# THIS IS LUMEA LIQUID WAX

Lumea has the widest selection of ambient tabletop lighting in the UK, supplying the hotel and restaurant trade around the world since 2001.

Lumea Liquid Wax offers hassle free candlelight that is quick, clean and easy to use; Lumea Liquid Wax candles are the professional's choice that won't let you down in the middle of service. Lumea design and produce an extensive range of holders suitable for an assortment of tables, from bistro to banqueting, Lumea can supply professional, ambient lighting to suit your size requirements.

Lumea holders are designed to specifically house and protect the Lumea Liquid Wax candle flame to provide long-lasting ambient table lighting that is safer than a traditional tealight and help your customers relax and enjoy spending more time in your venue.

This catalogue showcases our latest range of unique holders, with product videos available online at [www.lumea.co.uk](http://www.lumea.co.uk)

See the quick reference guide at the bottom of each page for dimensions, components, and the correct size of Lumea Liquid Wax candle to fit the holder, advising the maximum length of burn-time given the size.

**Lumea Liquid Wax,  
the Professional's Choice.**

## HASSLE-FREE CANDLELIGHT

Try the Lumea Liquid Wax candle system in your venue, both you and your staff will quickly see the following benefits:

**RELIABLE** Cheap, short-burning tealights fail and produce dense black smoke which disrupts service and the customer experience, a Lumea Liquid Wax candle lasts up-to 70 hours - equating to two weeks of reliable evening service.

**CLEAN** Spill-proof bottles filled with Lumea Liquid Wax are supplied ready to use with a pre-set wick that is ready to light with a long-nosed lighter. Designed not to smoke when burning, the wick is set at a specific height so the flame stays consistent and bright night after night.

**SAFER** A traditional tealight burns rapidly as an uncontrolled hazard. The flame of a Lumea Liquid Wax candle is controlled, slow burning and will self extinguish if accidentally knocked over by a customer. Lumea Liquid Wax is not flammable, it does not require COSHH storage, and is safe to store with other dry goods.

**ECONOMICAL** Relight, night after night until 100% of Lumea Liquid Wax has been burnt, leaving no wastage or mess that can be expected from a traditional tealight. Zero wastage and no mess to clean off tables allow front-of-house to focus on customer needs. Saving time and lowering operational costs long term.

Lumea Liquid Wax candles are the real-flame alternative to cheap tealights. Manufactured in our own factory, Lumea are able to stay competitively priced and provide an affordable, effective real-flame alternative to messy tealight candles with no soot, scent or debris.

Looking for a natural alternative? Try Lumea Cocofire, made from highly refined coconut oil and vegetable matter; it is a natural fuel source available in our most common size comparable to the Lumea code 400 Liquid Wax.

COCO400	CODE	700	400	340	250	120
36 Hours	BURN TIME	70 Hours	45 Hours	30 Hours	25 Hours	12 Hours
61 x 82 mm	WIDTH x HEIGHT	68 x 96 mm	61 x 82 mm	35 x 147 mm	50 x 67 mm	39 x 56 mm
72	BOTTLES PER CASE	36	72	72	144	288

Browse the catalogue and watch product videos online to help decide which Lumea holder is right for your venue and select the corresponding size of Lumea Liquid Wax candle.

Lumea Liquid Wax candles are not refillable. Please do not attempt to refill bottles or reuse the wick.

**BURN TIME:** Up to 45 hours, equivalent to a week's worth of service

Lumea LED Flicker Candles can be recharged with a lifetime of up to 6,000 hours per individual LED Flicker Candle.

The LED ensures bright and consistent illumination throughout the lifetime of the candle and inductive technology makes the candles easy to charge.

Use the remote control to switch all of the LED Flicker Candles on or off, adjust the brightness or select either a static light or flickering light effect.

Lumea LED Flicker Candles can be used in a selection of Lumea's range of candle holders - look for the  icon to see which holders are suitable.

Alternatively, Lumea offer an LED Flicker holder and candle package available to purchase online: [www.lumea.co.uk](http://www.lumea.co.uk)

## HOT. SAFE. RELIABLE.

Lumea Chafing Fuels deliver safe, high heat, time after time, so food is kept within the temperature safety zone and your customers go home satisfied.

The Lumea Chafing Fuel range has been carefully designed to address all food and beverage heating needs. Choose from the visible flame, spill-proof wick liquid fuel which has a six-hour burn time or the three-hour gel fuel with a 4kg refill bucket.

Lumea Chafing Fuel can be used in most food and beverage heating units including beverage urns, soup tureens and chafing dishes.
