## Updated Sports Mode & Perfect

### Balance

Updated sports mode allows you to shoot incredibly smooth shots even while going to extremes sports. High-performance motor realizes axis overlap & low angle shoot like a breeze. 3 axe's Variable speed adaptation is extremely sensitive to hand movements.

## Up To 12H Running Time

Recording all motions in a stable shot with the updated "time-lapse" Mode to create Dynamic effect, reflecting all movements of targeted objects throughout a day within seconds. Hohem iSteady Pro2 gimbal stabilizer lasts up to 12H and can also charge your action camera.

## Newly Developed 3D "Inception"

### Mode

(Not for Gopro Hero 8 ) This stabilizer features a newly developed "inception" Mode that would be able to vertically rotate your action camera 360°spontaneously when filming, giving you the master-like video-making experience.

## You Can Also Be a Professional

### Director

Hohem's sophistication and convertibility make it a unique production tool. This tool features the joystick, all following/all lock/pan following/pan & tilt following modes & 2 ¼ Screw hole for accessories such as a tripod or a phone holder.
