

Dev 273x Introducing TypeScript 2

Contents

Module 1 Getting Started with TypeScript.....	5
Introduction	5
Introduction.....	5
Overview on TypeScript.....	5
What is TypeScript.....	5
Why TypeScript.....	5
History of TypeScript	7
TypeScript community.....	8
Installing TypeScript.....	8
Installing TypeScript.....	8
The TypeScript compiler.....	9
The TypeScript compiler	9
Compiler commands.....	10
TypeScript in Action	11
TypeScript editors and tools.....	11
Labs Overview And Config.....	11
Labs Overview.....	11
Install Visual Studio Code.....	12
To Install Visual Studio Code	12
Module 2 Programming and Types in TypeScript.....	13
Introduction	13
Mod 2 Introduction	13
Types in TypeScript.....	13
Why use types.....	13
How to declare variable in TypeScript.....	14
Types in TypeScript vs. JavaScript.....	16
Classification of types in TypeScript.....	17
Basic Types.....	17
Basic Types	17

Type any.....	21
Type Assertions.....	21
Complex Types.....	22
Introduction.....	22
Interfaces	22
Class Types	26
Function Types.....	28
Indexable Types.....	29
Classes.....	30
Inheritance in TypeScript	39
Type compatability and inference	41
Type Compatibility	41
Type inference	44
Functions and Function types	47
Functions and function types	47
Context and Scope	51
Function overloading.....	54
Labs Overview And Config.....	55
Labs Overview.....	55
Configuration_To Set Up The Lab Environment	56
Tutorial Lab01 Declaring And Using Types	57
To Declare Types.....	57
To Declare Functions	58
To Assert Types.....	60
Tutorial Lab02 Classes Enums AndInterfaces.....	63
To Use Classes.....	63
To Use Enums and Interfaces	64
To use arrays.....	66
Tutorial Lab03 Extending Classes.....	71
To Extend Classes.....	71
To Create An Overloaded Method.....	73
Module 3 Modules and Namespaces.....	78
Introduction	78

Namespaces	78
Multi-file namespaces	78
Referencing namespace entities in your code	79
Aliases.....	79
Module 3 Modules and Namespaces.....	80
Modules.....	80
Modules.....	80
Declaration Files.....	83
Ambient Modules and JavaScript libraries.....	84
Module Resolution.....	86
Modules or Namespaces	90
Working with external Libraries.....	91
Working with JavaScript Libraries.....	91
Importing a JavaScript library.....	91
Labs Overview And Config.....	92
Labs Overview.....	92
Configuration To Set Up The Lab Environment.....	92
Tutorial Lab01 To Use Namespaces.....	93
To Create Namespaces	93
To Reference Namespaces In Other Files.....	96
Tutorial Lab02 To Use Modules.....	98
To Setup Express For Testing.....	98
To Create External Modules.....	99
To Use CommonJS With SystemJS.....	104
To Use AMD With Require JS.....	106
Tutorial Lab03 To Use External Libraries.....	108
Using External Libraries.....	108
Using Ambient Namespaces.....	110
Module 4 Advanced topics.....	113
Introduction	113
Advanced Types.....	113
Iterators and Generators	113
Intersections and Unions	114

Type guards	116
Generics	119
Advanced Classes.....	124
Mixins.....	124
Decorators.....	126
Labs Overview And Config.....	127
Labs Overview.....	127
Configuration_To Set Up The Lab Environment	128
Tutorial Lab01 Using Advanced Types.....	128
Using Generics And Type Guards.....	128
Using Advanced Types And Iterators.....	131
Tutorial Lab02 Using Mixins And Decorators.....	133
Creating AMixin.....	133
Applying A Decorator.....	137
Tutorial Lab03 Configuring Builds.....	139
Setting Up Tsconfig.....	139
Vs Code Default Build	140
Tutorial Lab04 Using Async Methods.....	141
Using Promises.....	141
Using Async Await.....	145

