

PICK 3 RE-RUN LOTTERY SYSTEM

- THIS SYSTEM IS ONE THAT USES **50/50** NUMBER GROUPS
- WE FOCUS ON THE 2 MOST COMMON 50/50 GROUPS
- **1 IS THE MORE:ALL EVEN/ MORE:ALL ODD NUMBER GROUPS**
- **1 IS THE MORE:ALL HIGH/ MORE:ALL LOW NUMBER GROUPS**
- YOU CHOOSE WHICH ONE YOU LIKE TO USE **RED** OR **GREEN**
- PLAY WHAT EVER GROUP WON THE LAST DRAWING

HERES HOW THE PICK 3 RE-RUN LOTTERY SYSTEM WORK:

LOOK AT THE LAST WINNING DRAW . DECIDE IF YOU WILL BE USING THE **RED** OR THE **GREEN** GROUPS(shown above) .. now go to the list below and Play WHAT ever group won the last drawing.

- If you win the first bet, keep the entire profit and get ready for the next game
- if you lose the first game, double the size of your bet (progressive wagering)
- if you lose the second game, double the size of your bet(progressive wagering)

-THIS SYSTEM ALWAYS BETS ON THE LAST WINNER

- YOU SHOULD GET A WIN BETWEEN 1 AND 4 GAMES MOST OF THE TIME
- A GOOD WAY TO CHOOSE A STATE TO USE THIS IN IS TO LOOK FOR STATES WHERE THIS SYSTEM HASNT WORKED FOR 2-3 DRAWS.THEN IT WILL BE AN EXCELLENT TIME TO RUN THIS SYSTEM

Example: First you will decide to use either the **Red** or **Green** **50/50** Groups.

For example purposes only we will use the **Green** Groups.

0-1-2-3-4 are the low digits and 5-6-7-8-9 are the high digits . The last winning number was **083** .. Since we are using the Green Filtering Grouping , we look at the digits to see if its a **More:All High** or a **More:All Low** **0** and **3** is low and **8** is high so the last winning number is a More:All Low number. Now since this System always bet on the LAST WINNER we will play the More:All Low Number Group (shown below)

More:All High vs More:All Low

055 056 057 058 059 066 067 068 069 077 078 079 088 089 099 155 156 157 158 159

(60) singles

To play Online it will cost you \$60 win win \$150 box
If you lose the first game double your bet(martingale) to recover your losses and make a profit.

- On second game it would cost you \$120 (double 1st bet) but your prize winning will be \$300 profit of \$180. Since we played 2 unit bets
- If you lose the second game double your bet (martingale) to recover your losses and make a profit
- On Third game it would cost you \$240(double the 2nd bet) but your prize winning will be \$150x4 \$600 overall profit of \$180

***** to cut cost, start off with .25cent bets and work your way up ***

In our example the last winner was 083 and we decided to use the **Green** Groups
More:All High vs More:All Low and we played this included list of singles

012 013 014 015 016 017 018 019 023 024 025 026 027 028 029 034 035 036 037 038
039 045 046 047 048 049 123 124 125 126 127 128 129 134 135 136 137 138 139 145
146 147 148 149 234 235 236 237 238 239 245 246 247 248 249 **345** 346 347 348 349
(60) singles

The next winner was **534** the System was a Winner 🍀 !! the number repeated from the
Same Green Group...
