

Flooring Transitions are the wood mouldings that add a professional finished look to create a smooth transition between floors (tile, carpet, vinyl, hardwood, etc) of same or different heights.

Here at Unique Wood Products, we create a flooring transition for every project. Something for every flooring, if you see something you cannot use, may it be simple, curved or complex we can create it. We in-house manufacture moulding and transitions for the residential, multi-family contractor or commercial project.

Transitions come unfinished, ready to be sanded and finished to many wood species,