Dev315x Advanced Angular

Contents

Forms	4
Template-Driven Forms	4
Introducing Forms	4
Template-Driven Forms	4
Reactive Forms	5
Reactive Forms.....	5
Form Validation	6
Form Validation.....	6
Labs Overview And Config.....	7
Labs Overview.....	7
Create a Template Driven Form	7
To Build a Submission Model	7
To Create a Template Driven Form.....	9
To Use ngModel.....	13
Create a Reactive Form	17
To Create a Reactive Form	17
To Bind a Reactive Form.....	21
Add Validation.....	23
To Validate a Reactive Form.....	23
To Validate Template-Driven Forms.....	27
Advanced RxJS.....	33
Observables.....	33
Observables.....	33
Operators.....	33
ReactiveX Operators.....	33
Labs Overview And Config.....	34
Labs Overview.....	34
Update Your Service.....	35
To Update Your Service to use RxJS.....	35

To Update your Component.....	39
Call Multiple APIs.....	41
To Create a New Search Service.....	41
To Create a new API Method Using RxJS.....	50
Combine Responses.....	52
To Create a Unified Service	52
To Merge Responses with RxJS.....	56
Advanced Components.....	62
Component Interaction	62
Component Interaction.....	62
Lifecycle Hooks.....	62
Introducing Lifecycle Hooks	62
Custom Directives.....	62
Introducing Custom Directives	62
Creating a Custom Directive.....	63
Custom Pipes.....	63
Introducing Custom Pipes.....	63
Creating Custom Pipes.....	64
Labs Overview And Config.....	64
Labs Overview.....	64
Create Display Components.....	65
To Create your Display Components.....	65
To Use Your Components.....	70
Create Favorite Function	77
To Enhance Your Template	77
To Create Favorite Method.....	81
Create Custom Directives and Pipes.....	90
To Create a Custom Directive.....	90
To Create a Custom Pipe.....	93
Production Builds and Universal	96
AOT Compilation vs.....	96
AOT vs JIT Compiling.....	96
Compilation Options.....	97

Production Builds.....	98
Development and Production Builds.....	98
Angular Universal.....	98
Introducing Angular Universal.....	98
Labs Overview And Config.....	99
Labs Overview.....	99
Create Production Build.....	99
To Create a Simple Build.....	99
To Create a Production Build.....	102
Use Angular Universal	104
To Install Angular Universal.....	104
To Use Angular Universal.....	105

Dev222x Using Open Source Web Tooling to Improve Development Proficiency

Contents

Module 1 - Node, NPM, and Bower	4
Resource Content: Node and Bower	4
Introduction to Node.js and Node Package Manager	4
Installing and Using Node.js	6
Node.js Module Usage	6
Introduction to Bower	9
Using Bower	10
Module Labs: Overview and Required Configuration	12
Labs Overview	12
Configuration: To Install Visual Studio Code	13
Configuration: To Set Up the Lab Environment	13
Tutorial Lab: Installing Node and NPM	14
To Install Node.....	14
To Configure NPM	15
Tutorial Lab: Installing and Using the Chalk Package	16
To Install Chalk	16
To Use Chalk.....	16
Tutorial Lab: Installing Bower	16
To Install Bower	16
To Install Angular using Bower.....	17
To Install Bootstrap using Bower.....	17
To Reference Angular and Bootstrap.....	17
Tutorial Lab: Installing Font Awesome	19
To Install Font Awesome.....	19
To Use Font Awesome	19
Module 2 - Yeoman and Express.....	20
Resource Content: Yeoman and Express	20

Introduction to Using Yeoman	20
Using a Yeoman Generator	22
Introduction to Express.js	22
Creating a Basic Express Server	23
Express Middleware Usage	24
Module Labs: Overview and Required Configuration	25
Labs Overview	25
Configuration: To Set Up the Lab Environment	25
Tutorial Lab: Installing Yeoman and Dependencies	26
To Install Yeoman	26
To Install Dependencies	26
To Install Yeoman Generators	26
Tutorial Lab: Creating an Angular App by using the Angular Generator	28
To Create an Angular App	28
To Install Express	30
To Implement Express.....	30
To Launch the App	31
To Implement App Modifications.....	32
Module 3 - Linting and Testing.....	34
Resource Content: Linting and Testing.....	34
Introduction to Linting	34
Linting Tools	35
Using jsLint	37
Introduction to Unit Test with Karma and Jasmine	38
Unit Testing with Jasmine	38
Setting Up Karma.....	39
Module Labs: Overview and Required Configuration	40
Labs Overview	40
Configuration: To Set Up the Lab Environment	41
Tutorial Lab: Linting with jsLint	42
To Install jsLint.....	42
To Execute jsLint.....	42
To Fix Errors.....	43

