included in all Airfix Series 3, 4, 5 and 6 Construction Kits, it is also available separately in tubes or bottles.

PAINT SETS at 1/6 each or PAINTS separately at 7d. ea.
