Curriculum Vitae (CV) for
Development/ NGO Sector

Curriculum Vitae (CV) for Development/ NGO Sector

Curriculum Vitae (CV) is the comprehensive document that outlines the skills, qualifications, achievements and experiences of a person.

It's appropriateness to the context in which it is presented is quite important in addition to the factual correctness. Before going into details about CVs for development agencies, it is useful to understand some facts about the sector. Most development agencies work on the **full life-cycle of the project** unlike the corporate sector. So, highlighting the non-core skills is an obvious advantage.