Tutorial Lab: Testing with Karma.....	45
To Install Karma	45
To Write Karma Tests.....	46
Module 4 - Minification and Compiling.....	47
Resource Content: Minification and Compiling	47
Introduction to Minification.....	47
Using UglifyJS.....	48
Introduction to Compiling.....	48
Using Compilers.....	49
Module Labs: Overview and Required Configura.....	49
Labs Overview	49
Configuration: To Set Up the Lab Environment	50
Tutorial Lab: Minifying.....	52
To Install NPM Packages	52
To Minify JavaScript.....	52
To Minify HTML	53
To Minify CSS.....	54
Tutorial Lab: Compiling Sass	55
To Install NPM Package.....	55
To Compile Sass.....	55
Module 5 - Gulp and Grunt.....	57
Resource Content: Using the Grunt and Gulp Task Runners	57
Introduction to Grunt	57
Using Grunt	57
Introduction to Gulp	59
Using Gulp	60
Module Labs: Overview and Required Configuration	61
Labs Overview	61
Configuration: To Set Up the Lab Environment	62
Tutorial Lab: Implementing Gulp and Grunt.....	62
To Install Gulp, Grunt, and Tools.....	62
To Implement Gulp.....	63
To Implement Grunt	64

DEV314X Angular Fundamentals

Contents

Setting Up Your Angular App.....	4
Introduction to Angular.....	4
Introduction.....	4
What is Angular?.....	4
Important Angular Components.....	4
Introduction to TypeScript.....	5
Introducing TypeScript.....	5
Why TypeScript?	6
History of TypeScript	7
Community and further learning.....	8
Introduction to Angular CLI.....	8
Introducing the Angular CLI.....	8
Why Should we Use Angular CLI?	8
Labs Overview And Config.....	8
Tutorial Lab Install Visual Studio Code.....	9
To Install Visual Studio Code	9
Tutorial Lab Installing Prerequisites.....	10
To Install Node.js and NPM.....	10
To Install TypeScript	11
To Install the Angular CLI	11
Tutorial Lab Using the Angular CLI.....	12
To Generate an Application Scaffold using the Angular CLI.....	12
To Generate a Module using the Angular CLI.....	13
To Use the Angular CLI to Run your App Locally.....	15
Modules And Services	17
Module Syntax.....	17
Introducing Modules	17
Module Syntax.....	18

Dependency Injection	19
Introduction to Dependency Injection (DI)	19
Using Dependency Injection	19
Introduction to httpClient	20
Introducing the HttpClient	20
Using the HttpClient	21
Services	21
Introduction to Services	21
Creating a Service	22
Using a Service	22
Labs Overview And Config	23
Labs Overview	23
Tutorial Lab Creating Interfaces	24
To Retrieve Sample Data	24
To Generate an Interface	29
To Implement an Interface	33
Tutorial Lab Creating Services	42
To Create a Service	42
To Import an Interface into Your Service	42
To Create a Service Method	43
Tutorial Lab Using HttpClient	46
To Use HttpClient	46
To Consume Services	50
Components And Directives	54
Components	54
Components	54
Generate Components	55
Binding Data to Templates	57
Introduction to Binding	57
BindingData	57
Pipes	58
Introducing Pipes	58
Using Pipes	59

Built In Directives.....	59
Introducing Directives.....	59
Using Directives.....	59
Lifecycle Methods.....	61
Angular Lifecycle	61
Labs Overview And Config.....	61
Labs Overview.....	61
Tutorial Lab Creating A Component.....	62
To Generate A Component	62
To Use a Service.....	63
To Instantiate a Component.....	66
Tutorial Lab Creating Templates.....	68
To Bind Data to Templates.....	68
To Use Structural Directives ngIf and ngForOf.....	70
To Use CSS and ngStyle.....	80
Tutorial Lab Built In Pipes And Directives.....	83
To Use Built In Pipes.....	83
To Create a Search with ngModel.....	86
Routing.....	91
Routing.....	91
Introduction to Routing.....	91
Using Routing.....	91
Route Parameters.....	93
Introducing Route Parameters	93
Using Route Parameters.....	93
Labs Overview And Config.....	94
Labs Overview.....	94
Creating Routes and Links.....	94
To Enable Routing	94
To Create Links.....	99
Using Route Parameters.....	104
To Define Parameters and Redirects.....	104
To Use Route Parameters	107
